Teaching Positions Difference Pedagogy And The Power Of Address:

Teaching Positions Elizabeth Ann Ellsworth, 1997 Drawing on media studies literary theory and the work of psychoanalytic feminist theorist Shoshana Felman Ellsworth portrays the work of pedagogy as a performative practice revealing the manner in which pedagogy positions teachers and students to engender gaps and silences in the communication of knowledge and self This provocative study of the teacher student relationship uses recent developments in film and literary studies to explore how education understands who it is teaching and how teachers understand who their students are

The 'Poor Child' Lucy Hopkins, Arathi Sriprakash, 2015-07-16 Why are development discourses of the poor child in need of radical revision What are the theoretical and methodological challenges and possibilities for ethical understandings of childhoods and poverty The poor child at the centre of development activity is often measured against and reformed towards an idealised and globalised child subject This book examines why such normative discourses of childhood are in need of radical revision and explores how development research and practice can work to unsettle the global child It engages the cultural politics of childhood a politics of equality identity and representation as a methodological and theoretical orientation to rethink the relationships between education development and poverty in children s lives This book brings multiple disciplinary perspectives including cultural studies sociology and film studies into conversation with development studies and development education in order to provide new ways of approaching and conceptualising the poor child The researchers draw on a range of methodological frames such as poststructuralist discourse analysis arts based research ethnographic studies and textual analysis to unpack the hidden assumptions about children within development discourses Chapters in this book reveal the diverse ways in which the notion of childhood is understood and enacted in a range of national settings including Kenya India Mexico and the United Kingdom They explore the complex constitution of children s lives through cultural policy and educational practices The volume s focus on children s experiences and voices shows how children themselves are challenging the representation and material conditions of their lives The Poor Child will be of particular interest to postgraduate students and scholars working in the fields of childhood studies international and comparative education and development studies

Critical Voices in Teacher Education Barry Down, John Smyth, 2012-04-28 We live in dangerous times when educational policies and practices are debated largely in terms of how they fit with the needs of the free market This volume is a collection of writing by teacher educators that draws on their unique biographies experiences and perspectives to denounce these misguided norms It explores what it means practically and intellectually to teach for social justice in conservative times In a globalised world where the power of capital holds sway the purposes of social institutions such as universities and schools is being refashioned in ways that are markedly instrumental and technicist in nature The consequence is that teachers work is increasingly constrained by regimes of control such as standardised testing accountability transparency and national curricula In the meantime large numbers of

students and teachers are disengaging physically emotionally and intellectually from learning The contributors to this edited volume present both a powerful critique of these developments and a counter hegemonic vision of teacher education founded on the principles and values of social justice democracy and critical inquiry Teacher education they argue involves a commitment to critical intellectual work that subjects some deeply entrenched assumptions beliefs habits routines and practices to closer scrutiny The contributing authors expose how ideology and power operate in seemingly blameless rational ways to perpetuate social hierarchies based on class gender sexuality race and culture
