Bradley, 2015-03-15 The term filibuster often brings to mind a senator giving a long winded speech in opposition to a bill but the term had a different connotation in the nineteenth century invasion of foreign lands by private military forces Spanish Texas was a target of such invasions Generally given short shrift in the studies of American based filibustering these expeditions were led by colorful men such as Augustus William Magee Bernardo Gutierrez de Lara John Robinson and James Long Previous accounts of their activities are brief lack the appropriate context to fully understand filibustering and leave gaps in the historiography Ed Bradley now offers a thorough recounting of filibustering into Spanish Texas framed through the lens of personal and political motives why American men participated in them and to what extent the US government was either involved in or tolerated them We Never Retreat makes a major contribution by placing these expeditions within the contexts of the Mexican War of Independence and international relations between the United States and Spain *Engraved Prints of Texas* Mavis Parrott Kelsey, Robin Brandt Hutchison, 2005 A collection of illustrated black and white engravings depicting the history of Texas from 1554 to 1900 presented chronologically and featuring a brief introduction to the historical background of each era **Citizen Explorer** Jared Orsi, 2014 Life and times biography of a key explorer of the US West Our America: A Hispanic History of the United States Felipe Fernández-Armesto, 2014-01-20 A rich and moving chronicle for our very present Julio Ortega New York Times Book Review The United States is still typically conceived of as an offshoot of England with our history unfolding east to west beginning with the first English settlers in Jamestown This view overlooks the significance of America's Hispanic past With the profile of the United States increasingly Hispanic the importance of recovering the Hispanic dimension to our national story has never been greater This absorbing narrative begins with the explorers and conquistadores who planted Spain's first colonies in Puerto Rico Florida and the Southwest Missionaries and rancheros carry Spain's expansive impulse into the late eighteenth century settling California mapping the American interior to the Rockies and charting the Pacific coast During the nineteenth century Anglo America

expands west under the banner of Manifest Destiny and consolidates control through war with Mexico In the Hispanic resurgence that follows it is the peoples of Latin America who overspread the continent from the Hispanic heartland in the West to major cities such as Chicago Miami New York and Boston The United States clearly has a Hispanic present and future And here is its Hispanic past presented with characteristic insight and wit by one of our greatest historians
