Social/behavioral Effects of Violence on Television United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Telecommunications, Consumer Protection, and Finance,1982 *Children and the Formal Features of Television* Manfred Meyer,2013-06-21 No detailed description available for Children and the Formal Features of Television **Aggression in Children and Youth** R.M. Kaplan,2013-06-29 Human aggression is a fascinating research topic but it is of much more than academic importance To a large extent the quality of life and perhaps even world survival depend on an adequate understanding of human aggression Family violence child battering and spouse abuse rape assault armed robbery murder terrorism and war are all instances of various types of aggression The ability to regulate and control such acts could have a crucial contribution to the improvement of the quality of life Aggressive acts in children and youth need to be understood for three major reasons First most Western cultures are witnessing an increasing involvement in violence by youths Second the aggressive dispositions formed early in life may set the tone for or contribute to adult aggression Third the quality of childhood and the formation of personality are influenced by both the expression and inhibition of aggression The regulation and control of aggression in children and youth can have a profound effect on the institutions of the family and the educational system as well as on society at large Most societies are dedicated to maintaining harmony and to providing nonviolent solutions to human problems and social conflict A substantial amount of knowledge has accumulated about aggression and its regulation from empirical research theory and clinical sources Because of the social importance of aggression the study of human aggression in children and youth has become a popular area for scientific research *Becoming Female* Clarie Kopp,2013-11-11 Every woman ought to be filled with shame at the thought that she is woman Clement of Alexandria c 150 215 The five worst infirmities that afflict the female are indocility discontent slander jealousy and silliness Such is the stupidity of woman's character that it is incumbent upon her in every particular to distrust herself and to obey her husband Confucian Marriage Manual Nature intended women to be our slaves They are our property we are not theirs They belong to us just as a tree that bears fruit belongs to a gardener What a mad idea to demand equality for women Women are nothing but machines for producing children Napoleon Bonaparte The fact of the matter is that the prime responsibility of a woman probably is to be on earth long enough to find the best mate possible for herself and conceive children who will improve the species Norman Mailer Read these quotes and wonder Wonder at the strength tenacity and grace of females who have endured outrageous slings and arrows without becoming violent uncaring or incapacitated Sturdy stuff is contained in our double X preserved and nurtured for other less distorted times The Women in Context series is a reflection of the dawning light slowly illuminating woman as unique in some ways but neither less than nor more than man Surely our imperfect world can well use all the talents and capabilities that men and women possess Library Book Catalog National Institute of Law Enforcement and Criminal Justice. Television Barrie Gunter, Jackie Harrison, Maggie Wykes, 2003-01-30 Concern about violence on television has been publicly debated for the past 50 years TV violence has repeatedly been identified as a significant causal agent in relation to the prevalence of crime and violence in society Critics have accused the medium of presenting excessive quantities of violence to the point where it is virtually impossible for viewers to avoid it This book presents the findings of the largest British study of violence on TV ever undertaken funded by the broadcasting industry The study was carried out at the same time as similar industry sponsored research was being conducted in the United States and one chapter compares findings from Britain and the U S A The book concludes that it is misleading to accuse all broadcasters of presenting excessive quantities of violence in their schedules This does not deny that problematic portrayals were found But the most gory horrific and graphic scenes of violence were generally contained within broadcasts available on a subscription basis or in programs shown at times when few children were expected to be watching This factual analysis proves that broadcasters were meeting their obligations under their national regulatory codes of practice

Selective Exposure To Communication Dolf Zillmann, Jennings Bryant, 2013-07-04 First published in 1985 Research into what is usually referred to as mass communication has concentrated on the societal impact of the media The ways in which these media influence people and affect their behavior have been at issue For the most part undesirable effects were pondered and documented Only a few desirable effects received similar attention and scrutiny The research preoccupation with impact has been so pronounced that comparatively speaking next to no attention has been paid to questions such as why people enjoy whatever they elect to watch or hear and more fundamentally why they elect to watch or hear in the first place whatever it is that they elect to watch or hear Without a symposium on research into selective exposure to informative and entertaining messages nor a publication that brought together the recent research in this area this volume was put together in an effort to end this dilemma and to put selective exposure research on the map as a significant research venture

Violence and Terror in the Mass Media George Gerbner, Nancy Signorielli, 1988-01-13 Originally a Unesco project this annotated bibliography results from more than 4 600 requests to media scholars and researchers for research reports publications and other information relating to violence and terrorism Although there is an international cast to the materials most are from the U S Even though violence and terrorism permeate our myths and legends there is increasing concern with their effect on viewers This bibliography is particularly timely with entries through spring 1987 The sections of the work mass media content mass media effects pornography and the media terrorism and the media give a better idea of the work's scope than does the title Choice The annotations are clearly written succinctly descriptive of the original work's research with test groups and evaluative of research results

Responding To the Screen Jennings Bryant,Dolf Zillmann,2013-11-05 This volume takes the next step in the evolution of mass communication research tradition from effects to processes a more detailed and microanalytical analysis of the psychological processes involved in receiving and reacting to electronic media messages This domain includes investigations into those psychological processes that occur between the process of selecting media messages for consumption and assessments of whatever processes mediate the long term impact such message consumption may have on consumers subsequent behavior The editors strive to further understanding of some of the basic processes underlying the ways we gain entertainment and information

Media Research Methods Barrie Gunter,1999-12-29 In this book Barrie Gunter provides a broad overview of the methodological perspectives adopted

by media researchers in their attempt to derive a better understanding of the nature role and impact of media in society By tracing the epistemological and theoretical roots of the major methodological perspectives Gunter identifies the various schools of social scientific research that have determined the major perspectives in the area Drawing a distinction between quantitative and qualitative methods he discusses the relative advantages and disadvantages of each approach and examines recent trends that signal a convergence of approaches and their associated forms of research The unique strength of this book is that it discusses the theoretical underpinnings of media research methodologies and thereby presents a deeper discussion of methodologies than simply whether or not they offer techniques that generate reliable data

The Case for Television Violence Jib Fowles, 1999-09-20 The Case for Television Violence is a dense dry and devastating dissection that surely counts as one of the most important books about American culture to appear in the last decade Andrew O Hehir The Myth of Media Violence Salon com 3 17 05 The Case for Television Violence makes the provocative argument that television violence has been misinterpreted Rather than undermining the social order television supports it by providing a safe outlet for aggressive impulses Media scholar Jib Fowles challenges the conventional wisdom by 1 demonstrating that the scientific literature does not say what many believe it says 2 calling attention to the viewing habits and behaviors of the reader and those the reader knows 3 explaining that the anti violence critique is most profitably understood as the signature issue in the conflict between high and popular culture and 4 situating the arrival of televised violence within the historical context of the disallowance of traditionally sanctioned targets of aggression The Case for Television Violence will intrigue scholars and students of Media Studies Cultural Studies Politics and Mass Communication
