## **Teen Spirits Music And Identity In Media Education:**

*Teen Spirits* Dr Chris Richards, Chris Richards, 2013-04-03 Relating to both the practice of teaching media studies and also to theoretical questions within media and cultural studies this study examines pop music media studies and the micro cultural politics of adolescence It argues that media education has neglected pop music and that as something of enormous significance in the lives of young people it merits a serious place in the field The author provides accounts of media studies in action including detailed accounts of classroom discussions interviews with students and teachers examples of students work and their biographical reflections He links this to broader debates both within cultural studies and around the place of pop music in young people s lives *Teen Spirits* should be of interest to students of media and cultural studies as well as to practicing teachers and readers with an interest in questions of youth and identity **Teen Spirits** Chris Richards, 2003

*Children's Games in the New Media Age* Chris Richards, Andrew Burn, 2016-05-23 The result of a unique research project exploring the relationship between children s vernacular play cultures and their media based play this collection challenges two popular misconceptions about children s play that it is depleted or even dying out and that it is threatened by contemporary media such as television and computer games A key element in the research was the digitization and analysis of Iona and Peter Opie s sound recordings of children s playground and street games from the 1970s and 1980s This framed and enabled the research team s studies both of the Opies documents of mid twentieth century play culture and through a two year ethnographic study of play and games in two primary school playgrounds contemporary children s play cultures In addition the research included the use of a prototype computer game to capture playground games and the making of a documentary film Drawing on this extraordinary data set the volume poses three questions What do these hitherto unseen sources reveal about the games songs and rhymes the Opies and others collected in the mid twentieth century What has happened to these vernacular forms How are the forms of vernacular play that are transmitted in playgrounds homes and streets transfigured in the new media age In addressing these questions the contributors reflect on the changing face of childhood in the twenty first century in relation to questions of gender and power and with attention to the children s own participation in producing the ethnographic record of their lives Future Prospects for Music Education Vesa

Kurkela, Lauri Väkevä, 2012-01-17 Informal learning pedagogy has become a major topic within the international field of music education due in no small part to Lucy Green s groundbreaking research on popular musicians learning as well as her subsequent efforts to turn her research findings into a pedagogy that can be implemented in comprehensive school music education This has generated massive interest and attention among music education practitioners and scholars worldwide With experience of studying and working within higher music education in the Nordic countries the editors of this anthology Sidsel Karlsen and Lauri Väkevä are well acquainted with popular music related informal learning pedagogies which have formed an important aspect of comprehensive school music education in the Nordic countries for more than two decades

With this familiarity also comes a wish to contribute to the critical examination and further development of existing practices by corroborating informal learning pedagogy in popular music from different angles The introduction of this book explores different theoretical starting points for investigations of the formal informal nexus The following chapters written by an international community of experienced music education scholars and practitioners afford critical examinations of informal learning pedagogies from various perspectives either theoretical or research based In the last chapter Lucy Green paves the way for moving informal and aural learning into the traditional instrumental music lesson Altogether the anthology aims to explore some of the future prospects for music education with informal learning pedagogy as the focal point **Music,**

**Markets and Consumption** Daragh O'Reilly, Gretchen Larsen, Krzysztof Kubacki, 2013-05-31 A fully international and scholarly analysis integrating the unique popular music sector both within arts marketing and current marketing and consumption theories It gives a full overview and coverage of music marketing and cultural policy and the emerging academic study of the sector **Music Generations in the Digital Age** Rafal Zaborowski, 2025-10-01 What do we do when

we listen The act of engagement with music in everyday life may seem simple on the surface but participation interpretation circulation and cultural production in the digital age are more complex and entangled than ever before It is especially so in Japan with its vast multimedia idol and vocaloid industries This unique ethnographic work at the intersection of cultural media and music studies covers a wide spectrum of music related activities embedded in the daily lives of two Japanese cohorts The varied case studies including teen idol groups and virtual idols aid the detailed examination of the relation between music generation and society **Musical Identities** Raymond A. R. MacDonald, David J Hargreaves, Dorothy Miell, 2002-07-18 Music is a tremendously powerful channel through which people develop their personal and social identities Music is used to communicate emotions thoughts political statements social relationships and physical expressions But just as language can mediate the construction and negotiation of developing identities so music can also be a means of communication through which aspects of people's identities are constructed Music can have a profound influence on our developing sense of identity our values and our beliefs whether from rock music classical music or jazz Different research studies in social and developmental psychology are beginning to chart the various ways in which these processes occur and this is the first book to examine the relationship between music and identity The first section focuses on Developing Musical Identities and deals with the ways in which individuals involved in musical participation develop personal identities that are intrinsically musical Chapters include The self identity of young musicians Musical identities and the school environment and Personal identity and music a family perspective The second section deals with Developing Identities Through Music and contains chapters on Gender identity and music National identity and music and Music as a catalyst for changing personal identity This is the first book to deal with musical identity from a psychological perspective and will be fascinating and important reading for postgraduate and research psychologists in social developmental and music psychology The book will

