Litan, 2004-05-13 Founded in 1948 amid bloodshed and the near devastation of the Jewish people after the Holocaust modern Israel is something of a miracle In a little more than fifty years of existence the country has evolved into a significant economic and military power both feared and resented by its Arab neighbors in the volatile Middle East In *Sticking Together* an Israeli and an American examine the major challenges confronting Israel within its own borders These challenges well known to Israelis but relatively little known elsewhere have emerged in part out of the country's experience with large scale immigration Like the United States Canada and Australia Israel has tried to melt different peoples into a cohesive nation While its citizens have forged common bonds under circumstances of adversity particularly constant threats from Palestinians and from neighboring Arab countries the fabric of Israeli society is torn by four major schisms between immigrants and native Israeli between Jews and Arabs between secular and religious Jews and between Jews of different cultural and national backgrounds such as Ashkenzim and Sephardim Gradually and often with great difficulty Israelis have learned to accommodate and respect the deep differences among its population To borrow a culinary analogy Israeli society much like American society has become more salad bowl than melting pot *Sticking Together* examines the many challenges confronting Israel's experience with pluralism and in the process draws lessons that might prove useful to other societies that struggle to accommodate the needs of highly diverse populations

*Sticking Together* Jackie S. Gerstein, 1999 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company Sticking Together Jaclyn S. Gerstein, 2013-08-21 First published in 2000 Experiential family counseling is an action oriented approach to family therapy Through the use of structured games and physical and intellectual challenges many clinicians find that they are able to gain insight into the behaviors and responses that perpetuate a family's problems While traditional treatment methods often become bogged down in verbal sparring or blame placing between family members experiential counseling calls for families to work together to succeed in overcoming obstacles that are set before them And because many experiential activities can be designed as metaphors for a family's individual problems counselors using this treatment method are given an excellent opportunity to help families practice actual solutions that can be used in their daily interactions and experiences In *Sticking Together* Jackie Gerstein has given therapists and family counselors a

wonderful tool for introducing experiential counseling into their own practices In addition to a thoughtful overview of the general uses and benefits of this unique technique she also provides practical guidelines for developing experiential family counseling sessions Key features include A core section of experiential activities games and exercises for family therapy Cautions that should be observed when using these activities with certain populations Detailed processing questions with each exercise that can help families to interpret the results of experiential activities Suggestions to encourage family goal setting A discussion on the need for ongoing assessment during the course of experiential therapy Samples of important documents necessary in experiential therapy programs including performance agreements and informed consent forms With an easy to use format *Sticking Together* offers readers an extensive selection of family building initiatives that promise to introduce fun into the vocabulary of family therapy *Sticking Together*, 1992 This document summarizes presentations made at a national policy forum concerning children's transition from home and preschool to the first years of elementary school Three presentations by individual speakers examined 1 the strategic importance of linkages and the transition between early childhood programs and early elementary school 2 program coordination and other issues in strengthening linkages and 3 findings and implications of a study on transitions to kindergarten in American schools Three panel discussions considered the following topics assessment issues related to transition policy issues related to developmentally appropriate curricula parental involvement and multiculturalism and administrative issues and barriers to the development of stronger linkages and transition programs Small group sessions discussed barriers to strategies for and policy implications of the development of transition programs These sessions also tried to incorporate the information presented in the forum into regional agendas for support of transition programs Appendices include a list of forum participants and a description of the early childhood program efforts of each of the 10 educational research laboratories BC *Stick Together* Jon Gordon, Kate Leavell, 2021-02-25 Build a stronger team with this illustrated fable From bestselling author Jon Gordon and coauthor Kate Leavell *Stick Together* delivers a crucial message about the power of belief ownership connection love inclusion consistency and hope The authors guide individuals and teams on an inspiring journey to show them how to persevere through challenges overcome obstacles and create success together *Stick Together* follows Coach David a high school basketball coach looking to motivate his team for the new season The team members are given sticks with words written on them and tasked with a number of missions To find another player with the same word written on their stick To explain why that word is important for a team to be their best To render their sticks unbreakable As the players work together to complete their tasks they discover how to make their team stronger and create an unbreakable bond Perfect for student athletes and teams in all industries including business education healthcare and nonprofit and for readers of all ages *Stick Together* will resonate with anyone looking to improve their team performance and excel in a group environment
