Television Culture John Fiske, 1987 **Television Culture** John Fiske, 2010-10-18 This revised edition of a now classic text includes a new introduction by Henry Jenkins explaining Why Fiske Still Matters for today's students followed by a discussion between former Fiske students Ron Becker Aniko Bodroghkozy Steve Classen Elana Levine Jason Mittell Greg Smith and Pam Wilson on John Fiske and *Television Culture* Both underline the continuing relevance of this foundational text in the study of contemporary media and popular culture Television is unique in its ability to produce so much pleasure and so many meanings for such a wide variety of people In this book John Fiske looks at television's role as an agent of popular culture and goes on to consider the relationship between this cultural dimension and television's status as a commodity of the cultural industries that are deeply inscribed with capitalism He makes use of detailed textual analysis and audience studies to show how television is absorbed into social experience and thus made into popular culture Audiences Fiske argues are productive discriminating and televisually literate *Television Culture* provides a comprehensive introduction for students to an integral topic on all communication and media studies courses Television Culture John Fiske, 2002-01-04 First published in 1987 Routledge is an imprint of Taylor Francis an informa company Reality TV Susan Murray, Laurie Ouellette, 2004-04-01 Survivor The Bachelor Extreme Makeover Big Brother Joe Millionaire American Idol The Osbournes It is virtually impossible to turn on a television without coming across some sort of reality programming Yet while this genre has rapidly moved from the fringes of television culture to its lucrative core critical attention has not kept pace Beginning by unearthing its historical roots in early reality shows like Candid Camera and wending its way through An American Family Cops and The Real World to the most recent crop of reality programs Reality TV is the first book to address the economic visual cultural and audience dimensions of reality television The essays provide a complex and comprehensive picture of how and why this genre emerged what it means how it differs from earlier television programming and how it engages societies industries and individuals Topics range from the construction of televisual reality to the changing face of criminal violence on TV to issues of surveillance taste and social control By spanning reality television's origins in the late 1940s to its current overwhelming popularity Reality TV demonstrates both the tenacity of the format and its enduring ability to speak to our changing political and social desires and anxieties Contributors include Nick Couldry Mary Beth Haralovich John Hartley Chuck Kleinhans Derek Kompare Jon Kraszewski Kathleen LeBesco Justin Lewis Ted Magder Jennifer Maher Anna McCarthy Rick Morris Chad Raphael Elayne Rapping Jeffrey Sconce Michael W Trosset Pamela Wilson **Television Culture** John Fiske, 2002-01-04 First published in 1987 Routledge is an imprint of Taylor Francis an informa company *Electronic Hearth* Cecelia Tichi, 1992-10-29 We all talk about the tube or box as if television were simply another appliance like the refrigerator or toaster oven But Cecilia Tichi argues that TV is actually an environment a pervasive screen world that saturates almost every aspect of modern life In *Electronic Hearth* she looks at how that environment evolved and how it in

turn has shaped the American experience Tichi explores almost fifty years of writing about television in novels cartoons journalism advertising and critical books and articles to define the role of television in the American consciousness She examines early TV advertising to show how the industry tried to position the new device as not just a gadget but a prestigious new piece of furniture a highly prized addition to the home The television set she writes has emerged as a new electronic hearth the center of family activity John Updike described this primitive appeal of the hearth in Roger's Version Television is its irresistible charm a fire Entering an empty room we turn it on and a talking face flares into being Sitting in front of the TV Americans exist in a safety zone free from the hostility and violence of the outside world She also discusses long standing suspicions of TV viewing its often solitary almost autoerotic character its supposed numbing of the minds and imagination of children and assertions that watching television drugs the minds of Americans Television has been seen as treacherous territory for public figures from generals to presidents where satire and broadcast journalism often deflate their authority And the print culture of journalism and book publishing has waged a decades long war of survival against it only to see new TV generations embrace both the box and the book as a part of their cultural world In today's culture she writes we have become teleconscious seeing for example real life being certified through television as seen on TV and television constantly ratified through its universal presence in art movies music comic strips fabric prints and even references to TV on TV Ranging far beyond the bounds of the broadcast industry Tichi provides a history of contemporary American culture a culture defined by the television environment Intensively researched and insightfully written *The Electronic Hearth* offers a new understanding of a critical but much maligned aspect of modern life *Australian Television Culture* Tom

O'Regan, 2020-07-24 Australian television has been transformed over the past decade Cross media ownership and audience reach regulations redrew the map and business culture of television leading business entrepreneurs acquired television stations and then sold them in the bust of the late 1980s and new television services were developed for non English speaking and Aboriginal viewers *Australian Television Culture* is the first book to offer a comprehensive analysis of the fundamental changes of this period It is also the first to offer a substantial treatment of the significance of multiculturalism and Aboriginal initiatives in television Tracing the links between local regional national and international television services Tom O'Regan builds a picture of Australian television He argues that we are not just an outpost of the US networks and that we have a distinct television culture of our own a truly innovative book The author ambitiously strives for a large scale synthesis of policy program analysis history politics international influences and the Australian television system's place in the world Associate Professor Stuart Cunningham Queensland University of Technology **Inventing Television Culture** Janet Thumim, 2004-12-16 During the fertile decade 1955-65 the television institution emerged in a form which would be familiar for the next half century this book attends to two aspects of its formation The first entails the production strategies programmes schedules and emergent generic modes as these were invented through a process of trial and error allied to a

close attention to building the mass audience in short the question of how television invented itself The second aspect concerns the place of women and the concept feminine in the new institution Television offered women access to the public sphere in ways that were potentially disruptive of the order prevailing in mid 1950s Britain Apart from new employment opportunities images of women and definitions of the feminine were purveyed nightly to an heterogeneous audience of millions an audience that was itself under construction throughout the period Through close attention to three discrete areas of programming women s programmes news and current affairs and popular drama the book aims to convey a sense of the excitement entailed in establishing the institution and to ask where and how it may have posed challenges to the prevailing patriarchal hegemony Hence the productive interplay of two terms television and the feminine both of which were evolving rapidly during the period is explored in the context of the contemporary discursive climate