also appeal to those within the applied fields of health and educational psychology music education and music therapy

*The Routledge Research Companion to Popular Music and Gender* Stan Hawkins, 2017-03-16 Why is gender inseparable from pop songs What can gender representations in musical performances mean Why are there strong links between gender sexuality and popular music The sound of the voice the mix the arrangement the lyrics and images all link our impressions of gender to music Numerous scholars writing about gender in popular music to date are concerned with the music industry's impact on fans and how tastes and preferences become associated with gender This is the first collection of its kind to develop and present new theories and methods in the analysis of popular music and gender The contributors are drawn from a range of disciplines including musicology sociology anthropology gender studies philosophy and media studies providing new reference points for studies in this interdisciplinary field Stan Hawkins's introduction sets out to situate a variety of debates that prompts ways of thinking and working where the focus falls primarily on gender roles Amongst the innovative approaches taken up in this collection are queer performativity gender theory gay and lesbian agency the female pop celebrity masculinities transculturalism queering transgenderism and androgyny This Research Companion is required reading for scholars and teachers of popular music whatever their disciplinary background **Teaching Popular Culture**

David Buckingham, 2002-01-04 Teaching about the media and popular culture has been a major concern for radical educators Yet in recent years the hyperbolic rhetoric of critical pedagogy has come under attack not only from theoretical perspectives such as feminism anti racism and postmodernism but also in The Light Of Actual Classroom Experience The Notion That Teachers Might liberate students through rationalistic forms of ideological critique has been increasingly questioned not only on the grounds of its political arrogance but also because of its ineffectiveness in practice This book seeks to move beyond the limitations of these debates and to explore positive alternatives It contains a broad international range of contributions covering practice from primary schools right through to higher education The authors draw on diverse perspectives including poststructuralism postmodernism cultural studies anti racism and feminism yet they share a willingness to challenge radical orthodoxies and to offer positive practical alternatives Youth, Music and Creative Cultures Geraldine Bloustien, Margaret Peters, 2011-10-03 This book offers an evocative cross cultural exploration into the everyday lives and music practices of young people from their own broad social cultural and ethnic perspectives Youth from seven urban locales in Australia the UK the US and Europe document and reflect on their own learning processes and music activities *EBOOK: Access All Eras: Tribute Bands and Global Pop Culture* Shane Homan, 2006-09-16 From Björn Again to the Illegal Eagles from Black Sabbath to the Essex Pistols and the Bootleg Beatles tribute bands comprise a significant sector of many national music scenes Access All Eras is the first book to examine the tribute and cover band phenomenon and its place within the global popular music industry The ability of tributes to reinforce or challenge the very idea of stardom is explored through studies of imitations of various iconic pop and rock performers including Elvis the Beatles Jimi Hendrix ABBA and the Beach Boys

Analysis of such tribute acts can tell us much about how the meanings of performers and performance circulate globally and are resisted or accommodated by local music cultures in the commercialisation of live and recorded memories The book also looks at music industry attitudes towards imitation including copyright issues and the use of multimedia performance techniques to deliver the authentic tribute experience It offers an insight into how understandings of nostalgia and celebrity circulate within contemporary society and are connected with other media and leisure industries Access All Eras is key reading for students in popular music media studies cultural studies arts music sociology performing arts and popular culture studies

**Mass Media** James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

**Children, Media and Playground Cultures** R. Willett, C. Richards, J. Marsh, A. Burn, J. C Bishop, 2013-06-11 Drawing on ethnographic accounts of children's media referenced play this book explores children's engagement with media cultures and playground experiences analyzing a range of issues such as learning fantasy communication and identity

