Telemedicine, Telehealth and Telepresence Rifat Latifi, Charles R. Doarn, Ronald C.

Merrell, 2020-11-24. Telemedicine and telehealth have consistently been shown to be effective for remote areas or limited resource locations, regular medical and surgical practice, primary care, second opinion, extreme conditions, major crises, and disaster management. The aim of this book is to bring all aspects of telemedicine and e health to the reader in a simple, make sense approach in one tome. The book is structured in four parts with 29 chapters written by the best experts in the field from around the world, including clinicians, scientists, and administrators of telemedicine programs. Part I deals with basic principles of telemedicine and telepresence. Historical journeys of telemedicine and strategies building sustainable telemedicine and telehealth programs in the United States and in the Balkans, as well as incorporation of telemedicine in the current ongoing pandemic COVID 19, are well described and are must read. Current technological developments, rules and regulations, legal and business aspects, and consent are also addressed. Part II describes strategies for building sustainable telemedicine and telehealth programs. Telehealth patient portals and public-private partnership modes of technology, as well as the role of international telemedicine and how to make it work, are valuable chapters of great significance. Part III describes outcomes based evidence, clinical applications of telemedicine in trauma, burns, intensive care, pediatric care, psychiatry, and stroke. Finally, one important chapter for the readers is the telemedicine for prison and jail population. The final part, Part IV, depicts surgical telerobotics and teleradiology, a chapter written by 18 various surgical experts, a true gem for the readers. The book ends with promises and hurdles of telemedicine in austere conditions. *Telemedicine, Telehealth and Telepresence* serves as a valuable resource that focuses on providing patients care from a distance using store and forward technology to live, actual performance of operations at a distance. Chapters 1, 6, 12, and 17 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Challenges in Primary Mental Health Care Christos Lionis, Christopher Dowrick, 2025-09-05. This insightful and timely book equips family doctors and other primary healthcare professionals with the knowledge and skills needed to address a diverse range of new and important challenges in the field of primary mental health care, including ongoing impacts from the COVID pandemic, thanatophobia, and end of life care, humanitarian and geopolitical catastrophes, and the effects of climate change. There is an emphasis throughout on the need to encourage and so reap the benefits of interdisciplinary collaboration between family doctors and mental health specialists, and across the range of primary care and community workers. Effective primary healthcare relies increasingly on the use of remote consultations, and the book explains how the potential of remote working can be maximized in low resource settings.

The book concludes with a consideration of how to protect and enhance the mental health of primary care workers in the face of these ongoing challenges in care Key Features Global and inclusive providing practical guidance and direction across low middle and high income settings satisfying the needs of all primary care practitioners regardless of geography Focused on key and immediate challenges for primary care practitioners arising from the COVID 19 pandemic poverty and social inequality migration and climate change Addresses the vital importance of self care by and of primary healthcare workers facing unprecedented work and emotional pressures Reflecting the expertise of the WONCA Working Party for Mental Health WWPMH building on the foundations laid in the 2020 WONCA volume Global Primary Mental Health Care the editors and contributors all have expertise in primary mental health care at the frontline with backgrounds in family medicine psychiatry psychology and nursing
