## Stendhal Study Of His Novels:

Stendhal Frederick William John Hemmings,1966      Stendhal, a Study of His Novels Frederick William John Hemmings,1964      **Stendhal** F. W. J. Hemmings,1946      **Stendhal** Frederick William John Hemmings,1966      **Stendhal** Frederick William John Hemmings,1964      Stendhal Roger Pearson,2014-09-11 Both critic and writer Stendhal has now become established as one of realism s founding fathers Dr Pearson s book maps out for the first time the critical reception of Stendhal s two most widely read novels *The Red and the Black* and *The Charterhouse of Parma* since their publication in 1830 and 1839 respectively In part one he provides generous samples of the most important nineteenth century responses to the novels almost all of them translated into English for the first time Part two presents a full range of the most authoritative and influential readings since 1945 which illustrate a wide variety of critical approaches      **The Facts on File Companion to the French Novel** Karen L. Taylor,2006 French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization      *The Biography Book* Daniel S. Burt,2001-02-28 From Marilyn to Mussolini people captivate people A E s Biography best selling autobiographies and biographical novels testify to the popularity of the genre But where does one begin Collected here are descriptions and evaluations of over 10 000 biographical works including books of fact and fiction biographies for young readers and documentaries and movies all based on the lives of over 500 historical figures from scientists and writers to political and military leaders to artists and musicians Each entry includes a brief profile autobiographical and primary sources and recommended works Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title helping readers to find the best biographical material available on hundreds of fascinating individuals      *Stendhal* Francesco Manzini,2019-10-15 This is a book about the life and work of a singular writer an author well known for his biographies and travel writing but most famous for his novels *The Red and the Black* and *The Charterhouse of Parma* As a child Stendhal witnessed the unfolding of the French Revolution as a young man he served Napoleon first as a soldier and then as an administrator and as a middle aged man he made it his task not to pursue his career but instead to take as much paid leave as possible in order to be free and to be happy and to write Stendhal s works often take the form of conversations with his readers the Happy Few as he called them about the things that matter most He once claimed that he spent the majority of his life carefully considering five or six main ideas This book makes clear what those main ideas were why they mattered to Stendhal and why they continue to matter to all of us      Encyclopedia of the Novel Paul Schellinger,2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an

entry on an individual novel discusses the importance of that novel not only form analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world

*Scarlet and Black* Stendhal, 1953 The son of a carpenter Julian Sorel is inspired by the writings of Napoleon to conquer the heights of society His initial plan to work his way up through the church is however thwarted when he is forced to accept employment as a tutor and this rash social entrepreneur certainly has not considered the dangers of falling in love Stendhal's novel is an amusing and piquant study of hypocrisy and free will in post Napoleonic France

**Stendhal's Parallel Lives** Francesco Manzini, 2004 This book deals with the important and hitherto neglected relationship between the works of Stendhal and Plutarch's Parallel Lives Stendhal's readings of Plutarch are shown to inform his literary representations of Revolution and Empire Restoration and Orleanism as well as his theorizations of Romanticism In particular the Plutarchan concept of Parallel Lives is used to analyse one of the major themes of Stendhal's writing the self construction of individual identity whether auto biographical or fictional by means of the emulation as distinct from the imitation of heroic exemplars As a consequence the balance between irony and idealism often identified by critics in Stendhal's work is shown rather to be an imbalance weighted in favour of an idealism derived from Plutarchan conceptions of heroism particularly as they are represented in the Lives of Julius Caesar and Marcus Brutus

**The Rise of the French Novel** Martin Turnell, 1978 Martin Turnell's The Rise of the French Novel is a successor to his highly praised earlier books The Novel in France 1951 and The Art of French Fiction 1959 His aim now however is somewhat different as can be seen from the title It is well known that the reputations of many writers novelists especially diminish for a period following their deaths Although in the eighteenth century Marivaux Crillon fils and Rousseau all enjoyed a great deal of popularity during their lifetimes it is only recently that they have been subject to truly searching studies Yet they remain little read in English speaking countries Turnell emphasizes that in spite of the hostility of French critics and the fact that the novel did not reach its supremacy even in France until the nineteenth century the beginning of its great rise was indeed with such writers as these Their strong influence led such nineteenth century novelists as Stendhal and Flaubert to all kinds of changes related to style the enormous increase in the range of subject matter and the marked development of language Flaubert is the most striking example It was pointed out some time ago by Eisenstein that Madame Bovary anticipates cinematic technique One of Turnell's most interesting chapters explores the connections between the novel and film in general and Madame Bovary in particular In our own time two of the most popular French novelists in both the United States and England are Alain Fournier and Radiguet They are given enthusiastic appreciations in Turnell's thoughtful book

