Sterling It Meaning In World Finance:

What the Tariff Means to American Industries Percy Wells Bidwell,1956 Sterling Judd Polk,1956 *Administration and Operation of Customs and Tariff Laws and the Trade Agreements Program* United States. Congress. House. Committee on Ways and Means,1956 **Administration of Operation of Customs and Tariff Laws and the Trade Agreements Program** United States. Congress. House. Committee on Ways and Means,1956 International Politics ,1956 British Monetary Policy and the Balance of Payments, 1951-1957 Peter B. Kenen,1960 A detailed study of the revolution in Bank of England policy resulting from the government's response to the 1954-55 balance of payments crisis this is a first independent analysis The author investigates the evolution of official thinking and appraises the impact of monetary policy in this crucial period Peter Kenen reaches the unexpected conclusion that the Bank's orthodox monetary policies played a relatively small part in the redress of payments disequilibrium and that its most effective weapons were its most heterodox Finally he proposes ways in which the Bank of England can better control the credit base *Australia in the Global Economy* David Meredith,Barrie Dyster,2000-01-17 This up to date volume considers Australian economic development in light of worldwide political and social developments arguing that the Australian economy is an integral part of the world economy and subject to the same trends across the globe The book also focuses on domestic factors that have shaped the growth of the Australian economy such as the growth of exports the role of foreign capital and the positive contribution of migrants The authors also consider the Gulf Wars the East Asian financial crisis and globalization States and Markets Susan Strange,2015-10-29 *States and Markets* should be read by every student of international political economy *International Relations Theory* Susan Strange was one of the most influential international relations scholars of the latter half of the twentieth century She is regarded by many as the creator of the discipline of international political economy IPE and leaves behind an impressive body of work *States and Markets* is one of Strange's seminal texts Strange Introduces the reader to a unique critical model for understanding the relationship between politics and economics centred on her four faceted model of power consisting of security production finance and knowledge Using these terms Strange provides a rigorous analysis of the effects of political authority including states on markets and conversely of market forces on states The *Revelations* edition includes a new foreword by Ronen Palan British Imperialism P.J. Cain,A. G. Hopkins,2016-03-02 A milestone in the understanding of British history and imperialism this ground breaking book radically reinterprets the course of modern economic development and the causes of overseas expansion during the past three centuries Employing their concept of gentlemanly capitalism the authors draw imperial and domestic British history together to show how the shape of the nation and its economy depended on international and imperial ties and how these ties were undone to produce the post colonial world of today Containing a significantly expanded and updated Foreword and Afterword this third edition assesses the development of the debate since the book's original publication discusses the imperial era in the context of the controversy over globalization and shows how

the study of the age of empires remains relevant to understanding the post colonial world Covering the full extent of the British empire from China to South America and taking a broad chronological view from the seventeenth century to post imperial Britain today British Imperialism 1688 2015 is the perfect read for all students of imperial and global history

The European Rescue of the Nation State Alan Milward, 1999-12-16 Newly revised and updated this second edition is the classic economic and political account of the origins of the European Community book offers a challenging interpretation of the history of the western European state and European integration *When Capitalists Collide* Robert Vitalis, 2024-06-28 Robert Vitalis's empirically rich study challenges the left nationalist paradigm through which twentieth century Egyptian history and politics has generally been interpreted He argues with those who explain Egyptian economic development primarily in terms of class and of power struggles between British and Egyptian entrepreneurs and politicians Vitalis offers a rare detailed view of the objectives and political strategies of both international firms and Egypt's own big business rivals He highlights the career of Muhammad Ahmad Abbud modern Egypt's most successful businessman Vitalis's argument can be effectively applied to many other developing countries and his book makes a major contribution to ongoing debates regarding class underdevelopment and nationalism This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 *Britain and the Politics of Modernization in the Middle East, 1945-1958* Paul W. T. Kingston, 2002-11-07 In an historically informed critique of the theory and practice of development assistance this book examines Britain's foreign aid programme in the Middle East in the 1940s and 1950s After an assessment of the origins of what was dubbed the peasants not pashas policy notably the link between development sterling balances and post war imperial strategy the author focuses on planning and policy debates between British development experts their American rivals and Middle Eastern technocrats These debates which centred on issues such as afforestation irrigation and rural credit raise important questions about the nature and limits of the development process within the Middle East and the Third World which the author explores in his analysis This 1996 book will be of interest to development practitioners and scholars in development studies as well as to students of Middle East and imperial history

The Progress of Economics Warren Benjamin Catlin, 1962 *The Economic Background to Investment* H. B. Rose, 1960 *Currency and Coercion* Jonathan Kirshner, 2020-12-08 Jonathan Kirshner here examines how states can and have used international currency relationships and arrangements as instruments of coercive power for the advancement of state security Kirshner lays the groundwork for the study of what he calls monetary power by providing a taxonomy of the forms that such power can take and of the conditions under which it can have effect He then establishes the actual existence of monetary power by showing how the taxonomy is supported by the historical record including cases from nations from all

over the globe and throughout the twentieth century He uncovers how monetary power is affected by different monetary regimes the sources of its success and failure and the factors that lead states to turn to its use Kirshner thus succeeds in developing a generalized framework for the analysis of an important yet neglected form of state power that is likely to be of increasing importance in the post Cold War era Although some distinguished scholars have touched on the issue of monetary power there has been until now no standard text on the subject Integrating security studies and international political economy this book is a timely synthesis that will be important to the entire discipline of international relations

Tentative Program, 1940 **Labor and Industry in Britain**, 1954 **Japan's Postwar Economic Recovery and Anglo-Japanese Relations, 1948-1962** Noriko Yokoi, 2004-03-01 Ever since Japan's economy recovered in the 1960s scholars have been searching for the reasons for its meteoric postwar success Until now much research has been based on the study of Japan's society its political and economic infrastructure and its particular model of capitalism But now that American and British government documents from the 1950s have been released it emerges that the United States as part of its Cold War economic and military strategy in East Asia played a large part in assisting Japan out of its economic difficulties whereas Britain's role seems to have been more ambivalent and circumspect This book sets out to rectify the lack of full research into Anglo-Japanese trade relations from the late 1940s up to the early 1960s and to examine the impact of cultural differences and perceptions on diplomacy as well as the influence of prevailing political considerations like the Cold War This book highlights the ebbs and flows in bilateral relations as Japan increased its economic and financial presence in Southeast Asia and Britain retreated politically and economically from its Empire in the East

Consolidated Review of Current Information United States. Department of the Treasury. Library, 1956 *Colonial Trauma and Postcolonial Anxieties* Maureen Sioh, 2024-04-01 *Colonial Trauma and Postcolonial Anxieties* argues that economic decisions reflect unconscious anxieties about survival and dignity experienced in a cycle of repeat trauma tracing back to the original trauma of loss in colonialism Readers will understand how emerging economies evaluate the costs and benefits of key economic policies in the postcolonial era using a psychoanalytical framework While there are psychoanalytic studies of the economy and finance from a western perspective there have been no sustained psychoanalytic studies from the perspective of East Asian economies the fastest growing in the world Scholars will also find the methodology combining archival research with and field studies including rare interviews with senior decision makers useful in their own research since it is rare to find studies of social theory that are empirically rich This book will be of interest to policymakers and scholars of political economy international development human geography postcolonial studies psychoanalysis and area studies Southeast and East Asia The book can also be used as a text for graduate and upper level university courses
