Stevenage Ltd Aspects Of The New Planning And Politics Of Stevenage New Town 1945 To 1978:

Stevenage Ltd Robert Mullan, 2022-02-23 A study of particular aspects of the politics of planning a new town this book originally published in 1980 covers events from the inception of Stevenage in 1946 up to 1978 As a case study the focus is on two expansion schemes which were intended to extend the designated area of the town and on the public protest that the two schemes engendered Emphasis is placed on the structure and action of three groups of people the urban managers the Stevenage Development Corporation Stevenage industrialists and local organisations engaged in protest The theoretical focus is on the thesis of urban managerialism the book examines the constraints placed upon both the structure and action of the Stevenage urban managers over the previous thirty years In showing how matters work in practice it directs light on issues of theory which other sociologists of planning such as Pickvance and Castells had only discussed in the abstract The author argues that the experience of Stevenage illustrates a case of urban policy particularly in housing and employment being determined by the interests of industry alone while at the same time pointing to the interrelationship of Stevenage industry and the town's Development Corporation He examines the membership strategies and aims of the various protest groups involved over the years and casts considerable doubt on the notion that the groups were for democracy and against bureaucracy Finally he concludes controversially that in Stevenage's case public participation and protest were basically irrelevant to the decision making processes *Routledge Revivals: Theories of Planning and Spatial Development (1983)*

Philip Cooke, 2016-09-19 First published in 1983 this book attempts to unify two bodies of theory which had become severely disjointed Theories of the planning process had become detached from those of the urban and regional processes which are the subject of planning intervention The author argues that major weaknesses of planning intervention in cities and regions have resulted from this split and shows how it is possible to develop an integrated theory of the relationship between planning and spatial development The mechanism which helps to unify the two fields is the division of labour This poses problems for the planning system as its spatial requirements change but it depends upon the state planning framework in order to overcome those obstacles hindering its capacity for spatial reorganisation This book offers a thorough analysis of these obstacles and requirements by references to contemporaneous theoretical advances in the study of the development process the state especially at sub national level and the labour market It is argued that the way capital makes use of urban and regional space can be explained by using the theoretical framework which is developed and on this basis point to certain innovative ways in which the processes underlying urban and regional de industrialisation may be countered **Peaceful**

Path Stephen Ward, 2016-03-14 The title of this book is taken from Ebenezer Howard's visionary tract To morrow A Peaceful Path to Real Reform Published in 1898 as a manifesto for social reform via the creation of Garden Cities it proposed a new way of providing cheap and healthy homes workplaces and green spaces in balance in cohesive new communities underpinned by radical ideas about collective land ownership While Howard's vision had international impact in this book

planning historian Stephen Ward largely honors the special place that Hertfordshire occupies on the peaceful path beginning with the development of Letchworth and Welwyn Garden Cities *Community Life* Graham Crow, Graham Allan, 2014-06-06

First published in 1994 The sociology of community is currently undergoing something of a revival and this book has been written with the aim of contributing to this process in a number of ways First of all it draws attention to the burgeoning literature on sociological aspects of community life Secondly its bring together the various studies considered here into a more coherent whole than they possess as simply a collection of separate pieces of research **Sociological Abstracts** Leo P.
