Stiller In German:

Historical Dictionary of German Intelligence Jefferson Adams, 2009-09-01 No country can rival the sheer diversity of intelligence organizations that Germany has experienced over the past 300 years Given its pivotal geographical and political position in Europe Germany was a magnet for foreign intelligence operatives especially during the Cold War As a result of this it is no wonder that during certain periods of history Germany was probably busier spying on its own citizens than on its enemies Because of the Gestapo and the SS of Nazi Germany to the Stasi of the German Democratic Republic the fear of domestic abuse by security agencies with police powers runs far deeper in German society than elsewhere in the West The Historical Dictionary of German Intelligence presents the turbulent history of German intelligence through a chronology a bibliography and hundreds of cross referenced dictionary entries on the agencies and agents the operations and equipment the tradecraft and jargon and many of the countries involved No military reference collection is complete without it The Cambridge Companion to the Modern German Novel Graham Bartram, 2004-04-05 The Cambridge Companion to the Modern German Novel first published in 2004 provides a broad ranging introduction to the major trends in the development of the German novel from the 1890s to the present Written by an international team of experts it encompasses both modernist and realist traditions and also includes a look back to the roots of the modern novel in the Bildungsroman of the late eighteenth and nineteenth centuries The structure is broadly chronological but thematically focused chapters examine topics such as gender anxiety images of the city war and women s writing within each chapter key works are selected for close attention Unique in its combination of breadth of coverage and detailed analysis of individual works and featuring a chronology and guides to further reading this Companion will be indispensable to students and teachers *New and Complete Dictionary of the German Language for Englishmen* Carl Gottlob Küttner, William Nicholson, 1813 *German Literature of the Twentieth Century* Ingo Roland Stoehr, 2001 Traces literary developments in the German speaking countries from 1900 to the present This study of German literature in the past hundred years sets its subject clearly in the artistic and political context of developments in Western Europe during the century It begins with the turn of the century aestheticism and visions of decay led by Schnitzler Hofmannsthal and other Austrian writers and the quite different explosion of new artistic energy in the Expressionist and Dada movements These movements are succeeded by the rise of Modernism culminating in the inter war years the poetry of Rilke Brecht s epic theatre and novels by Thomas Mann Kafka Hesse Musil Doblin and Broch the influence of Nazism on literary production is considered The study of developments after 1945 reflects the struggle to establish a post Holocaust literature and to deal with the questions posed by the political division of Germany Finally the convergence of East and West German literature after unification is addressed Ingo R Stoehr teaches literature at Kilgore College Texas and is editor of the bilingual journal of German literature in English translation Dimension2 **German Science Fiction: Student Fiction and Essays 2013-2014** Kevin Alan Richards, 2014-06-10 This volume presents an array

A Companion to Nazi Germany Shelley Baranowski, Armin Nolzen, Claus-Christian W. Szejnmann, 2018-04-03

A Deep Exploration of the Rise Reign and Legacy of the Third Reich For its brief existence National Socialist Germany was one of the most destructive regimes in the history of humankind Since that time scholarly debate about its causes has volleyed continuously between the effects of political and military decisions pathological development or modernity gone awry Was terror the defining force of rule or was popular consent critical to sustaining the movement Were the German people sympathetic to Nazi ideology or were they radicalized by social manipulation and powerful propaganda Was the Final Solution the motivation for the Third Reich s rise to power or simply the outcome A Companion to Nazi Germany addresses these crucial questions with historical insight from the Nazi Party s emergence in the 1920s through its postwar repercussions From the theory and context that gave rise to the movement through its structural cultural economic and social impacts to the era s lasting legacy this book offers an in depth examination of modern history s most infamous reign Assesses the historiography of Nazism and the prehistory of the regime Provides deep insight into labor education research and home life amidst the Third Reich s ideological imperatives Describes how the Third Reich affected business the economy and the culture including sports entertainment and religion Delves into the social militarization in the lead up to war and examines the social and historical complexities that allowed genocide to take place Shows how modern day Germany confronts and deals with its recent history Today s political climate highlights the critical need to understand how radical nationalist movements gain an audience then followers then power While historical analogy can be a faulty basis for analyzing current events there is no doubt that examining the parallels can lead to

some important questions about the present Exploring key motivations environments and cause and effect this book provides essential perspective as radical nationalist movements have once again reemerged in many parts of the world *Moscow Rules* Douglas Boyd,2015-03-02 After the guns fell silent in May 1945 the USSR resumed its clandestine warfare against the western democracies Stalin installed secret police services in the satellite countries of Central and Eastern Europe Trained by his NKVD officers of the Polish UB the Czech StB the Hungarian AVO Romania s Securitate Bulgaria s KDS Albania s Sigurimi and the Stasi of the German Democratic Republic spied on and ruthlessly repressed their fellow citizens on the Soviet model When the resultant hatred exploded in uprisings they were put down by brutality bloodshed and Soviet tanks Not so obvious was that these state terror organisations were also designed for military and commercial espionage in the West to conceal the real case officers in Moscow Specially trained operatives undertook wet jobs including the assassinations Perhaps the most menacing were the sleepers who who married and raised families in the west while waiting to strike against their host countries many are still among us In *Moscow Rules* Douglas Boyd explores the relationship between the KGB and its ghastly brood a family from hell *Nordic Exposures* Arne Lunde,2011-07-01 *Nordic Exposures* explores how Scandinavian whiteness and ethnicity functioned in classical Hollywood cinema between and during the two world wars Scandinavian identities could seem mutable and constructed at moments while at other times they were deployed as representatives of an essential biological and natural category As Northern European Protestants Scandinavian immigrants and emigres assimilated into the mainstream rights and benefits of white American identity with comparatively few barriers or obstacles Yet Arne Lunde demonstrates that far from simply manifesting a normative unmarked whiteness Scandinavianness in mass immigration America and in Hollywood cinema of the twentieth century could be hyperwhite provisionally off white or not even white at all Lunde investigates key silent films such as Technicolor s *The Viking* 1928 Victor Sjöström s *He Who Gets Slapped* 1924 and Mauritz Stiller s *Hotel Imperial* 1927 The crises of Scandinavian foreign voice and the talkie revolution are explored in Greta Garbo s first sound film *Anna Christie* 1930 The author also examines Warner Oland s long career of Asian racial masquerade most famously as Chinese detective Charlie Chan as well as Hollywood s and Third Reich Cinema s war over assimilating the Nordic female star in the personae of Garbo Sonja Henie Ingrid Bergman Kristina Söderbaum and Zarah Leander [79 Songs \(High Voice with German Text\)](#) Felix Mendelssohn,1999-08-26 Expertly arranged Vocal Collection for High Voice by Felix Mendelssohn from the Kalmus Edition series This is from the Romantic era [Nordic Genre Film](#) Tommy Gustafsson,2015-05-15 *Nordic Genre Film* offers a transnational approach to studying contemporary genre production in Nordic cinema **A New Method of Learning the German Language: Embracing Both the Analytic and Synthetic Modes of Instruction ...** W.