*Novel Configurations* Allan H. Pasco, 1994 During a period when the field of literary studies turned away from texts to theory Novel Configurations A Study of French Fiction has

become an underground classic Although it proposes a theory that theory is inductive and solidly based in real works of fiction While looking again at significant masterpieces that range from the early nineteenth to the late twentieth centuries from the creations of traditional french writers to that of an Argentine who spent most of his productive life in France Allan H Pasco has perceptively indicted new but valid close readings that have revolutionized our view of these works He suggests that La Chartreuse de Parme is rigorously organized that Balzac was a narrational minimalists that Huysmans developed novelistic strategies that would be played out in the Nouvea Roman that Proust intended good readers to come away from A la recherche du temps perdu with very different but complementary interpretations that Robbe Grillet s La Jalousie turns on a plot that seems strange only because it takes place in the mind of the narrator From these philololgically sophisticated interpretations Pasco lucidly elegantly and wittily points to categories that include all fiction Concentrating on patterns and description on the one hand and external and internal organization on the other Novel configurations proposes a new classification that can be easily taught to novices though it will help even professional readers understand the most complex fictional innovations

Stendhal's Less-Loved Heroines Maria C. Scott,2017-12-02 Stendhal s most independent heroines are usually disliked or marginalized by critics However when gender neutral criteria are applied Mina de Vanghel Vanina Vanini Mathilde de La Mole and Lamiel can all be shown to enact extraordinary experiments in freedom These experiments are all the more remarkable in view of the gender of their agents the historical situation of the author 1783 1842 and the conventions of the literary movement that his fiction helped to found realism Simone de Beauvoir s 1949 study of Stendhal s heroines gives preference to the reserved females over his Amazons But existentialism as a philosophy of freedom also enables a reading of the self determining heroines that acknowledges the superiority of their choices their resistance and counter plots their paradoxical authenticity their rejection of seriousness and their assumption of responsibility for the routes they plot

Makers of Nineteenth Century Culture Justin Wintle Esq,Justin Wintle,2021-12-24 This volume provides a critical examination of the lives and works of the leading novelists poets dramatists artists philosophers social thinkers mathematicians and scientists of the period The subjects are assessed in the light of their cultural importance and each entry is deliberately interpretative making this work both an essential reference tool and an engaging collection of essays Figures covered include Marx Wagner Darwin Malthus Balzac Jane Austen Nietzsche Babbage Edgar Allan Poe Ruskin Schleiermacher Herbert Spencer Harriet Martineau and Oscar Wilde

*Empathy and the Strangeness of Fiction* Maria C. Scott,2020-03-02 Explores how and why narrative fiction engages empathy including Theory of MindOffers a broad overview of current scientific work on the effects of fiction reading on empathy including Theory of MindProvides an original intervention in the field of literary theory centring on the reflexive properties of the fictional strangerIncludes stand alone close readings of three novels by important French authorsThis book studies recent psychological findings which suggest that reading fiction cultivates empathy encouraging us to be critically reflective suspicious readers as well as participatory

nave readers Scott draws on literary theory and close readings to argue that engagement with fictional stories also teaches us to resist uncritical forms of empathy and reminds us of the limitations of our ability to understand other people The book treats figures of the stranger in Balzac's *La Fille aux yeux d'or* Stendhal's *Le Rouge et le Noir* and Sand's *Indiana* as emblematic of the strangeness of narrative fiction both drawing us in and keeping us at a distance *The Year's Work in Modern Language Studies by a Number of Scholars*, **Novel Stages** Pratima Prasad, Susan McCready, 2007 The essays in *Novel Stages* examine the myriad intersections between drama and the novel in nineteenth century France a period when the two genres were in constant engagement with one another The collection is unified by common intellectual concerns the inscription of theatrical esthetics within the novel the common practice among nineteenth century novelists of adapting their works for the stage and the novel's engagement with popular forms of theater The essays provide insight into a specific aspect of the relationship between the theater and the novel in the nineteenth century Their distinct perspectives form an overview of the literary landscape of nineteenth century France and demonstrate many ways in which all major nineteenth century French novelists including Hugo Flaubert Sand and Zola participated in the theatrical culture of their century

*The Imposition of Form* Claudia J. Brodsky, 2014-07-14 Claudia Brodsky skillfully combines close readings of narrative works by Goethe Austen Balzac Stendhal Melville and Proust with a detailed analysis of the relation between Kant's critical epistemology and narrative theory Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
