within a sociocultural context of literacy practices Drawing on research that reveals connections between literacy as it is practiced outside of school and as it is taught in school the authors argue that students learn to read and write through the knowledge and skills that they bring with them to the classroom as well as from the ways that literacy is practiced in their own different social communities The authors argue that until literacy development can be understood in this broader way educators will never be able to develop truly effective literacy instruction for the broad range of sociocultural communities served by schools Education Unlimited ,1980 **School and Community** ,1978 Children's Books in Print R R Bowker Publishing,Bowker,1999-12
