Late for the Sky The Pretender and Running on Empty Jackson Browne was a master of capturing the counterculture ethos of the 1960s Cornel Bonca dives deeply into his music his long fifty year career and activism including environmentalism within the context of American life revealing a figure still fueled by certain American ideals like justice freedom and equality for all Browne grew up in Southern California in the early 1960s greatly influenced by his mother s progressive politics the music of Bob Dylan and the speeches of Martin Luther King Then drawn to the Laurel Canyon rock scene he moved to Los Angeles and established himself as a songwriter for The Eagles Linda Ronstadt and many others becoming a fixture of the singer songwriter movement in the early 1970s His music in the 1980s was largely political in scope critiquing America s conservative turn its militarism in Central America its nuclear brinksmanship with the Soviet Union and its dismantling of Great Society social programs He only returned to the personal music his fans treasured in 1993 with I m Alive Since then Browne s music has toggled back and forth between the personal and the political He s settled down into a long term relationship with environmental activist Dianna Cohen and remained astonishingly active in local and national politics This book dives into his music life and political activism in the changing face of America over the last fifty years and why he still matters today *Para-Interactivity and the Appeal of Television in the Digital Age* Oranit Klein-Shagrir,2017-08-15 Para

Interactivity and the Appeal of Television in the Digital Age focuses on broadcast television s attempts to transition from a mass medium to one which addresses viewers as potentially active participants in simulated interactive communication It explores both the transformations and the continued popularity of television in an age of social media and competition from interactive digital media It presents the concept of para interactivity which contains features or elements that echo interactive communication processes considered characteristic of digital media and participatory culture translated into television s language This novel idea helps to understand contemporary television and identify current and traditional strategies it employs in order to survive in a changing media environment *The Arden Research Handbook of Shakespeare and Adaptation* Diana E. Henderson,Stephen O'Neill,2022-03-24 The Arden Research Handbook of Shakespeare and

Adaptation explores the dynamics of adapted Shakespeare across a range of literary genres and new media forms This comprehensive reference and research resource maps the field of Shakespeare adaptation studies identifying theories of adaptation their application in practice and the methodologies that underpin them It investigates current research and points towards future lines of enquiry for students researchers and creative practitioners of Shakespeare adaptation The opening

section on research methods and problems considers definitions and theories of Shakespeare adaptation and emphasises how Shakespeare is both adaptor and adapted A central section develops these theoretical concerns through a series of case studies that move across a range of genres media forms and cultures to ask not only how Shakespeare is variously transfigured hybridised and valorised through adaptational play but also how adaptations produce interpretive communities and within these potentially new literacies modes of engagement and sensory pleasures The volume s third section provides the reader with uniquely detailed insights into creative adaptation with writers and practice based researchers reflecting on their close collaborations with Shakespeare s works as an aesthetic ethical and political encounter The Handbook further establishes the conceptual parameters of the field through detailed practical resources that will aid the specialist and non specialist reader alike including a guide to research resources and an annotated bibliography

The New Television Handbook Jonathan Bignell,Jeremy Orlebar,Patricia Holland,2017-07-14 The New Television Handbook provides an exploration of the theory and practice of television at a time when the medium is undergoing radical changes The book looks at television from the perspective of someone new to the industry and explores the place of the medium within a constantly changing digital landscape This title discusses key skills involved in television production including producing production management directing camera sound editing and visual effects Each of these activities is placed within a wider context as it traces the production process from commissioning to post production The book outlines the broad political and economic context of the television industry It gives an account of television genres in particular narrative factual programmes and news and it considers the academic discipline of media studies and the ways in which theorists have analysed and tried to understand the medium It points to the interplay of theory and practice as it draws on the history of the medium and observes the ways in which the past continues to influence and invigorate the present The New Television Handbook includes contributions from practitioners ranging from established producers to new entrants a comprehensive list of key texts and television programmes a revised glossary of specialist terms a section on training and ways of getting into the industry By combining theory real world advice and a detailed overview of the industry and its history The New Television Handbook is an ideal guide for students of media and television studies and young professionals entering the television industry
