Steamships Statesmen And Bureaucrats:

Steamships, Statesmen, and Bureaucrats Ronald E. Coons, 1975 **The ^AGreat Sea** David Abulafia, 2011-06-01 The Mediterranean Sea has been a crucial site of cross cultural exchange since the beginning of human history This book is certain to become the definitive work on the Mediterranean Sea for generations **The Decline of the Congress System** Miroslav Šedivý, 2018-07-30 Following the Congress of Vienna in 1815 the Congress System became the primary instrument of diplomacy in Europe So central was the Austrian Chancellor Metternich to the political legal Congress System that the period has often been referred to as the Age of Metternich In this book Miroslav Šedivý analyses Metternich's policy towards the pre united Italian states from 1830 to 1848 With an emphasis on geopolitics and international law and drawing attention to the unsettled role of the Italian states within European diplomacy in the period this book explains why the Italian peninsula never developed into the stable region that Metternich hoped to establish at the heart of the Congress System Owing to the self interested policies of some European Powers as well as the larger of the Italian states Metternich proved unable to bring about the transformation of European politics in Italy Using a thorough analysis of the role that Italy played in the Congress System and based on extensive research in 18 European archives this book explains why it was in Italy that the first war broke out after the end of the Napoleonic Wars an event representing the first brutal blow to the Congress System **International Trade and Diplomacy at the Lower Danube: The Sulina Question and the Economic Premises of the Crimean War (1829-1853)** Constantin Ardeleanu, 2014 **Maritime History as Global History** Maria Fusaro, Amélia Polónia, 2017-10-18 This study aims to provide new insights into the connections between maritime history and global history It demonstrates the significance of maritime activity as a conduit of global exchange by examining local national and international interdependencies and trade networks and a broad range of time periods geographical areas and various sub divisions of maritime historical research It is composed of ten essays with an introductory chapter and concluding chapter The first five essays discuss the effects of globalisation on shipping in the early modern period the following three discuss maritime transportation and the economics of industrialisation from the nineteenth century to the present day the next discusses the impact of global entrepreneurialism on maritime history the penultimate discusses the connections and variables between maritime and global history and the concluding chapter examines the theoretical assumptions surrounding the two disciplines using the globalisation of Early Modern Spain as a case study to do so The study demonstrates that the core strength of maritime history is its essential place in global history and that the process of globalisation began at sea **The Transformation of European Politics, 1763-1848** Paul W. Schroeder, 1994 This is the only modern study of European international politics to cover the entire timespan from the end of the Seven Years War in 1763 to the revolutionary year of 1848 Presbyterians and the Irish Language Roger Blaney, 1996 This book is the first to establish the rightful place of the Irish language in the Presbyterian heritage in Ireland It traces the Presbyterian Irish

speaking tradition from its early roots in Gaelic Scotland through the Plantation and Williamite War periods to its successive revivals in the later decades of each of the 18th 19th and most recently 20th centuries There are detailed biographies of influential Irish speaking Presbyterians clerical and lay whose love of the language helped to ensure its survival The author contends that the origins of the Gaelic League are as likely to be found in Presbyterian Belfast as in Catholic Dublin At a time when the Irish Language was losing ground to a combination of demographic political and educational forces it was Presbyterians who were to the fore in saving valuable manuscripts in teaching through the language and in publishing works in Irish for example the first Irish language magazine was produced in Belfast The result is an absorbing account of an integral but little known strand in the fabric of Presbyterianism It will add significantly to the mutual understanding between the main traditions on our island and will provide new evidence for the view that we share more than divides us **Jews**

and the Mediterranean Matthias B. Lehmann, Jessica M. Marglin, 2020-06-02 A selection of essays examining the significance of what Jewish history and Mediterranean studies contribute to our knowledge of the other Jews and the Mediterranean considers the historical potency and uniqueness of what happens when Sephardi Mizrahi and Ashkenazi Jews meet in the Mediterranean region By focusing on the specificity of the Jewish experience the essays gathered in this volume emphasize human agency and culture over the length of Mediterranean history This collection draws attention to what made Jewish people distinctive and warns against facile notions of Mediterranean connectivity diversity fluidity and hybridity presenting a new assessment of the Jewish experience in the Mediterranean **Crisis Among the Great Powers** Miroslav Šedivý, 2016-11-30 In 1840 conflict within the Ottoman Empire gave rise to a serious all European crisis which led to a diplomatic rupture between France and other Great Powers The crisis was given the name of the natural frontier which divided France from the rest of Europe the Rhine Although the Rhine Crisis did not lead to armed conflict many states were deeply worried by the unfolding events and by the failure of the peace so carefully negotiated at the end of the Napoleonic Wars Combined with accumulated political social national and economic problems there were fears of general social upheaval and perhaps even revolution This book uses the Rhine Crisis to evaluate the stability of the European States System and the functionality of the Concert of Europe in this period In doing so Miroslav Šedivý offers an original and deeply researched insight into the history of international relations in the pivotal years between 1815 and 1848 **Essays in**

White, 1996 These essays explore various topics in European history ranging from a study of the medieval Abbey of Bury St Edmunds to an essay on the issue of the restoration of the Kaiser prior to Hitler's assumption of power Enno Kraeh contributes a personal narrative of philosophical journey through the study of history Three of the essays address literary and cultural themes dealing with German theatre politics belle époque opera and Polish drama The volume has strong representation on Austrian history including essays on diplomacy the Anschluss and Austrian anti-Semitism **Russia and Eastern Europe, 1789-1985** Raymond Pearson, 1989 *Mediterranean Seafarers*
