## **Telephone Poles Other Poems:**

Telephone Poles and Other Poems John Updike, 2012-04-25 This second collection of John Updike's poetry is equally divided between poems that in their verbal jugglery and humorous bias seem to qualify as light and poems that one way or other cross the problematic border into the general realm of poetry. The distinction cannot be clear cut. The poet is consistently concerned with Man's cosmic embarrassment and the same vision illuminates the creatures of *The High Hearts* and *Seagulls*. Science and religion so frequently and variously invoked frame a single paradox, the paradox of the mundane and each poem, whether inspired by an antic headline or a suburban landscape, rejoices in the elusive surface of created things. When *The Carpentered Hen*, John Updike's first collection of verse, was published, Phyllis McGinley wrote, "I have been happily reading Mr Updike in *The New Yorker* for some time and am happy now to own him collected." When he first appeared in that magazine, I was so elated to see a new name in light verse that I felt like crying with the Ancient Mariner: "A Sail! A Sail!" His is what poetry of this sort exactly ought to be: playful but elegant, sharp-eyed, witty. In the *Saturday Review*, David McCord wrote, "Furthermore, he is a graceful border crosser, light verse to poem as Auden has been as Betjeman and McGinley frequently are." **Chicorel Index to Poetry in Anthologies and Collections in Print** Marietta Chicorel, 1974

*Collected Poems of John Updike, 1953-1993* John Updike, 2012-04-25 The idea of verse of poetry has always, during forty years spent working primarily in prose, stood at my elbow as a standing invitation to the highest kind of verbal exercise, the most satisfying, the most archaic, the most elusive, of critical control. In hotel rooms and airplanes, on beaches and Sundays, at junctures of personal happiness or its opposite, poetry has comforted me with its hope of permanence, its packaging of flux. Thus John Updike writes in introducing his *Collected Poems*: "The earliest poems here date from 1953, when Updike was twenty-one, and the last were written after he turned sixty. Almost all of those published in his five previous collections are included, with some revisions. Arranged in chronological order, the poems constitute, as he says, the thread, backside of my life's fading tapestry. An ample set of notes at the back of the book discusses some of the hidden threads and expatiates upon a number of fine points. Nature, tenderly intricate, ruthlessly impervious, is a constant and ambiguous presence in these poems, along with the social observation one would expect in a novelist. No occasion is too modest or too daily to excite metaphysical wonder or to provoke a lyrical ingenuity of language. Yet even the wittiest of the poems are rooted to the ground of experience and fact. Seven Odes to Seven Natural Processes attempt to explicate the physical world with a directness seldom attempted in poetry. Several longer poems, *Leaving Church*, *Early Midpoint*, use autobiography to proclaim the basic strangeness of existence." *Selected Poems of John Updike* John Updike, Christopher Carduff, 2018-10-23 The best from Updike's lifework in poetry: 129 witty and intimate poems that, when read together, take on the quality of an autobiography in verse. By a master of American letters and the author of the acclaimed *Rabbit* series, Updike's gift for close observation in these poems, as elsewhere, is near to supernatural. *The New York Times*: "Five decades of witty, intimate and moving poems."
