Technology On The Frontier Mining In Old Ontario:

Technology on the Frontier Dianne Newell, 2011-11-01 This book tells about a frontier region in economic transition Its focus is the successful adoption of new technology to the particular economic and engineering circumstances associated with the newness or frontier nature of Ontario mining to 1890

Making Ontario David Wood, 2000-04-06 The colony that became Ontario arose almost spontaneously out of the confusion and uncertainty following the American Revolution as a quickly chosen refuge for some 10 000 Loyalists who had to leave their former homes After the War of 1812 settlers began to spread throughout the inter lake peninsula that was to become southern Ontario and by the middle of the nineteenth century expansion had led to a diversifying agriculture and an increasingly open farming landscape that replaced a mature forest ecosystem The scale of the change from forest to cropland profoundly affected what had been for many decades a rich environment for life forms from large herbivores down to microscopic creatures In *Making Ontario* David Wood shows that the most effective agent of change in the first century of Ontario s development was not the locomotive but settlers attempts to change the forest into agricultural land Wood traces the various threads that went into creating a successful farming colony while documenting the sacrifice of the forest ecosystem to the demands of progress progress that prepared the ground for the railway *Making Ontario* provides a detailed focus on environmental modification at a time of great changes It is liberally illustrated with analytical maps based on archival research

The Texture of Industry Robert B. Gordon, Patrick M. Malone, 1997-02-06 While historians have given ample attention to stories of entrepreneurship invention and labor conflict they have told us little about actual work places and how people worked Workers seldom wrote about their daily employment However they did leave behind their tools products shops and factories as well as the surrounding industrial landscapes and communities In this book Gordon and Malone look at the industrialization of North America from the perspective of the industrial archaeologist Using material evidence from such varied sites as Indian steatite quarries automobile plants and coal mines they examine manufacturing technology transportation systems and the effects of industrialization on the land Their research greatly expands our understanding of industry and focuses attention on the contributions of anonymous artisans whose skills shaped our industrial heritage

The Weight of Gold Mica Jorgenson, 2023-06-06 Mining in North America has long been criticized for its impact on the natural environment Mica Jorgenson s *The Weight of Gold* explores the history of Ontario Canada s rise to prominence in the gold mining industry while detailing a series of environmental crises related to extraction activities In Ontario in 1909 the discovery of exceptionally rich hard rock gold deposits in the Abitibi region in the north precipitated industrial development modeled on precedents in Australia South Africa and the United States By the late 1920s Ontario s mines had reached their maturity and in 1928 Minister of Mines Charles McRae called Canada the mineral treasure house to the world Mining companies increasingly depended upon their ability to redistribute the burdens of mining onto surrounding communities a strategy they continue to use today both at home and abroad Jorgenson connects Canadian

gold mining to its international context revealing that Ontario's gold mines informed extractive knowledge which would go on to shape Canada's mining industry over the next century *Canadian History: Confederation to the present* Martin Brook Taylor, Doug Oram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover **International Bibliography of Business History** Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians **Working Lives** Craig Heron, 2018-10-09 Craig Heron is one of Canada's leading labour historians Drawing together fifteen of Heron's new and previously published essays on working class life in Canada Working Lives covers a wide range of issues including politics culture gender wage earning and union organization A timely contribution to the evolving field of labour studies in Canada this cohesive collection of essays analyzes the daily experiences of people working across Canada over more than two hundred years Honest in its depictions of the historical complexities of daily life Working Lives raises issues in the writing of Canadian working class history especially working class realism and how it is eventually inscribed into Canada's public history Thoughtfully reflecting on the ways in which workers interact with the past Heron discusses the important role historians and museums play in remembering the adversity and milestones experienced by Canada's working class At the End of the Shift Matt Bray, Ashley Thomson, 1996-01-07 Mining has played a formative role in the history of Northern Ontario It has been one of the key generators of wealth in the area since the mid 19th century and is also responsible for much of the urban development of Ontario's northland The twelve papers published here came out of the second annual conference of Northern Ontario research and development held in 1990 The papers are grouped into four sections the early years the era of government intervention the present and finally the future and what can be done to maintain the communities The Evolution of Resource Property Rights Anthony Scott, 2008-03-27 This book traces the development of the standard property rights over five kinds of natural resource inland rivers ocean fisheries petroleum resources gold and base metals and forest resources from classical times through to the 19th century Completely private resources and those in the public or Crown lands are given equal attention and a simple supply and demand model is used to explain how property rights are altered over time Scott also provides the

reader with a unique set of characteristics for defining rights and numerous case studies and examples of their evolution highlighting the increasing recourse to common law courts and government legislation and the problems caused by competing demands on the same limited resources This book provides a unique insight into the historical development of property rights and makes a special plea for the multiple purpose and multi owner management of resource rights It will provide a valuable resource for those interested in resource management economic history property rights and development

