**Teenage Pregnancy** Anne L Dean,2013-05-13 Unwed teenage pregnancy is a national problem and a puzzle for clinicians and social psychologists For how are we to understand a pattern of behavior that is strongly motivated and yet likely to end in unfortunate outcomes Moreover why does the pattern of unwed teenage pregnancy repeat in successive generations in some families despite education and previous experience whereas in other families the pattern is broken Reporting on intensive social and psychological research in a rural African American community in Louisiana Anne Dean offers a compelling view of this phenomenon that integrates historical and economic analysis with a sensitive psychological inquiry into the minds of mothers and daughters and the patterns of communication between them Teenage Pregnancy The Interaction of Psyche and Culture transcends earlier investigations by going beyond conventional research strategies to test psychodynamic theories about the formation of internal worlds Drawing on the work of Erik Erikson and Hans Loewald Dean not only finds empirical justification for psychodynamic theories of psychic structure but also extends the scope and methodology of attachment research in an exciting new direction Specifically her analysis reveals how different kinds of attachment relationships between mothers and daughters manifest themselves in adolescence as internal working models that become the templates for interpreting and acting upon contradictory economic social and familial expectations In demonstrating how social factors and cultural schemas interact with psychodynamic motives and structures Teenage Pregnancy has widespread applicability

to social science research in general And it offers psychodynamically oriented clinicians working with adolescents the opportunity to become better acquainted with the ways in which mother daughter relationships gain expression in the identity choices of teenage girls      *Adolescent Health: Background and the effectiveness of selected prevention and treatment services* ,1991      **Adolescent Parenthood** Max Sugar,2012-12-06 The definition of the risks of adolescent childbearing has received considerable investigative attention during the last decade We have gradually moved away from simplistically studying young maternal age as the sole determinant of biologic and psychosocial outcome even though we recognize it is one of several factors which warrant consideration We now recognize that if adolescents receive adequate and consistent pre natal care they and their infants should do nearly as well as adult women and their infants of similar backgrounds Thus the major morbidities for adolescent mothers adolescent fathers and their infants are psychosocial lack of educational and vocational futures failed marriages and dependence on government aid for support The adequacy of the parenting of adolescent mothers and fathers and the long term developmental and physical outcomes of their children are largely unstudied This book edited by Dr Max Sugar a recognized authority on adolescence focuses on the important topic of adolescent parenthood The authors of this timely contribution approach the topic of adolescent parenthood in a unique fashion utilizing a combination of several approaches consideration of fictional characters in history astute and carefully conceptualized clinical observations reviews of the literature and their own investigation It will be through the use of such a creative approach that we shall define the important questions which should be addressed about adolescents as parents and the outcome for their children      *Young Unwed Fathers* Robert I. Lerman,Theodora Ooms,2009 Essays on policies programs and ethical issues      **Multicultural Counseling with Teenage Fathers** Mark S. Kiselica,1995-08-03 An unplanned pregnancy in adolescence can be a crisis not only for young unmarried mothers but also for unmarried fathers of the same age group This landmark volume is the first in depth practical guide to counselling teenage fathers Taking a multicultural perspective the volume addresses issues that may have a bearing on a young man's adjustment to fatherhood such as his relationships with his parents his child the mother of his child her parents and his peers      **Handbook on Counseling Youth** John McDowell,Bob Hostetler,1996-06-09 Thoroughly researched this easy to use handbook is designed to help parents teachers pastors and youth workers guide today's young people through the minefields of adolescence From simple challenges to major crises this book will equip adults to help youth cope with situations involving emotional issues abuse addictions family issues disorders sexual issues and much more      **Adolescent Behavior Research** Joav Merrick,Hatim A. Omar,2007 In the Western World the leading causes of mortality continue to be accidents homicide suicide sexually transmitted infections eating disorders and teen pregnancy All are preventable yet they continue to happen This book is a collaboration among many clinicians and researchers and addressing these issues by having discussions on various aspects of adolescent behaviours parenting and educating adolescents from different countries and different cultures      *Adolescent*
