Teenage Suicide Notes Terry Williams, 2017-02-21 Picturing myself dying in a way I choose myself seems so comforting healing and heroic I'd look at my wrists watch the blood seeping and be a spectator in my last act of self determination By having lost all my self respect it seems like the last pride I own determining the time I die Kyra V seventeen Reading the confessions of a teenager contemplating suicide is uncomfortable but we must do so to understand why self harm has become epidemic especially in the United States What drives teenagers to self harm What makes death so attractive so liberating and so inevitable for so many In *Teenage Suicide Notes* sociologist Terry Williams pores over the writings of a diverse group of troubled youths to better grasp the motivations behind teenage suicide and to humanize those at risk of taking their own lives Williams evaluates young people in rural and urban contexts and across lines of race class gender and sexual orientation His approach which combines sensitive portrayals with sociological analysis adds a clarifying dimension to the fickle and often frustrating behavior of adolescents Williams reads between the lines of his subjects seemingly straightforward reflections on alienation agency euphoria and loss and investigates how this cocktail of emotions can lead to suicide or not Rather than treating these notes as exceptional examples of self expression Williams situates them at the center of teenage life linking them to abuse violence depression anxiety religion peer pressure sexual identity and family dynamics He captures the currents that turn self destruction into an act of self determination and proposes more effective solutions to resolving the suicide crisis

Adolescent Suicide Paul R. Robbins, 1997-11-15 Suicide is now the third leading cause of death among adolescents in the United States and some studies suggest that as many as 75 percent of all teenagers have considered killing themselves Current research on young people who are suicidal those who attempt and those who succeed is discussed in a plain way Among the wide ranging topics covered are the prevalence of adolescent suicide racial and gender differences methods used in the study of suicidal behavior associated behavioral problems e g drugs and alcohol psychological profiles precipitating events for suicide attempts teenage suicide clusters the effects of suicide on family and friends the treatment of suicidal adolescents and most importantly strategies for intervention and prevention

Teenage Wasteland Donna Gaines, 1998-04-28 *Teenage Wasteland* provides memorable portraits of rock and roll kids and shrewd analyses of their interests in heavy metal music and Satanism A powerful indictment of the often manipulative media coverage of youth crises and so called alternative programs designed to help troubled teens *Teenage Wasteland* draws new conclusions and presents solid reasons to admire the resilience of suburbia's dead end kids A powerful book Samuel G Freedman New York Times Book Review Gaines sheds light on a poorly understood world and raises compelling questions about what society might do to help this alienated group of young people Ann Grimes Washington Post Book World There is no comparable study of teenage suburban culture and very few ethnographic inquiries written with anything like Gaines's

native gusto or her luminous eye for detail Andrew Ross Transition An outstanding case study Gaines shows how teens engage in cultural production and how such social agency is affected by economic transformations and institutional interventions Richard Lachman Contemporary Sociology The best book on contemporary youth culture Rolling Stone