A Global History of Gold Rushes Benjamin Mountford, Stephen Tuffnell, 2018-10-16 Nothing set the world in motion like gold Between the discovery of California placer gold in 1848 and the rush to Alaska fifty years later the search for the precious yellow metal accelerated worldwide circulations of people goods capital and technologies A Global History of Gold Rushes brings together historians of the United States Africa Australasia and the Pacific World to tell the rich story of these nineteenth century gold rushes from a global perspective Gold was central to the growth of capitalism it whetted the appetites of empire builders mobilized the integration of global markets and economies profoundly affected the environment and transformed large scale migration patterns Together these essays tell the story of fifty years that changed the world

Shaped by the West Wind Claire Elizabeth Campbell, 2005 Claire Campbell draws from recent work in cultural history landscape studies in geography and art history and environmental history to explore what happens when external agendas confront local realities a story central to the Canadian experience Explorers fishers artists and park planners all were forced to respond to the unique contours of this inland sea their encounters defined a regional identity even as they constructed a popular image for the Bay in the national imagination Jacket **Metallurgical Design and Industry** Brett Kaufman, Clyde L. Briant, 2018-11-19 This edited volume examines metallurgical technologies and their place in society throughout the centuries The authors discuss metal alloys and the use of raw mineral resources as well as fabrication of engineered alloys for a variety of applications The applications covered in depth include financial mining and smelting bridges armor aircraft and power generation The authors detail the multiple levels and scales of impact that metallurgical advances have had and continue to have on society They include case studies with guidance for future research design and innovation of metallic materials relevant to societal needs Includes case studies written by industry professionals with guidance for future research design and innovation Demonstrates metal materials design that reflects relevant societal needs Covers a broad range of applied materials used in aircraft armor bridges and power generation among others *Cities of Oil* Timothy Cobban, 2014-01-31 Cities of Oil is the first sustained historical account of the development of the early Canadian petroleum refining and manufacturing industry In it Timothy W Cobban documents the industry's development in southern Ontario from its beginnings in the 1850s to its later expansion on the outskirts of London to Petrolia and finally to Sarnia He accounts for all of the industry's important developments and innovations particularly the role played by municipalities in fostering its growth Using extensive archival research Cobban concludes that municipalities can stimulate the accelerated sustained

development of local industry sectors thus challenging the dominant view that the influence of municipalities on economic growth is marginal *Cities of Oil* demonstrates the importance of accommodating the land and infrastructure needs of industry at critical junctures and implementing land use policies that encourage the dense clustering of industries This book will be essential reading for those seeking a greater understanding of industrial growth in the province of Ontario **Canada's Victorian Oil Town** Christina Burr, 2006-10-11 In the early 1850s the oil industry had a major impact on the resource town of Petrolia Ontario Christina Burr explores the ways in which the industry provided a common cultural identification that helped Petrolia change from a rough shanty town of disreputable land speculators and wildcatters into an orderly civilized Victorian community **Thomas Edison** Paul Israel, 2024-03-18 The most prolific inventor in American history Thomas Edison played a major role in creating industries that have altered life around the globe electric light and power recorded sound and motion pictures He also made significant innovations in telecommunications battery technology office machinery the manufacture of Portland Cement and processes for working low grade ores He was able to contribute to such a wide array of industries because he was not a lone inventor At his workshops and laboratories in Newark Menlo Park and West Orange in New Jersey Edison brought together teams of skilled research assistants and machinists These teams allowed him to do more than any one person could do In the process he transformed invention by making it part of a larger process of research development and commercialization that we now call innovation That transformation as much as any single invention has become a crucial feature of the modern world Includes a detailed chronology of Edison's life and work An introduction that provides an overview of Edison's life and work The A to Z section includes three hundred encyclopedic entries on Edison's inventions laboratories business enterprises public image and numerous individuals with whom he was associated An extensive bibliography of Edison's publications and select interviews modern contemporaneous and juvenile biographies and thirteen subject areas related to Edison's work and influence The index thoroughly cross references the chronological and encyclopedic entries **Changing Places** Kerry Margaret Abel, 2006 Drawing from archival oral and newspaper sources Kerry Abel examines the process by which a relatively coherent community emerged in the sub region of northern Ontario bounded by Timmins Iroquois Falls and Matheson **Eldon House Diaries** Robin S. Harris, Terry G. Harris, 1994-12-15 Eldon House is a distinctive element in the historical townscape of London Ontario By the mid nineteenth century its original owners John and Amelia Harris were prominent members of society in that dynamic community Their children grew up in the affluent and cultured setting of a family whose increasing prosperity advanced with that of London and western Ontario If London had an elite the Harris family was part of it and Eldon House was an important focal point of the social regimen of the day A considerable corpus of family papers within the Eldon House and prominent among these papers is a collection of diaries that are excerpted in this volume encapsulating the personalities activities and voices of the Harrises of London These diaries are valuable because of the details of the warp and woof of daily life in the nineteenth

