Teaching Against Global Capitalism And The New Imperialism:

Teaching against Global Capitalism and the New Imperialism Peter McLaren, Ramin Farahmandpur, 2004-11-23

This book will address a number of urgent themes in education today that include multiculturalism the politics of whiteness the globalization of capital neoliberalism postmodernism imperialism and current debates in Marxist social theory The above themes will be linked to critical educational praxis particularly to teaching activities within urban schools Finally the book will develop the basis for a wider political project directed at resisting and transforming economic exploitation cultural homogenization political repression and gender inequality Recent and widespread scholarly attention has been given to the unabated mercilessness of global capitalism Little opposition exists as capital runs amok unhampered and undisturbed by the tectonic upheaval that is occurring in the geopolitical landscape that has recently witnessed the collapse of the Soviet Union and the regimes of the Eastern Bloc As we examine education policies within the context of economic globalization we attempt to address the extent to which the pedagogy and politics of everyday life has fallen under the sway of what we identify as cultural and economic imperialism Finally the book raises a number of urgent questions What are the current limitations to educational reform efforts among the educational left What are some of the problems associated with certain developments within postmodern education How can a return to Marxist theory and revolutionary politics revitalize the educational left at a time when capitalism appears to be unstoppable What actions need to be taken in both local and global arenas to overcome the exploitation that the globalization of capital has wreaked upon the world

More Unequal Michael D. Yates, Michael Yates, 2007-09 The aftermath of Hurricane Katrina exposed to the world what many U S politicians and pundits have long been able to ignore The media images that commanded our attention spoke loudly of the class and racial divisions that still exist in the United States today Despite the stock market gains of the 1990s which increased the ranks of millionaires and created greater wealth for those already wealthy U S society has witnessed a dramatic increase in class inequality over that last two decades A host of newly available research indicates that the United States is a far more classbound society than was previously supposed The rich are becoming both relatively and absolutely richer while the poor are becoming relatively if not absolutely poorer More Unequal Aspects of Class in the United States is a sobering examination of the dynamics of class relations today John Bellamy Foster William K Tabb David Roediger Stephanie Luce and

Mark Brenner among others contribute essays that challenge many of our assumptions about class and provide a multilayered analysis Topics include the impact of social and economic policy on class wealth and prospects for the working poor undocumented workers and their exploitation in the U S informal economy race and class struggles post Hurricane Katrina women and class over the last forty years and education reform and the devastating effects for public schooling Editor Michael D Yates shares a personal story of his working class life and values the shaping of his political consciousness and the people and ideas that inspired his teaching For the vast majority of us a strong work ethic and desire to see the next generation in better circumstances are no longer enough The barriers separating classes are hardening Class inequality manifests itself in wealth income and occupation but also in education consumption and health More Unequal Aspects of Class in the United States demonstrates that an analysis of society as a whole its relationships of power conflict and potential for social change is not possible without a thorough investigation of the role and meaning of class

Radical Voices for Democratic Schooling P. Orelus, C. Malott, 2012-11-09 Comprised of in depth interviews and conversations with key figures in education and activism that thoroughly examine the intersection of neoliberalism neocolonialism and racism this first rate collection critically explores through their teaching various important issues situated in the context of Western neoliberalism and neocolonialism
