Teaching Students to Drive Their Learning Douglas Fisher, Nancy Frey, Sarah Ortega, John Hattie, 2023-04-15 High levels of engagement it's not an impossible dream. But to attain it we need to focus on what galvanizes learning and ensure we are offering the tools and mindsets with which students can lean in. In this playbook an ace team of educators give us the goods to guide self-starting learners. Nine modules show us how to Coherent standards success criteria tasks and goals so students can travel clear pathways. Offer tools that allow learners to recognize the gap between their current performance and the expected performance and select strategies to close that gap. Talk with students about engagement as a continuum and that there are actions they can take to heighten their buy in to any endeavor. Stress test our lesson plans to ensure students can discuss, debate, create and problem solve around highly relevant content. Use lots of low stakes assessment and feedback routines to develop effective collaboration that doesn't depend on us. Our job as teachers is to guide learning experiences that build knowledge and self-efficacy. But from there we need to stay on the sidelines and let students play. Only then will they develop the muscle to persevere, the strategic actions to excel and the confidence to make our curriculum the springboard of their own dreams and goals.
