Environmental Change and Security Project Report, 1998 **Technology and National Security** James Kadtke, John Wharton, National Defense University (U S), 2018-03-29 The authors present arguments about the role that technology and science will play within the international scene and globalization corridor as a way to develop a national security strategy for

years to come Part of the discussion observes the past present and future of technology innovation within global governments including the sharing of data artificial intelligence AI military policy defense strategies and more For instance globalization of science and technology emerging and unpredictable threats both manmade and natural conventional and emerging weapons of mass destruction and an inversion of technology flow from the private to public sectors all present challenges to our national security Many countries are now dramatically increasing their investments in science technology and commercialization particularly in Asia and including many nontraditional players such as Vietnam and Singapore From a grand strategic perspective one might observe that in the decades to come in a world dominated by pervasive advanced technologies the countries that are most able to create acquire and utilize these disruptive technologies will lead the world This technological capacity will be one of if not the most important global resources Technological capacity will become the new oil Other topical related products can be found here Armed Robotics Emergence Weapons Systems Life Cycles Analysis and New Strategic Realities Enhancing Identity Development at Senior Services Colleges Military Communications A Test for Technology Closer Than You Think The Implications of the Third Offset Strategy for the U S Army **Cultural Pragmatism for US-China Relations** Charles Chao Rong Phua, 2022-10-25 The Thucydides trap and a US China face off are not structurally inevitable US China relations are what the US and China make of them Phua focuses on the ability to see US as US and China as China to trigger both countries cultural tendencies towards pragmatism Phua examines China's arduous journey to fit in the Westphalian system the deep cultural misunderstandings by the West of Sunzi's The Art of War and attempts to offer an inside out cultural synthesis of classical and modern Chinese thought as a proxy of their operational code beyond the standard clichés about Confucian and Daoist thought He builds on Jervis perception and misperception as well as Alastair Johnston's cultural realism Readers will benefit from a culturally Chinese western educated and politically neutral understanding of China as China An essential primer for academics practitioners and students of international relations diplomacy and Chinese culture Strategic Plan for Fiscal Year 1996-2006 U.S. Army Research Laboratory, 1995

Securing the Nation's Critical Infrastructures Drew Spaniel, 2022-11-24 Securing the Nation's Critical Infrastructures A Guide for the 2021-2025 Administration is intended to help the United States Executive administration legislators and critical infrastructure decision makers prioritize cybersecurity combat emerging threats craft meaningful policy embrace modernization and critically evaluate nascent technologies The book is divided into 18 chapters that are focused on the critical infrastructure sectors identified in the 2013 National Infrastructure Protection Plan NIPP election security and the security of local and state government Each chapter features viewpoints from an assortment of former government leaders C level executives academics and other cybersecurity thought leaders Major cybersecurity incidents involving public sector systems occur with jarringly frequency however instead of rising in vigilant alarm against the threats posed to our vital systems the nation has become desensitized and demoralized This publication was developed to

deconstruct the normalization of cybersecurity inadequacies in our critical infrastructures and to make the challenge of improving our national security posture less daunting and more manageable To capture a holistic and comprehensive outlook on each critical infrastructure each chapter includes a foreword that introduces the sector and perspective essays from one or more reputable thought leaders in that space on topics such as The State of the Sector challenges threats etc Emerging Areas for Innovation Recommendations for the Future 2021 2025 Cybersecurity Landscape ABOUT ICIT The Institute for Critical Infrastructure Technology ICIT is the nation's leading 501 c 3 cybersecurity think tank providing objective nonpartisan research advisory and education to legislative commercial and public sector stakeholders Its mission is to cultivate a cybersecurity renaissance that will improve the resiliency of our Nation's 16 critical infrastructure sectors defend our democratic institutions and empower generations of cybersecurity leaders ICIT programs research and initiatives support cybersecurity leaders and practitioners across all 16 critical infrastructure sectors and can be leveraged by anyone seeking to better understand cyber risk including policymakers academia and businesses of all sizes that are impacted by digital threats

Feeding Britain Tim Lang, 2020-03-26 How does Britain get its food Why is our current system at breaking point How can we fix it before it is too late British food has changed remarkably in the last half century As we have become wealthier and more discerning our food has Europeanized pizza is children's favourite food and internationalized we eat the world's cuisines yet our food culture remains fragmented a mix of mass ultra processed substances alongside food as varied and good as anywhere else on the planet This book takes stock of the UK food system where it comes from what we eat its impact fragilities and strengths It is a book on the politics of food It argues that the Brexit vote will force us to review our food system Such an opportunity is sorely needed After a brief frenzy of concern following the financial shock of 2008 the UK government has slumped once more into a vague hope that the food system will keep going on as before Food they said just required a burst of agri technology and more exports to pay for our massive imports Feeding Britain argues that this and other approaches are short sighted against the public interest and possibly even strategic folly Setting a new course for UK food is no easy task but it is a process this book urges that needs to begin now Tim Lang has performed a public service
