Gendron,2023-08-31 During the late nineteenth and early twentieth century popular music was considered nothing but vulgar entertainment Today jazz and rock music are seen as forms of art and their practitioners are regularly accorded a status on par with the cultural and political elite To take just one recent example Bono lead singer and lyricist of the rock band U2 got equal and sometimes higher billing than Pope John Paul II on their shared efforts in the Jubilee 2000 debt relief project When and how did popular music earn so much cultural capital To find out Bernard Gendron investigates five key historical moments when popular music and avant garde art transgressed the rigid boundaries separating high and low culture to form friendly alliances He begins at the end of the nineteenth century in Paris s Montmartre district where cabarets showcased popular music alongside poetry readings in spaces decorated with modernist art works Two decades later Parisian poets and musicians slumming in jazz clubs assimilated jazz s aesthetics in their performances and compositions In the bebop revolution in mid 1940s America jazz returned the compliment by absorbing modernist devices and postures in effect transforming itself into an avant garde art form Mid 1960s rock music under the leadership of the Beatles went from being reviled as vulgar music to being acclaimed as a cutting edge art form Finally Gendron takes us to the Mudd Club in the late 1970s where New York punk and new wave rockers were setting the aesthetic agenda for a new generation of artists Between Montmartre and the Mudd Club should be on the shelves of anyone interested in the intersections between high and low culture art and music or history and aesthetics
