Massimiliano Sassoli de Bianchi, 2010-08-15 Once when I was still a child my father asked me Which weighs more 1 kilo of iron or 1 kilo of feathers I remember that sure of myself I answered him quickly Surely 1 kilo of iron weighs more dad because metal things like the armor of medieval knights are very heavy while the feathers that decorate birds wings are very light I can t tell you how disappointed I was when I heard him say No my son that s wrong they weigh the same because 1 kilo is always 1 kilo Maybe because of the evening trick questions from my dad when I grew up I decided to become a physicist and to my big surprise I discovered that I was right when I was a child Indeed On the Earth even if only by a little 1 kilo of iron weighs more than 1 kilo of feathers Don t worry the sawdust that I have in my head has not caught on fire But I hope that I have made you curious and that now you will want to come hunting with me for this strange and heavy mistake Weigh Yourself Slim M Holmes, 2015-07-10 Are you truly fed up with being overweight and struggling with fad yo yo diets Are you ready to lose weight forever and invest more than ten days into
