New York Supreme Court Case on Appeal , *Money over Mastery, Family over Freedom* Calvin Schermerhorn,2011-06-15 Elegantly argued

convincingly shows the centrality of enslaved men and women to the transformation of the coastal upper South's commercial life. The Journal of Southern History Once a sleepy plantation society the region from the Chesapeake Bay to coastal North Carolina modernized and diversified its economy in the years before the Civil War. Central to this industrializing process was slave labor. Money over Mastery Family over Freedom tells the story of how slaves seized opportunities in these conditions to protect their family members from the auction block. Calvin Schermerhorn argues that the African American family provided the key to economic growth in the antebellum Chesapeake. To maximize profits in the burgeoning regional industries slaveholders needed to employ or hire out a healthy supply of strong slaves which tended to scatter family members. From each generation they also selected the young fit and fertile for sale or removal to the cotton South. Conscious of this pattern the enslaved were sometimes able to negotiate mutually beneficial labor terms to save their families despite that new economy. Money over Mastery Family over Freedom proposes a new way of understanding the role of American slaves in the antebellum marketplace. Rather than work against it as one might suppose enslaved people engaged with the market somewhat as did free Americans. Slaves focused their energy and attention however not on making money as slaveholders increasingly did but on keeping their kin out of the human coffles of the slave trade. Displays exhaustive research a well-crafted argument and is a valuable addition to antebellum slave historiography. H-CivWar H-Net Reviews **Ellis Island Interviews** Peter M.
