**Marriage, Sex, and Procreation** Steven Schafer,2019-09-09 The contemporary church s debate on the inclusion of same sex individuals and their relationships has devolved into diametrically opposed positions Rather than resolving the argument the conversation between the two sides reflects the impasse that is taking place in denominations across the West It is clear that the dispute cannot be resolved while couched in these terms In this timely work Steven Schafer invites the reader to move beyond the terms of the current debate toward the underlying doctrinal concerns so often glossed over by that discussion This book is a work of hermeneutics that engages the contemporary discussion on the legitimacy of same sex relationships with the grand theological narrative handed down by the church By placing four contemporary revisionists in dialogue with the work of Augustine the book provides language and theological avenues to reframe the debate and contributes to the church s ongoing discernment

**Faulkner on the Color Line** Theresa M. Towner,2010-12-01 This study argues that Faulkner s writings about racial matters interrogated rather than validated his racial beliefs and that in the process of questioning his own ideology his

fictional forms extended his reach as an artist After winning the Nobel Prize in 1950 Faulkner wrote what critics term his later novels These have been almost uniformly dismissed with the prevailing view being that as he became a more public figure his fiction became a platform rather than a canvas Within this context Faulkner on the Color Line redeems the novels in the final phase of his career by interpreting them as Faulkner s way of addressing the problem of race in America They are seen as a series of formal experiments Faulkner deliberately attempted as he examined the various cultural functions of narrative most particularly those narratives that enforce American racial ideology The first chapters look at the ways in which the ability to assert oneself verbally informs matters of individual and cultural identity in both the widely studied works of Faulkner s major phase and those in his later career Later chapters focus on the last works providing detailed readings of *Intruder in the Dust* *Requiem for a Nun* the Snopes trilogy *A Fable* and *The Reivers* The book examines Faulkner as he confronted the vexing questions of race in these novels and assesses the identity of Faulkner as the Nobel Prize winner who claimed on many occasions that he was tired maybe written out In his decision not to speak in the identity of the Black people represented in his fiction in his decision to write instead about the complexities of all racial constructions he produced a host of characters suffering within the rigid protocols on race that had been enforced in America for centuries As a private white individual he could never be other than what he was Rather than attempt to reconcile Faulkner the public man with the private one however this study concludes that through his fiction Faulkner the artist questioned himself and came to understand others across the color line      A Standard History of Erie County, Ohio Hewson Lindsley Peeke,1916
