Teaching With Cases:

Teaching with Cases William Thomas Schiano, Espen Anderson, Bill Schiano, 2014 Case method teaching immerses students in realistic business situations which include incomplete information time constraints and conflicting goals The class discussion inherent in case teaching is well known for stimulating the development of students critical thinking skills yet instructors often need guidance on managing that class discussion to maximize learning Teaching with Cases focuses on practical advice for instructors that can be easily implemented It covers how to plan a course how to teach it and how to evaluate it The book is organized by the three elements required for a great case based course 1 advance planning by the instructor including implementation of a student contract 2 how to make leading a vibrant case discussion easier and more systematic and 3 planning for student evaluation after the course is complete Teaching with Cases is ideal for anyone interested in case teaching whether basing an entire course on cases using cases as a supplement or simply using discussion facilitation techniques To learn more about the book and to see resources available visit teachingwithcases.hbsp.harvard.edu

Teaching with Cases James A. Erskine, Michiel R. Leenders, Louise A. Mauffette-Leenders, Richard Ivey School of Business, 1998 *Teaching and the Case Method* Louis B. Barnes, Carl Roland Christensen, Abby J. Hansen, 1994 This third edition of Teaching and the Case Method is a further response to increased national and international interest in teaching teachers and learning as well as the pressing need to enhance instructional effectiveness in the widest possible variety of settings Like its predecessors this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience It is based on the belief that teaching is not purely a matter of inborn talent On the contrary the knowledge skills and attitudes that make for excellence in teaching can be analyzed abstracted and learned One key premise of Teaching and the Case Method is that all teaching and learning involve a core of universally applicable principles that can be discerned and absorbed through the study and discussion of cases