*Forever Young* Chris Richards, 2008 This book explores young adult fiction's stories about being young staying young and sometimes never wanting to grow up Looking at controversial novels by Francesca Lia Block at sex and race in *Buffy the Vampire Slayer* and at the online world of fans and censors Chris Richards argues that attempts to classify and regulate what counts as young adult have failed and shows how youth as intense exciting and tormented draws audiences unconstrained by age Throughout the book the narratives of life as lived by the young emerge as the stuff of the self made and remade in reading watching and listening Fascinating and accessible *Forever Young* will be of particular interest to students and teachers concerned with contemporary popular culture in cultural media literature and education studies courses

**Melvin Burgess** Alison Waller, 2013-10-01 Melvin Burgess has made a powerful name for himself in the world of children's and young adult literature emerging in the 1990s as the author of over twenty critically acclaimed novels This collection of original essays by a team of established and new scholars introduces readers to the key debates surrounding Burgess's most challenging work including controversial young adult novels *Junk* and *Doing It* Covering a variety of critical and theoretical perspectives the volume also presents exciting new readings of some of his less familiar fiction for children and features an interview with the author

**Stereo: Comparative Perspectives on the Sociological Study of Popular Music in France and Britain** Philippe Le Guern, 2016-04-01 The term Popular Music has traditionally denoted different things in France and Britain In France the very concept of popular music has been fiercely debated and contested whereas in Britain and more largely throughout what the French describe as the Anglo saxon world popular music has been more readily accepted as a

description of what people do as leisure or consume as part of the music industry and as something that academics are legitimately entitled to study French researchers have for some decades been keenly interested in reading British and American studies of popular culture and popular music and have often imported key concepts and methodologies into their own work on French music but apart from the widespread use of elements of French theory in British and American research the Anglo saxon world has remained largely ignorant of particular traditions of the study of popular music in France and specific theoretical debates or organizational principles of the making and consuming of French musics French British and American research into popular music has thus coexisted with considerable cross fertilization for many years but the barriers of language and different academic traditions have made it hard for French and anglophone researchers to fully appreciate the ways in which popular music has developed in their respective countries and the perspectives on its study adopted by their colleagues This volume provides a comparative and contrastive perspective on popular music and its study in France and the UK

*Performing Identity/performing Culture* Greg Dimitriadis,2009 Performing Identity Performing Culture Hip Hop as Text Pedagogy and Lived Practice is the first book length ethnography of young people and their uses of hip hop culture Originally published in 2001 this second edition is newly revised expanded and updated to reflect contemporary currents in hip hop culture and critical scholarship as well as the epochal social cultural and economic shifts of the last decade Drawing together historical work on hip hop and rap music as well as four years of research at a local community center Greg Dimitriadis argues here that contemporary youth are fashioning notions of self and community outside of school in ways educators have largely ignored His studies are broad ranging how two teenagers constructed notions of a Southern tradition through their use of Southern rap artists like Eightball how young people constructed notions of history through viewing the film Panther a film they connected to hip hop culture more broadly and how young people dealt with the life and death of hip hop icon Tupac Shakur constructing resurrection myths that still resonate and circulate today

**Wired Up** Sue Howard,2005-08-04 For many years now studies rejecting the idea of a direct causal link between the media and children s behaviour and beliefs have been generating insights into children s interactions with all kinds of media forms This book is designed as an accessible introduction to these important research findings for students of cultural and communication studies psychology and education for professionals working with children and young people and in the media industry and for parents Wired Up comprises separate studies of a wide range of electronic media forms including television video computer games and the telephone and includes coverage of a broad age range from pre school children to adolescents and young adults It provides insights into such diverse issues as the gendered nature of media consumption the role of parental regulation and peer groups and the significance of narrative realism and morality

**The Making of Citizens** David Buckingham,2002-01-04 New book from well known author in media education and editor of Media Education and Culture series formerly UCL now Routledge Examines how television news and popular programmes have affected young people s

views of issues such as politics and citizenship      Digital Diversions Julian Sefton-Green, 2004-01-14 This work explores the diverse ways in which young people are active social agents in the production of youth culture in the digital age It collects an international range of empirical accounts describing the ways in which young people utilize and appropriate new technology The contributors draw on a range of theoretical perspectives including cultural studies social anthropology and feminism
