Improving Healthcare Team Performance

Leslie Bendaly, Nicole Bendaly, 2012-09-21 Practical proven techniques for improving team performance in the health care world Teams and collaboration have become an expectation in most healthcare facilities and environments It is accepted that high performance patient focused teams are critical to quality patient care However there is often a wide gap between traditional practices and the new behaviours and practices required for teamwork and collaboration Improving Health Care Team Performance goes beyond theory to provide the knowledge tools and techniques required to develop a single team or to develop an organization wide team based culture from which exceptional patient care emerges Most uniquely it emphasizes that effective teamwork goes far beyond team dynamics and provides detailed description of additional requirements such as shared learning and change compatibility and how to fulfill them A practical handbook for healthcare leaders striving to ensure a superior patient experience and high quality of care Improving Healthcare Team Performance not only provides specifics on how to develop high functioning teams whether multidisciplinary interdisciplinary or departmental but also offers those dealing with the common healthcare leadership challenges of low morale poor communication interpersonal conflict and lack of knowledge sharing the tools to take immediate action to improve performance Providing a proven

approach to addressing and preventing everyday issues impacting patient care Improving Health Care Team Performance contains everything needed to identify areas of greatest need within a team or department take targeted action to address key gaps and measure progress towards positive change Presents a clear depiction of what constitutes collaboration and a high performing patient focused team This includes the skills and practices required to improve team performance and ultimately the quality of patient care how to develop new attitudes and behaviours within the team as well as the leadership requirements for success in a patient focused team based culture Provides a set of development tools accessible online to help the reader quickly and easily apply the knowledge gleaned Offers targeted solutions including tips recommendations a step by step approach for affecting necessary change at every level of the organization and skills and team development activities Designed for leaders working in any healthcare environment Improving Health Care Team Performance is a practical approach to improving team performance and the quality of patient care **Healthcare Teamwork** Theresa J.K. Drinka, Phillip G. Clark, 2016-06-27 Both comprehensive and accessible this is an ideal resource for anyone who plans to teach or practice integrated cost effective healthcare in the 21st century Currently there is no coordinated system for training health profession students to address the needs of patients with complex illnesses nor is there a coordinated system for effectively delivering care to these patients This book explores both sides of the problem bringing interprofessional practice and education together to show how they are complementary and how they can be integrated to provide better care In many respects this book is a personal account of the authors experience with interprofessional teamwork and education over the past 40 years It discusses what works and what doesn t and includes interviews examples and case studies that illustrate the perspectives of healthcare professionals patients and caregivers This second edition illuminates ways in which today s business model has changed interprofessional healthcare team practice and education and it examines the needs of patients relative to healthcare teams and practitioner education An entire chapter is devoted to the patient s position as both teacher and learner in relation to the team The theoretical foundations of practice and education are highlighted but the book also shares models that can be used for the practical development of programs *Collaborating for Health* Paul Thomas, 2017-12-04 Health care is increasingly under pressure Budget crises are making collaboration and smart thinking essential while increasing numbers of people with multiple long term conditions make specialist models of health care increasingly inefficient patients too often go from one specialist to another duplicating effort and paying too little attention to the bigger picture of their health Collaborating for Health outlines a solution community oriented integrated care and health promotion Designed to prevent the problems of fragmented care this approach focuses on building teams networks and communities for health and care at local level where it is easier to see the range of factors that affect people s health With the emphasis on partnership working between primary care public health and others it allows clusters of general practices to share the work of integrating efforts for care and health improvement and for non medical organisations to lead parallel

initiatives for health and care Introducing both horizontal and vertical integration Thomas presents ways to develop community oriented integrated care in a sustainable way and how to practise the skills in small ways before you have to perform on a big stage This guide is for anyone interested in how multidisciplinary primary care teams can orchestrate most aspects of health and care at local level with timely specialist input Palliative Care Nursing: Principles And Evidence For Practice Payne, Sheila, Seymour, Jane, Ingleton, Christine, 2008-08-01 This textbook in palliative care nursing draws together the principles and evidence that underpins practice to support nurses working in specialist palliative care settings and those whose work involves end of life care **Understanding Teamwork in Health Care** Gordon Mosser, James W.
