Techniques Of Strangeness In Symbolist Poetry:

The Techniques of Strangeness in Symbolist Poetry James L. Kugel, 1971 **The Symbolist Movement in the Literature of European Languages** Anna Balakian, 1984-01-01 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today *Orpheus in Brooklyn* Bertrand Mathieu, 2019-07-08 No detailed description available for *Orpheus in Brooklyn*

Nijhoff, Van Ostaijen, "De Stijl" F. Bulhof, 2012-12-06 FRANCIS BULHOF What was Modernism That is the title of an address delivered in June of 1960 by the eminent comparatist Harry Levin at Queen's University in Kingston Ontario 1 Apparently more than a decade ago in the eyes of this perceptive analyst of literature and the arts the modernist movement had become a thing of the past Having acquired full citizenship in the republic of letters modernism had outlived itself The title of Harry Levin's lecture bears an obvious resemblance to that of Fritz Martini's book length essay *Was war Expressionismus 2* which dealt exclusively with the German variant of the expressionist movement In the case of German expressionism there is much dispute concerning the precise moment of its decline and fall but the political conditions provide at least a crucial dividing line in the year 1933 The end of modernism however a far more comprehensive movement which was not just limited to one country is not so easy to determine And there is also still much discussion about its roots

Dutch Interbellum Canons and World Literature A. Roland Holst, M. Nijhoff, J. Slauerhoff Theo D'haen, 2023-09-15 This text takes a wholly new look at a major early twentieth century Dutch poet and novelist from the perspective of world literature situating his work in both a national and a world literary context as measured against contemporaries and near contemporaries such as Conrad Pound Brecht Segalen and Malraux Exemplifying how an author from a minor literature may

be a major world author this book considers the debates within World Literature regarding the classification of literatures as major and minor canon formation within Dutch literature Slauerhoff's position in the Dutch tradition as well as his contribution to world literature particularly focusing on his East Asian poems his East Asian novels and stories and his poetry and prose set in Latin America This book is a key read for scholars and students of comparative literature world literature European literature and Dutch literature Lucid in style innovative in approach surprisingly fresh qua topic this book opens new horizons for literary studies

Figures of Reality Roger Cardinal, 2025-05-01 Figures of Reality 1981 may be described as a polemic against those who feel poetry to be remote from normal life an abstruse and empty game The author argues from a contrary perspective shared by many poets in the Romantic and Surrealist tradition in which poetry is viewed as being vitally related to our awareness of reality This penetrating discourse on the roots of poetry in the imagination suggests that the fascination of an illusory image lies precisely in our consciousness of its deflection from reality Poets can take hold of and manipulate these moments they are adept in the construction of unreality The deliberate cultivation of such states of awareness has been a preoccupation of many poets and literary theorists among them Coleridge De Quincey and Rimbaud Roger Cardinal's commentaries on the writing of these men as well as other texts drawn from nineteenth and twentieth century European poetry argues that poems have meaning for us to the extent that we recognise the relationship of the figure of speech on the page to the figure of reality as shaped by our perception of the world around us In this way the book uniquely develops an original and subtle theory of the role of imagination in poetry

The Cambridge History of Modernism Vincent Sherry, 2017-01-11 This Cambridge History of Modernism is the first comprehensive history of modernism in the distinguished Cambridge Histories series It identifies a distinctive temperament of modernism within the modern period establishing the circumstances of modernized life as the ground and warrant for an art that becomes modernist by virtue of its demonstrably self-conscious involvement in this modern condition Following this sensibility from the end of the nineteenth century to the middle of the twentieth tracking its manifestations across pan-European and transatlantic locations the forty-three chapters offer a remarkable combination of breadth and focus Prominent scholars of modernism provide analytical narratives of its literature music visual arts architecture philosophy and science offering circumstantial accounts of its diverse personnel in their many settings These historically informed readings offer definitive accounts of the major work of twentieth-century cultural history and provide a new cornerstone for the study of modernism in the current century

Reading Opera Arthur Groos, Roger L. Parker, 2014-07-14 Libretto bashing has a distinguished tradition in the blood sport of opera writes Arthur Groos in the introduction to this broad survey of critical approaches to that much maligned genre To examine and to challenge the long-standing prejudice against libretti and the scholarly tradition that has until recently reiterated it Groos and Roger Parker have commissioned thirteen stimulating essays by musicologists literary critics and historians Taken as a whole the volume demonstrates that libretti are now very much within the purview of contemporary

humanistic scholarship Libretti pose questions of intertextuality transposition of genre and reception history They invite a broad spectrum of contemporary reading strategies ranging from the formalistic to the feminist And as texts for music they raise issues in the relation between the two mediums and their respective traditions Reading Opera will be of value to anyone with a serious interest in opera and contemporary opera criticism The essays cover the period from the early nineteenth to the early twentieth centuries with a particular focus on works of the later nineteenth century The contributors are Carolyn Abbate William Ashbrook Katherine Bergeron Caryl Emerson Nelly Furman Sander L Gilman Arthur Groos James A Hepokoski Jurgen Maehder Roger Parker Paul Robinson Christopher Wintle and Susan Youens Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Dominant Impressions Gerald Lynch, Angela Robbeson, 1999 Canadian critics and scholars along with a growing number from around the world have long recognized the achievements of Canadian short story writers However these critics have tended to view the Canadian short story as a historically recent phenomenon This reappraisal corrects this mistaken view by exploring the literary and cultural antecedents of the Canadian short story Published in English

Willa Cather's Modernism Jo Ann Middleton, 1990 Willa Cather's Modernism challenges the assumption that Cather was an old fashioned exponent of styles of fiction demonstrating instead that Cather was clearly aware of the experimentation within the modernist movement Illustrative chapters deal with three central novels A Lost Lady The Professor's House and My Mortal Enemy

Glynn, 2016-04-30 Glynn provides a new reading of Vladimir Nabokov's work by seeking to challenge the notion that he was a Symbolist writer concerned with a transcendent reality Glynn argues that Nabokov's epistemology was in fact anti Symbolist and that this aligned him with both Bergsonism and Russian Formalism which intellectual systems were themselves hostile to a Symbolist epistemology Symbolism may be seen to devalue material reality by presenting it as a mere adumbration of a higher realm Nabokov however valued the immediate material world and was creatively engaged by the tendency of the deluded mind to efface that reality *Beyond the Mask* Irène Eynat-Confino, 1987 Eynat Confino goes beyond the usual consideration of Craig's purported theories of the actor scenery and the scene painter to get at the heart of Craig's idea of theater She draws not only on the research of contemporary Craig scholars but on material hitherto unavailable his writings and daybooks and the writings of friends She ties Craig's encounter with Isadora Duncan to a decisive modification in his notion of movement To have an instrument more controllable than the actor he invented the marionette a giant puppet Craig also invented the Scene a kinetic stage the screens that brought him worldwide fame were simply an adaptation of this concept Eynat Confino argues that a scenario Craig wrote in 1905 here published for the first time reveals a theosophical system like that of Blake a system that was the main force motivating Craig's artistic quest In her final chapter she carefully examines the psychological aesthetic and circumstantial factors that kept Craig from completing his work to bring friendliness humor love ease peace to the world Sixteen Modern American Authors Jackson R.
