Steinbeck's Uneasy America Barbara A. Heavilin, Susan Shillinglaw, 2024 The first scholarly assessment of Steinbeck's bestselling travelogue *Travels with Charley* published in 1962, a narrative that blurs the lines between nonfiction and fiction. *Steinbeck's Uneasy America* is the first collection of critical scholarship devoted to *Travels with Charley* in *Search of America*. John Steinbeck's best-selling late career travel memoir. In 1960 Steinbeck was a renowned man of American letters. Many considered him America's troubadour of ordinary people, the conscience of the country. But weakened by two small strokes and anxious that he had lost touch with America, he embarked on a cross-country road trip accompanied by his wife's standard poodle, Charley. Two years later he published *Travels with Charley* to popular acclaim and robust sales. Throughout this narrative, Steinbeck insists that all of our perceptions are warped by personality, history, and society. And while this hybrid and experimental book has long been accepted as an accurate account of his journey, journalists and scholars agree that the narrative is part factual, part fiction: America as seen through Steinbeck's particular warp. The work is long overdue for scholarly assessment. *Steinbeck's Uneasy America* explores three main topics. Part 1 explores genre and form to consider the degree to which the work is fiction or nonfiction. Part 2 assesses Steinbeck's increasingly bleak assessment of America, almost a jeremiad that warns citizens of ecological excess and political apathy. Part 3 focuses on *Travels with Charley* as a road text, travel adventure, and literary influence. This volume's authors offer rich scholarly insights and a wealth of stories, facts, and anecdotes about Steinbeck and the adventures and misadventures he and Charley met on the road. Lively and groundbreaking, the collection both enlightens and enlivens discussions of Steinbeck and of the twentieth-century American book world.

Ecospatiality Lowell Wyse, 2021-07-15 John Steinbeck's Salinas Valley. Richard Wright's Chicago. Leslie Marmon Silko's New Mexico. Readers often have strong connections with literary places like these. And some works of literature can even change our understanding of the world we live in. But can place also change our view of literature? Site Reading advances a place-based approach to literature reading, classic texts through the twin lenses of geographical awareness and environmental thought. This book highlights recent

developments in ecocriticism and geocriticism to argue for a theory of ecospatiality with nature space and story as the three elements of place Site Reading reconsiders well known works of twentieth century American prose and shows how social and environmental issues always overlap Travel writer William Least Heat Moon whose work embodies the ecospatial perspective portrays his experiences with place on the local regional and continental scales Classic novels by Silko Willa Cather and Ana Castillo usually discussed in isolation converge in a way that maps diverse cultural perspectives and environmental threats onto the shared geography of Central New Mexico A reading of Steinbeck s Salinas Valley Watershed texts investigates the impacts of literary tourism in Steinbeck Country before drilling down into Steinbeck s portrayals of spatial development and environmental history And an innovative analysis of Native Son shows how Richard Wright uses cartographic details to decry the spatial racial politics of South Side Chicago in the 1930s In this book Lowell Wyse shows how place provides the grounds for both human experience and critical practice By bringing together concepts like literary cartography deep mapping and bioregionalism in an ecospatial approach Site Reading not only maps new terrain between ecocriticism and geocriticism but also shows why place matters in the world and in the text Famine Pots LeAnne Howe,Padraig Kirwan,2020-10-01
