Ferrier,2015 New technologies generate positive externalities non innovators can benefit through the adoption or imitation of the new technologies International trade serves as a major channel for technology diffusion allowing importing countries to acquire technical knowledge that they can potentially internalize To empirically test the effects of trade on technology diffusion the previous literature typically considers the effects of direct bilateral trade on indirect measures of technologies e g TFP We conjecture that the impact of trade on technology diffusion would be more accurately measured by taking into account both the direct and indirect network effects and by using direct measures of technologies e g intensity levels The international trade system can be considered as a weighted network Technology may be diffused not only bilaterally between countries but also through the network effects i e indirectly by trading with intermediate countries We find that the network effects of trade play a significant role in technology diffusion In most cases countries better connected on the trade network have higher technology intensities Further support for the importance of trade is provided by our finding that for outdated technologies better connected countries have lower technology intensities **The Impact of Information Technology on International Trade Promotion** Scott Dalton,1997

**Technology Transfer and Innovation for Low-Carbon Development** Miria Pigato,Simon Black,Damien Dussaux,Zhimin Mao,Ryan Rafaty,Simon Touboul,2020-04-09 Technological revolutions have increased the world s wealth unevenly and in ways that have accelerated climate change This report argues that achieving The Paris Agreement s objectives would require a massive transfer of existing and commercially proven low carbon technologies LCT from high income to developing countries where the bulk of future emissions is expected to occur This mass deployment is not only a necessity but also an opportunity Policies to deploy LCT can help countries achieve economic and other development objectives like improving human health in addition to reducing greenhouse gases GHGs Additionally LCT deployment offers an opportunity for countries with sufficient capabilities to benefit from participation in global value chains and produce and

export LCTs Finally the report calls for a greater international involvement in supporting the poorest countries which have the least access to LCT and finance and the most underdeveloped physical technological and institutional capabilities that are essential to benefit from technology      Polycrisis and Economic Development in the Global South Hebatallah Adam,Ravinder Rena,2024-11-08 Global polycrisis refers to the simultaneous occurrence of multiple interconnected crises It is marked by the convergence and interaction of combined events such as geopolitical tensions economic instability environmental degradation public health emergencies and social disturbance In this context this book explores the challenges and opportunities encountered by the Global South amid political instability climate change humanitarian crises technological advancements and regional cooperation The book adopts a multidisciplinary framework integrating theoretical studies with empirical cases from various southern regions in Africa Asia and Latin America This approach helps to foster an in depth understanding of the complex challenges associated with development in these regions The book emphasizes the perspectives and experiences of Global South countries providing a platform for their voices to be heard This allows readers to gain a more nuanced understanding of the unique contexts perspectives and successful experiences of countries in Africa Asia and Latin America Furthermore it investigates issues such as governance security migration development and emergent technologies illuminates the role of regional organizations in fostering regional integration peace and stability and ultimately provides a comprehensive and refined analysis of the Global South that challenges prevalent stereotypes and offers new perspectives on the world s complex realities today It includes case studies that enhance the practical relevance of the book offering real world examples that illustrate the theoretical concepts and highlightingsuccessful approaches to addressing development challenges The book will appeal to scholars researchers and students interested in comprehending and addressing the challenges encountered by the Global South in a time of global polycrisis      **The Innovative Entrepreneur** Daniel F. Spulber,2014-06-16 Innovative entrepreneurs are the prime movers of the economy The innovative entrepreneur helps to overcome two types of institutional friction First existing firms may not innovate efficiently due to incumbent inertia resulting from adjustment costs diversification costs the replacement effect and imperfect adjustment of expectations The innovative entrepreneur compensates for incumbent inertia by embodying innovations in new firms that compete with incumbents Second markets for inventions may not operate efficiently due to transaction costs imperfect intellectual property protections costs of transferring tacit knowledge and imperfect information about discoveries The innovative entrepreneur addresses inefficiencies in markets for inventions through own use of discoveries and adoption of innovative ideas The Innovative Entrepreneur presents an economic framework that addresses the motivation of the innovative entrepreneur the innovative advantage of entrepreneurs versus incumbent firms the effects of competitive pressures on incentives to innovate the consequences of creative destruction and the contributions of the innovative entrepreneur to the wealth of nations      The Role of Demand and Supply in the Generation and Diffusion of Technical Change V.
