## Stille Zeile Sechs:

*(Re)casting the Self in Memory Narratives* Kimberly Anni Strehlow, 2009 [Textual Responses to German Unification](#)  
Carol Anne Costabile-Heming, Rachel J. Halverson, Kristie A. Foell, 2013-07-05 The unification of the two German states changed the geo political economic social and cultural borders of Germany and Europe This volume in three parts researches how East German and West German authors and directors reacted to these radical changes The basis of this research are fictional autobiographical journalistic and cinematic texts The authors and directors presented in this volume not only comment on the changes which they themselves experienced but also voice their changing attitudes to their own past within the divided Germany

**Rereading Monika Maron** Deirdre Byrnes, 2011 This book provides a comprehensive analysis of the writing of Monika Maron Her biography charts a complex relationship with the GDR state from initial ideological identification to sustained radical rejection Situating its reflections on her work against the backdrop of a changing critical landscape this analysis takes account of the re contextualisation of her writing necessitated by the collapse of the GDR The author charts the development of a number of seminal themes in Maron s oeuvre The search for an authentic form of expression in her earliest texts gave way to a focus on the writing and the rewriting of history The demise of the political system in 1989 led to an exploration in her work of more intimate themes Maron s post Wende writing makes an important East German contribution to debates on memory transmission and generational forgetting Her most recent novels are concerned with the rupture and the ultimate refashioning of biographies in a post GDR age Rereading her texts in a post Wende light the author explores the complexity of Maron s relationship with the state from which she emerged and demonstrates how this complexity manifests itself in her writing before and after 1989 This study offers new perspectives on Maron s work and illuminates the significance of her contribution to contemporary German literature

[Monika Maron in Perspective](#), 2016-08-29 In diesem Band werden zum ersten Mal die Ansichten von 12 Forschern zum uvre der Berliner Autorin Monika Maron 1941 zusammengebracht Die Beitr ge entstanden im Rahmen

eines internationalen Symposiums anlässlich des 60. Geburtstages der Autorin das Ende März 2001 an der Universität Gent stattgefunden hat. Junge wie etablierte Wissenschaftler haben Einzelanalysen und Übersichtsartikel verfasst, die zusammen das gesamte Œuvre von Flugasche bis Pawels Briefe umspannen und zugleich einen Ausblick auf die Zukunft ermöglichen. Die gemeinsame dialogische Ausrichtung der präsentierten Einblicke unterteilt sich darin, dass jeweils mit eigener Akzentsetzung die Grenzen des Textes nach außen hin überschritten werden. Dabei werden nicht nur die vielfältigen Wechselwirkungen zwischen Text und Zeit, sondern auch die bisher viel weniger thematisierte Bedeutung anderer Texte sowie die diversen Arten der Rezeption untersucht. Methodologisch reichen die Ansätze von der traditionellen Hermeneutik über historische Fragestellungen, Diskursanalyse und Rezeptionstheorie bis hin zu Überlegungen zur Ethik der Ästhetik. Eine umfangreiche Bibliographie in der möglichst umfassende Übersicht über Verbreitung und Rezeption von Marons Werken geboten wird, schließt den Band ab. Monika Maron in Perspektive dokumentiert so in den Beiträgen wie in der Bibliographie den heutigen Stand der Forschung und liefert zudem zahlreiche Impulse zu einer weiteren Auseinandersetzung mit dem Werk.

Many of the individual entries are annotated with brief descriptions of major works and the tables of contents for collections and anthologies. The entries are cross-referenced and each volume includes indexes.

**The Last Revolutionaries** Catherine Epstein, 2009-06-30 The Last Revolutionaries tells a story of unwavering political devotion; it follows the lives of German communists across the tumultuous twentieth century. Before 1945, German communists were political outcasts in the Weimar Republic and courageous resisters in Nazi Germany; they also suffered Stalin's Great Purges and struggled through emigration in countries hostile to communism. After World War II, they became leaders of East Germany, where they ran a dictatorial regime until they were swept out of power by the people's revolution of 1989. In a compelling collective biography, Catherine Epstein conveys the hopes, fears, dreams, and disappointments of a generation that lived their political commitment. Focusing on eight individuals, The Last Revolutionaries shows how political ideology drove people's lives. Some of these communists, including the East German leaders Walter Ulbricht and Erich Honecker, enjoyed great personal success. But others, including the purge victims Franz Dahlem and Karl Schirdewan, experienced devastating losses. And as the book demonstrates, female and Jewish communists faced their own sets of difficulties in the movement to

which they had given their all Drawing on previously inaccessible sources as well as extensive personal interviews Epstein offers an unparalleled portrait of the most enduring and influential generation of Central European communists In the service of their party these communists experienced solidarity and betrayal power and persecution sacrifice and reward triumph and defeat At once sordid and poignant theirs is the story of European communism from the heroic excitement of its youth to the bureaucratic authoritarianism of its middle age to the sorry debacle of its death **Finding a Voice**

