agencies Publishers Weekly starred review When Tracy Walder enrolled at the University of Southern California she never thought that one day she would offer her pink beanbag chair in the Delta Gamma house to a CIA recruiter or that she'd fly to the Middle East under an alias identity *The Unexpected Spy* is the riveting story of Walder's tenure in the CIA and later the FBI In high security steel walled rooms in Virginia Walder watched al Qaeda members with drones as President Bush looked over her shoulder and CIA Director George Tenet brought her donuts She tracked chemical terrorists and searched the world for Weapons of Mass Destruction She created a chemical terror chart that someone in the White House altered to convey information she did not have or believe leading to the Iraq invasion Driven to stop terrorism Walder debriefed terrorists men who swore they'd never speak to a woman until they gave her leads She followed trails through North Africa Europe and the Middle East shutting down multiple chemical attacks Then Walder moved to the FBI where she worked in counterintelligence In a single year she helped take down one of the most notorious foreign spies ever caught on American soil Catching the bad guys wasn't a problem in the FBI but rampant sexism was Walder left the FBI to teach young women encouraging them to find a place in the FBI CIA State Department or the Senate and thus change the world , *Anthropologica* ,2004

Harrington and his two brothers Though she knows it won't be easy turning their bachelor pad mansion into a home she is determined to handle any obstacles while maintaining a separate life for herself and her daughter But Alexis isn't at all ready for the red hot chemistry crackling between her and Telford or the fact that she's suddenly caught in a maze of unexpected secrets and deep mistrust But if she and Telford find their way through it together can they both embrace the love they so deeply desire
