*The LNER Handbook* David Wragg, 2017-07-03 Renowned for its express locomotive Mallard setting a world speed record 126mph for steam locomotives that endures to this day the London North Eastern Railway was the second largest of the Big Four railway companies to emerge from the 1923 grouping and also the most diverse with its prestigious high speed trains from King s Cross balanced by an intensive suburban and commuter service from Liverpool Street and a high dependence on freight Noted for its cautious board and thrifty management the LNER gained a reputation for being poor but honest Forming part of a series along with *The GWR Handbook* *The LMS Handbook* and *The Southern Railway Handbook* this new edition provides an authoritative and highly detailed reference of information about the LNER *Clyde Steamers and Loch Lomond Fleets in and After 1936* Peter Milne (writer on steamers.), 1957 *Railway and Other Steamers* Christian Leslie Dyce Duckworth, Graham Easton Langmuir, 1968 **Edinburgh Waverley Station Through Time** Michael Meighan, 2014-07-15 This fascinating selection of photographs traces some of the many ways in which Edinburgh Waverley station has changed and developed over the last century *The Coming of the Comet* Nick Robins, 2012-10-10 In August 1812 Henry Bell s Comet a revolutionary paddle steamer made her first journey on the Clyde This marked the start of extraordinary developments that completely transformed shipping and transport in Britain Europe and the Americas The paddle steamer soon became the key link with Empire pushing the Honourable East India Company s wooden walls off the seas it provided the all important link with the Americas and it offered emigrants to the New World a means of pushing westwards In this fascinating new book Nick Robins analyses the remarkable impact of the paddle steamer and goes on to describe its development both in terms of technology design and in relation to its effects on the transformation of nineteenth century economies He includes all Henry Bells disciples the Burns brothers Laird Napier Fulton Syminton Cunard and Denny to name a few and looks at their individual contributions The impact of the paddle steamer on transport is difficult to overstate It helped with the export of cotton from the American southern states and with the transport of oil from Burma s oil fields The great stern wheelers of the Mississippi are legendary but they also migrated to the Murray and Darling rivers in Australia and to the Congo and Nile rivers in Africa and the great rivers of Russia This wonderful story of nineteenth century ingenuity will appeal to shipping enthusiasts and those with a wider interest in industrial history **Clyde River and Other Steamers** Christian Leslie Dyce Duckworth, Graham Easton Langmuir, 1937 **Syren and Shipping Illustrated** , 1927 *The Railway Magazine* , 1928 **Who Pays the Ferryman?** Roy Pedersen, 2013-09-01 Who Pays the Ferryman is an informative and critical analysis of Scotland s ferry services It describes the glory days of how from modest beginnings Scotland once led the world in maritime development It contrasts the achievements of the past with the failures waste and inadequacy of much of today s state owned ferry provision In addition to showing how a more equitable fares regime can be devised Roy Pedersen also addresses sensitive issues such as CO2 and other emissions state versus private ownership the

place of trade unions and most importantly of all how the lot of our island and peninsular communities can be bettered through provision of efficient cost effective ferry services Drawing on best practice at home and overseas it sets out how Scottish ferry services can be revolutionised to be once again among the best in the world Ships Monthly ,2002 **Sea Breezes** ,2001 **Shipbuilding and Shipping Record** ,1929 Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons,1947 Shipbuilding & Shipping Record ,1926 *Steaming to Victory* Michael Williams,2013-05-16 In the seven decades since the darkest moments of the Second World War it seems every tenebrous corner of the conflict has been laid bare prodded and examined from every perspective of military and social history But there is a story that has hitherto been largely overlooked It is a tale of quiet heroism a story of ordinary people who fought with enormous self sacrifice not with tanks and guns but with elbow grease and determination It is the story of the British railways and above all the extraordinary men and women who kept them running from 1939 to 1945 Churchill himself certainly did not underestimate their importance to the wartime story when in 1943 he praised the unwavering courage and constant resourcefulness of railwaymen of all ranks in contributing so largely towards the final victory And what a story it is The railway system during the Second World War was the lifeline of the nation replacing vulnerable road transport and merchant shipping The railways mobilised troops transported munitions evacuated children from cities and kept vital food supplies moving where other forms of transport failed Railwaymen and women performed outstanding acts of heroism Nearly 400 workers were killed at their posts and another 2 400 injured in the line of duty Another 3 500 railwaymen and women died in action The trains themselves played just as vital a role The famous Flying Scotsman train delivered its passengers to safety after being pounded by German bombers and strafed with gunfire from the air There were astonishing feats of engineering restoring tracks within hours and bridges and viaducts within days Trains transported millions to and from work each day and sheltered them on underground platforms at night a refuge from the bombs above Without the railways there would have been no Dunkirk evacuation and no D Day Michael Williams author of the celebrated book *On the Slow Train* has written an important and timely book using original research and over a hundred new personal interviews This is their story *Transport Salaried Staff Journal* ,1924 Glasgow: A Transport History Michael Meighan,2024-04-15 A portrait of Glasgow s public transport history from the nineteenth century through to the present day The Railway Gazette ,1949-04 **Scottish Locomotive History** Campbell Highet,2021-10-12 Originally published in 1970 this volume is a valuable source of extensive data concerning Scotland s railways and locomotives Material that has appeared in books technical journals society and institutional proceedings is here gathered together enabling the reader to easily trace details of design and construction on the five main railways of Scotland from 1831 until 1923 when all the railways in Britain came together under English control As well as being of interest to engineers this volume will also appeal to railway and social historians *Ottley's Bibliography of British Railway History.
