**British Jewry, Zionism, and the Jewish State, 1936-1956** Stephan E. C. Wendehorst, 2011-11-17. Stephan E. C. Wendehorst explores the relationship between British Jewry and Zionism from 1936 to 1956, a crucial period in modern Jewish history encompassing both the Shoah and the establishment of the State of Israel. He attempts to provide an answer to what at first sight appears to be a contradiction: the undoubted prominence of Zionism among British Jews on the one hand and its diverse expressions ranging from aliyah to making a donation to a Zionist fund on the other. Wendehorst argues that the ascendancy of Zionism in British Jewry is best understood as a particularly complex but not untypical variant of the 19th and 20th century's trend to re-imagine communities in a national key. He examines the relationship between British Jewry and Zionism on three levels: the transnational Jewish sphere of interaction, the British Jewish community and the place of the Jewish community in British state and society. The introduction adapts theories of nationalism so as to provide a framework of analysis for Diaspora Zionism. Chapter one addresses the question of why British Jews became Zionists; chapter two how the various quarters of British Jewry related to the Zionist project in the Middle East; chapter three Zionist nation building in Britain; and chapter four the impact of Zionism on Jewish relations with the larger society. The conclusion modifies the original argument by emphasising the impact that the specific fabric of British state and society, in particular the Empire, had on British Zionism.

**Cities of Refuge** Lori Gemeiner Bihler, 2018-04-01. Contrasts the experiences of German Jewish refugees from the Holocaust who fled to London and New York City. In the years following Hitler's rise to power, German Jews faced increasingly restrictive antisemitic laws and many responded by fleeing to more tolerant countries. *Cities of Refuge* compares the experiences of Jewish refugees who immigrated to London and New York City by analyzing letters, diaries, newspapers, organizational documents and oral histories. Lori Gemeiner Bihler examines institutions, neighborhoods, employment, language use, name changes, dress, family dynamics and domestic life in these two cities to determine why immigrants in London adopted local customs more quickly than those in New York City yet identified less as British than their counterparts in the United States did as American. By highlighting a disparity between integration and identity formation, Bihler challenges traditional theories of assimilation and provides a new framework for the study of refugees and migration. This is the first comprehensive comparative study of German Jewish immigration during the period of National Socialism. Comparing German Jews who fled their homeland and resettled in London with those who resettled in

New York City Bihler carefully documents the distinct structural conditions each group encountered and consequently the divergent lives the two immigrant groups led Bihler's numerous significant insights would be unattainable without her intellectual commitment to rigorous comparative study Judith M Gerson coeditor of *Sociology Confronts the Holocaust Memories and Identities in Jewish Diasporas* Israeli Identity in Transition Anita Shapira, 2004-10-30 The last 15 years have witnessed deep changes in Israeli society The naive solidarity of the early years of statehood has given way to more sophisticated approaches and the atmosphere of the 1990s was conducive towards critique and open discussion It was the age of the Oslo Accords of the large wave of immigrants from the Former Soviet Union economic growth and prosperity and a concurrent feeling of security and well being Israel was fast becoming a postcapitalist society a junior member of the global village This newly acquired self assurance led to openness towards unorthodox views on basic questions of Israeli identity The new mood found expression in the cultural climate and in the public debates The Zionist narrative in relation to the Palestinians the early troubled absorption of immigrants from Islamic countries the discrimination against the Arab Israeli minority the delay in the 1950s in incorporating the memory of the Holocaust into collective memory the Zionist attitude towards the Jewish Diaspora all these were issues on the cultural and intellectual agenda subjects of heated controversies This book attempts to come to grips with these themes The complex texture of Israeli society is drawn here by a number of hands presenting up to date approaches as viewed by experts

**Minority Internal Migration in Europe** Gemma Catney, 2016-04-22 Immigration is a major component of population change for countries across Europe However questions remain about where immigrants go after they arrive in a new country What are the patterns of internal migration of minorities immigrants and their descendants and what are the causes and implications of these flows Migration within a nation state is a powerful force redistributing the population and altering the demographic social and economic composition of regions cities and neighbourhoods Yet relatively little is known about the significance of ethnicity in migration processes or how population movement contributes to immigrant and ethnic integration Minority internal migration is an emerging field of academic interest in many European countries in the context of high levels of immigration and increased political interest in inter ethnic relations and place based policies This book brings together experts in the fields of migration ethnicity and diversity from across Europe to examine patterns of residential mobility of minorities and to synthesise key themes theories and methods The analyses presented make important contributions to theories of migration and minority integration and may inform policies that aim to respond to local population change and increasing diversity The conclusions of the book form an agenda for future research on minority and immigrant internal migration in developed societies
