Teaching What We Do:

Teaching What We Do Richard Todd, Douglas C. Wilson, 1992-12-07 What goes on in a college classroom For all that has been written in recent years about higher education very little attention has been paid to the heart of the matter teaching This book by members of the Amherst College faculty helps to repair that oversight Amherst in defining itself places a large emphasis as it should on the life of the classroom No faculty member no matter how senior is excused from teaching no cadre of graduate students shoulders the load of introductory courses To teach is the central mission of an Amherst professor But seldom the only mission Almost everyone who teaches at Amherst also pursues research Maintaining the balance is sometimes frustrating but more often nourishing and exhilarating In his foreword Peter R Pouncey speaks of the way in which teaching and research cross fertilize each other He writes of the rejuvenating invitation of the classroom to confront the mild curiosity of the good natured young and see it rise in the face of your own interests and insistences first to eagerness and then to the sort of passion you remember and hope to sustain in yourself Again and again these essays by artist historian critic and scientist demonstrate that the pleasures and challenges of the classroom are inexhaustible And they provide us with glimpses of the true importance of the work that is done there As Professor Benjamin DeMott writes in a successful class the student is free to develop a thought to work up its implications to be unhurriedly serious about serious things in the company of attentive others At a time when the academy is under fire from various sides the reader will emerge from this book informed and heartened by its vision of the possibilities for higher education
