Achieving Financial Stability and Growth in Africa Stephany

Griffith-Jones,Ricardo Gottschalk,2016-03-24 This book explores how the financial system should be regulated and structured to achieve the twin goals of inclusive growth and financial stability with a focus on African low income countries LICs The subject and content of this book is original in that it attempts to draw on the lessons and radical rethinking on the financial sector in developed and middle income countries arising in the wake of the international financial crisis It includes four in depth country case studies of Kenya Ghana Nigeria and Ethiopia but also analyses the empirical evidence for Sub Saharan Africa as a whole evaluating the relevance or not of such major changes for the very different financial sectors and economies in low income countries Achieving Financial Stability and Growth in Africa has major academic and policy implications especially for low income countries but also more generally on broader issues These include the desirable size of the financial sector as well as more specific issues such as the high cost of borrowing of small and medium enterprises in LICs and possible measures to reduce it Highly topical subjects like the appropriate regulation of the financial sector and management of capital flows are discussed in depth Though drawing on comprehensive reviews of the literature this volume has the virtue of the large comparative academic and policy experience of researchers as well as in depth case studies that take account of institutional and economic features of low income countries Written by senior academics and policy makers this book is a must read for those researching or participating in the financial sectors of low income countries as well as in developed economies It is also suitable for those who study political economy and public finance
