Television In America:

The Hidden Screen Robert L. Hilliard, Michael C. Keith, 1999 A highly eclectic form of broadcasting in the United States today by any standard is low power television LPTV Not an insignificant blip in the industry there are more LPTV stations licensed than there are full power television stations LPTV offers true local and community programming to millions of viewers Because it fills gaps left by both full power television and cable LPTV tends to serve outlying communities disenfranchised urban groups and others who have no other way to get their messages out stay connected or receive video programs that meet their special interests and needs In this the first book devoted entirely to LPTV the authors tell the complete story of this unique and important medium from its inception to the formidable challenges it faces today and its potential for tomorrow

Television in Black-and-white America Alan Nadel, 2005 La couverture indique Alan Nadel's new book reminds us that most of the images on early TV were decidedly Caucasian and directed at predominantly white audiences Television did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel's Johnny Yuma reincarnating Southern values and Bonanza's Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation's mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands

Student Television in America Tony Silvia, Nancy F. Kaplan, 1998 The book begins with a brief history of student television and then digs into the nuts and bolts including discussions of basic equipment staffing needs and production methods It explains the business end of running a successful student TV station and explores the important topics of troubleshooting social responsibility and technology of the future Extensive interviews and case studies provide valuable insights from those already working in the field

America Clara E. Rodriguez, 2018 The surprising effects of American TV on global viewers As a dominant cultural export American television is often the first exposure to American ideals and the English language for many people throughout the world Yet American television is flawed and it represents race class and gender in ways that many find unfair and unrealistic What happens then when people who grew up on American television decide to come to the United States What do they expect to find and what do they actually find In America As Seen on TV Clara E Rodriguez surveys international college students and foreign nationals working or living in the US to examine the impact of American television on their views of the US and on their expectations of life in the United States She finds that many were surprised to learn that America is racially and economically diverse and that it is not the easy breezy happy endings culture portrayed in the media but a work culture The author also surveys US millennials about their consumption of US TV and finds that both groups share the sense that American TV does not accurately reflect racial ethnic relations in the US as they have experienced them However the groups differ on how much they think US TV has influenced their views on sex smoking and drinking America As Seen on TV explores the surprising effects of TV on global viewers and the realities they and US millennials actually experience in the US The surprising effects of American TV on global viewers As a dominant cultural export American television is often the first exposure to American ideals and the English language for many people throughout the world Yet American television is flawed and it represents race class and gender in ways that many find unfair and unrealistic What happens then when people who grew up on American television decide to come to the United States What do they expect to find and what do they actually find In America As Seen on TV Clara E Rodriguez surveys international college students and foreign nationals working or living in the US to examine the impact of American television on their views of the US and on their expectations of life in the United States She finds that many were surprised to learn that America is racially and economically diverse and that it is not the easy breezy happy endings culture portrayed in the media but a work culture The author also surveys US millennials about their consumption of US TV and finds that both groups share the sense that American TV does not accurately reflect racial ethnic relations in the US as they have experienced them However the groups differ on how much they think US TV has influenced their views on sex smoking and drinking America As Seen on TV explores the surprising effects of TV on global viewers and the realities they and US millennials actually experience in the US **Hollywood's America** Stephen P Powers, 2018-02-19 American motion pictures still dominate the world market with an impact that is difficult to measure Their role in American culture has been a powerful one since the 1930s and is a hallmark of our culture

today Though much has been written about the film industry there has been very little systematic attention paid to the ideology of its creative elite How does the outlook of that elite impact on the portrayals of America that appear on the screen How do their views interact with the demands of the market and the structure of the industry to determine the product that is seen by mass audiences Hollywood s America is a marvellously rich and careful discussion of these questions It combines a meticulous systematic content analysis of fifty years of top grossing films with a history of the changing structure of the industry To that mixture it adds an in depth survey of Hollywood s creative elite comparing them to other leadership groups The result is a balanced discussion of unique breadth and depth on a subject of national importance Placing the film industry in the context of American society as a whole the authors point out that Hollywood s creative leadership impacts the larger society even as it is influenced by that society The creators of films cannot remove themselves too far from the values of the audiences that they serve However the fact that films are made by a relatively small number of people who as the authors demonstrate tend to share a common outlook means that over time motion pictures have had an undeniable impact on the beliefs lifestyles and action of Americans This study contributes to the debate over the role and influence of those who create and distribute the products of mass culture in the United States The book also contains a devastating critique of the poststructuralist theories that currently dominate academic film criticism demonstrating how they fail in their attempt to explain the political significance of motion pictures