,2021-12-28 Finding a Voice explores aspects of the use and function of language in East Germany which resulted from Party control of public discourse during the period of the German Democratic Republic A distinctive feature of the volume which brings together essays by British and German scholars is the wide variety of areas which are incorporated in this survey from political and public discourse through aspects of sociolinguistics and the teaching of German to a spectrum of artistic forms ranging from rock music and film to poetry and the novel In particular the relationship between public discourse and the events of the Wende is explored in a number of contributions Most of the works and issues considered are discussed in English here for the first time and the volume as a whole should be of interest to scholars concerned with the GDR and with contemporary German culture to undergraduate and postgraduate students and also to others interested in the history and culture of Germany since 1945 Nine of the essays are in English and four in German *Generational Shifts in Contemporary*

*German Culture* Laurel Cohen-Pfister,Susanne Vees-Gulani,2010 The concept of the generation in today s German culture and literature and its role in German identity In the debates since 1945 on German history and culture the concept of generations has become ever more prominent Recent and ongoing shifts in how the various generations are seen and see themselves in relation to history and to each other have taken on key importance in contemporary German cultural studies The seismic events of twentieth century German history are no longer solely first generational lived experiences but are also historical moments seen through the eyes of successor generations The generation seen as a category of memory thus holds a key to major shifts in German identity The changing generational perspectives of German writers and filmmakers not only reflect but also influence these trends exposing both the expected differences between generational views and unexpected continuities Moreover as younger artists reframe recent history older generations like the 1968ers are also contributing to these shifts by reassessing their own experiences and cultural contributions This volume of new essays applies current discourse on generations in German culture to contemporary works dealing with major sociohistorical events since the Nazi period Contributors Svea Brunert Laurel Cohen Pfister Friederike Eigler Thomas C Fox Katharina Gerstenberger Erin McGlothlin Brad Prager Ilka Rasch Susanne Rinner Caroline Schaumann Maria Stehle Reinhild Steingruber Susanne Vees Gulani Laurel Cohen Pfister is Associate Professor of German at Gettysburg College and Susanne Vees Gulani is Assistant Professor of German and Comparative Literature at Case Western Reserve University **Post-fascist**

**Fantasies** Julia Hell,1997 Employing an approach informed by Slavoj Žižek s work on the Communist s sublime body and by

British psychoanalytic feminism's concern with feminine subjectivity. Hell first examines the antifascist works by exiled authors and authors tied to the resistance movement. She then strives to understand the role of Christa Wolf, the GDR's most prominent author in the GDR's effort to reconstruct symbolic power after the Nazi period.

**A Rich Field Full of Pleasant Surprises** Alejandra Moreno-Álvarez, José Francisco Fernández, 2014-06-19. The essays collected in *A Rich Field Full of Pleasant Surprises* have been written by a number of lecturers from different Spanish universities in order to offer a picture of the current state of affairs in English Studies covering the areas of Contemporary Literature, Postcolonial Studies, Feminist and Gender Studies, Globalization and Media, Film, Music, and Crime Fiction among others. The essays comprised in this volume tackle theoretical issues as well as practical cases showing the vitality and scholarly rigour of all kinds of literary and cultural manifestations worldwide, particularly within a European framework. The title of the book gives expression to the innovative and inspiring teaching of Professor Socorro Suárez Lafuente to whom the collection is dedicated.

*German Writers and the Politics of Culture* Paul Cooke, Andrew Plowman, 2003-12-09. Before the fall of the Berlin Wall, many East German writers were praised in the Western world as dissident voices of truth bravely struggling with the draconian constraints of living under the GDR's communist regime. However, since unification, Germany has been rocked by scandals showing the level to which the Stasi, the East German Secret Police, controlled these same writers. This is the first study in English to systematically explore how the writers have responded to the challenge of dealing with the Stasi from the 1950s to the present day.