century But more importantly they are women s diaries As such they speak to us of the verities of personal domestic and societal life in the neglected voice of women Together they provide a fascinating perspective of these women s lives in around and beyond Eldon House

Colonization and Community John Douglas Belshaw,2002 In the nineteenth century coal miners imported from Europe Asia and eastern North America burrowed beneath the Vancouver Island towns of Nanaimo Wellington and Cumberland No group was as numerous and influential in this enterprise as the hundreds of British immigrants who travelled half way around the world to take up back breaking work in the most remote colony in the Empire What drew the British miners and their families to the north Pacific Why did they set aside six months to journey to a colony about which they knew little Once they reached Vancouver Island what did they make of it and what did they make it into And how did they re make themselves in the process In *Colonization and Community* John Belshaw takes a new look at British Columbia s first working class the men women and children beneath and beyond the pit head Beginning with an exploration of emigrant expectations and ambitions he investigates working conditions household wages racism industrial organization gender schooling leisure community building and the fluid identity of the British mining colony the archetypal west coast proletariat By connecting the story of Vancouver Island to the larger story of Victorian industrialization he delineates what was distinctive and what was common about the lot of the settler society Belshaw breaks new ground challenging the easy assumptions of transferred British political traditions analyzing the colonial at the household level and revealing the emergent communities of Vancouver Island as the cradle of British Columbian working class culture

The Canadian Fur Trade in the Industrial Age Arthur Ray,1990-12-15 Throughout much of the nineteenth century the Hudson s Bay Company had a virtual monopoly on the core area of the fur trade in Canada Its products were the object of intense competition among merchants on two continents in Leipzig New York London Winnipeg St Louis and Montreal But in 1870 things began to change and by the end of the Second World War the company s share had dropped to about a quarter of the trade Arthur Ray explores the decades of transition the economic and technological changes that shaped them and their impact on the Canadian north and its people Among the developments that affected the fur trade during this period were innovations in transportation and communication increased government involvement in business conservation and native economic welfare and the effects of two severe depressions 1873 95 and 1929 38 and two world wars The Hudson s Bay Company confronting the first of these changes as early as 1871 embarked on a diversification program that was intended to capitalize on new economic opportunities in land development retailing and resource ventures Meanwhile it continued to participate in its traditional sphere of operations But the company s directors had difficulty keeping pace with the rapid changes that were taking place in the fur trade and the company began to lose ground Ray s study is the first to make extensive use of the Hudson s Bay Company archives dealing with the period between 1870 and 1945 These and other documents reveal a great deal about the decline of the company and thus about a key element in the history of the modern

Canadian fur trade **The Industrial Transformation of Subarctic Canada** Liza Piper, 2010-01-01 Between 1821 and 1960 industrial economies took root in the North transgressing political geographies and superseding the historically dominant fur trade Imported southern scientists and sojourning labourers worked the Northwest and its industrial history bears these newcomers imprint This book reveals the history of human impact upon the North It provides a baseline grounded in historical and scientific evidence for measuring subarctic environmental change Liza Piper examines the sustainability of industrial economies the value of resource exploitation in volatile ecosystems and the human consequences of northern environmental change She also addresses northern communities historical resistance to external resource development and their fight for survival in the face of intensifying environmental and economic pressures
