Stewardship Nathan Meador, Heath Curtis, 2021-08-04 Stewardship isn't just managing resources it's soul care Stewardship of time talents and treasure isn't just about sustaining the material of the church It's about guiding those resources in service of the church's primary mission proclaiming the good news of Jesus Christ Stewarding the lambs of Christ that make up your congregation encompasses all aspects of their lives material and spiritual Nathan Meador and Heath R Curtis present a practical theology of stewardship focused on ministry in service of the gospel Guiding pastors away from the pitfalls of idolatry around money they instead call stewards to embrace their identity in Christ and encourage their congregations to do the same This fresh approach to stewardship reorients both individuals and congregations toward their true purpose as stewards who have been baptized into Christ Stewardship will help pastors to teach and preach stewardship as a call to repentance and new life The Doctrine of the Holy Spirit: Subject analysis and indexes Esther Dech

Schandorff, 1995 **Product Stewardship in Action** Helen Lewis, 2017-09-08 Product Stewardship in Action describes how and why leading companies are taking responsibility for the environmental impact of their products and packaging Product stewardship often referred to as extended producer responsibility or EPR is the idea that everyone that benefits commercially from a product including manufacturers distributors and retailers has a shared responsibility to minimize its environmental impacts Written primarily for a business audience it draws on the knowledge and experience of industry practitioners and other experts to provide a structured approach to product responsibility within firms This will help those new to the field as well as more experienced practitioners to develop an effective response to stakeholder concerns about the environmental impacts of their products and packaging Unlike other resources on product stewardship and EPR which tend to focus on the design or evaluation of public policy this book highlights the business case for action It argues that companies can achieve shared value both public and commercial value when they take a proactive and knowledge based approach to the life cycle management of their products Product Stewardship in Action focuses on product stewardship as an effective business strategy rather than a philanthropic exercise To be effective it needs to be based on a good understanding of product impacts and stakeholder concerns and the risks and opportunities that these present to the business The most effective responses will be those that address material issues in the product life cycle while supporting the achievement of other corporate goals and

stewards are by no means idle words nor exaggerations God is still waiting to open the windows of heaven and pour out his blessings Kauffman examines the implications of the Bible's teachings regarding the proper stewardships of our lives our abilities and our possessions His emphasis is much broader than money but he makes a vigorous plea for increased giving and assures the reader of new blessings from God Is it fair for one family to have more food than they can eat more money than they can spend more clothes than they can wear and more houses than they can live in while other families have no food to eat no money to spend only rags to wear and no roof over their heads Christian stewardship demands that we share and that we teach others to share Energy crises depletion of natural resources and the hunger in the world call into question the morality of affluence If humanity is to survive we must become better stewards Those who read this book will develop a new appreciation for God's generosity to us and a new sense of responsibility for making the best use of his gifts **Childhood**

Is It Too Late? John B. Cobb, 2021 In the fifty years since its initial publication *Is It Too Late* has proven its prescience in ways both significant and dire As the first book length philosophical and theological analysis of the environmental crisis this work introduced a generation to the key elements of crisis while suggesting ways that religion can be a force for hope rather than an instrument of despair Covering an ambitious range of issues from deforestation to abortion from religious views of the natural world to the need for technological innovation to avoid nature s destruction John Cobb moves deftly from philosophical to theological to scientific learning and integrates these interdisciplinary insights into a compelling vision for what he calls a new Christianity Comprehensive in scope non technical in expression and concise in length *Is It Too Late* provides the scholar and the student alike with a readable and compelling orientation to the philosophical and theological stakes of ecology This Fortress edition includes a new preface in which Cobb reflects on the current situation the specific promises and perils we now face and how his own thinking on matters theological and ecological has evolved in the last half century