*After the Stasi* Annie Ring, 2015-10-22. Why did so many citizens of the GDR agree to collaborate with the Stasi? Reading works of literature since German unification in the light of previously unseen files from the archives of the Stasi, *After the Stasi* uncovers how writers to the present day have explored collaboration as a challenge to the sovereignty of subjectivity. Annie Ring here interweaves close analysis of literary fiction and life writing by former Stasi spies and victims with documents from the archive, new readings from literary modernism and cultural theories of the self. In its pursuit of the strange power of the Stasi, the book introduces an archetypal character in the writing of German unification: one who is not sovereign over her or his actions but instead is compelled by an imperative to collaborate, an imperative that persists in new forms in the post-Cold War age. Ring's study identifies a monumental historical shift after 1989 from a collaboration that took place in concert with others in a manner that could be recorded in the archive to the more isolated and ultimately less accountable complicities of the capitalist present. While considering this shift in the most recent texts by East German writers, Ring provocatively suggests that their accounts of collaboration under the Stasi and of the less than sovereign subjectivity to which it attests remain urgent for understanding the complicities to which we continue to consent in the present day.

*The Novel in German since 1990* Stuart Taberner, 2011-09-01. Diversity is one of the defining characteristics of contemporary German language literature, not just in terms of the variety of authors writing in German today but also in relation to theme, form, technique, and style. However, common themes emerge: the Nazi past, transnationalism, globalisation, migration, religion,

and ethnicity gender and sexuality and identity This book presents the novel in German since 1990 through a set of close readings both of international bestsellers including Daniel Kehlmann's *Measuring the World* and W G Sebald's *Austerlitz* and of less familiar but important texts such as Yad Kara's *Selam Berlin* Each novel discussed in the volume has been chosen on account of its aesthetic quality its impact and its representativeness the authors featured among them Nobel Prize winners G nter Grass Elfriede Jelinek and Herta and Paul Amirani demonstrate the energy and quality of contemporary writing in German

*Encyclopedia of Contemporary German Culture* John Sandford, 2013-04-03 Pre and post unification culture Includes Austria and Switzerland Annotated suggestions for further reading English and German language works [Mapping the Contours of Oppression](#) Owen Evans, 2006 Despite all the assertions towards the end of the twentieth century that the literary subject had expired along with the author the wave of autobiographies published in German after the Wende was a clear indication that on the contrary life stories were very much alive In this study Owen Evans examines the work of eight authors Ludwig Harig Uwe Saeger Ruth Kluger G nter de Bruyn G nter Kunert Christoph Hein Grete Weil and Monika Maron who all published personal texts after 1989 dealing either with life in Nazi Germany or the GDR and in some cases both By means of close textual analysis Evans explores the impact these regimes had on the individuals concerned and the contrasting ways in which the authors handle the autobiographical project They adopt varying textual strategies to render the self on the page with some employing overt fiction and yet in each case the project was clearly motivated by the need to treat psychological wounds inflicted on the self by totalitarianism In their mapping of the contours of oppression the texts at the heart of this study combine to offer a powerful defence of literary autobiography in Germany at least as a valuable means of tackling the legacy of totalitarianism **A History of Women's Writing in Germany, Austria and Switzerland** Jo Catling, 2000-03-23 This volume makes the wide ranging work of German women writers visible to a wider audience It is the first work in English to provide a chronological introduction to and overview of women's writing in German speaking countries from the Middle Ages to the present day Extensive guides to further reading and a bibliographical guide to the work of more than 400 women writers form an integral part of the volume which will be indispensable for students and scholars of German literature and all those interested in women's and gender studies [Memory Traces](#) Silke Arnold-de Simine, 2005 This essay collection examines the dynamics of memory organization and the way it varies among different media and modes of discourse in post unification Germany German unification has put the post war period into a historical perspective Such a rupture raises questions concerning the appropriate commemoration preservation and reinterpretation of the past The processes of reorientation after unification influenced the self perception of literary authors as well as the social role position and status of German literature They also affected the way writers viewed the competition in which they found themselves pitted against visual and electronic media as rival windows on the past In the context of several debates on German literature during the 1990s the discussion revolved not only around the adequate aesthetic representation of the

historical and cultural heritage but even more so around the role of literature itself in that process The contributions look at different discourses that were and still are concerned with reinterpreting and creating new collective symbols and narrative patterns in relation to Germany s past The volume focuses on the effects of the characteristic discourses of the press literature and its different genres film the internet and memorials on the depiction and performance of memories
