### **Cultural Boundaries of Science**

Thomas F. Gieryn, 2022-03-29 Why is science so credible Usual answers center on scientists' objective methods or their powerful instruments In his new book Thomas Gieryn argues that a better explanation for the cultural authority of science lies downstream when scientific claims leave laboratories and enter courtrooms boardrooms and living rooms On such occasions we use maps to decide who to believe cultural maps

demarcating science from pseudoscience ideology faith or nonsense Gieryn looks at episodes of boundary work Was phrenology good science How about cold fusion Is social science really scientific Is organic farming After centuries of disputes like these Gieryn finds no stable criteria that absolutely distinguish science from non science Science remains a pliable cultural space flexibly reshaped to claim credibility for some beliefs while denying it to others In a timely epilogue Gieryn finds this same controversy at the heart of the raging science wars

**Sonic Persuasion** Greg Goodale,2011-04-01  
 Sonic Persuasion Reading Sound in the Recorded Age critically analyzes a range of sounds on vocal and musical recordings on the radio in film and in cartoons to show how sounds are used to persuade in subtle ways Greg Goodale explains how and to what effect sounds can be read like an aural text demonstrating this method by examining important audio cues such as dialect pausing and accent in presidential recordings at the turn of the twentieth century Goodale also shows how clocks locomotives and machinery are utilized in film and literature to represent frustration and anxiety about modernity and how race and other forms of identity came to be represented by sound during the interwar period In highlighting common sounds of industry and war in popular media Sonic Persuasion also demonstrates how programming producers and governmental agencies employed sound to evoke a sense of fear in listeners Goodale provides important links to other senses especially the visual to give fuller meaning to interpretations of identity culture and history in sound *Canadiana* ,1979

**Fashioning Vienna** Janet Stewart,2013-06-17 This book seeks to extend our understanding of Adolf Loos and his role in the struggle to define the nature of modernity in Vienna at the turn of the nineteenth century

**The Last Happy Year** Rod Coneybeare,1993 The Last Happy Year A Novel by Rod Coneybeare

**An Independent Stance** W. J. Keith,1991 Part One of this strongly worded informed and wide ranging collection examines key issues for the future of Canadian criticism Part Two offers new readings of important works by Grove Wilson MacLennan Davies Laurence Hood Wiebe Hodgins and Atwood As W J Keith argues We still have a mission to have our literature recognized as an essential reflection of our national life This is what I mean by retrenchment and consolidation Literature can survive without literary criticism but it cannot survive if it is unknown and unread It is criticism s prime function at the present time to see that it is both known and read with that mature enjoyment which is a combination of emotional sensitivity and humane intelligence As critics scholars editors we shall not be fulfilling our responsibilities or justifying our existence if we attempt anything less Or as Keith modestly observes in his introduction to this collection If this book is of any interest it will be because Canadian literature is an important subject Literary commentators like myself are middle men and should be prepared to admit the fact If this book succeeds in helping readers to appreciate the works of Canadian writers that I discuss and to derive increased pleasure and insight from them it will have served its purpose I can see no other justification for it or for any other work of criticism
