Stendhal's Less-Loved Heroines Maria C. Scott,2017-12-02 Stendhal s most independent heroines are usually disliked or marginalized by critics However when gender neutral criteria are applied Mina de Vanghel Vanina Vanini Mathilde de La Mole and Lamiel can all be shown to enact extraordinary experiments in freedom These experiments are all the more remarkable in view of the gender of their agents the historical situation of the author 1783 1842 and the conventions of the literary movement that his fiction helped to found realism Simone de Beauvoir s 1949 study of Stendhal s heroines gives preference to the reserved females over his Amazons But existentialism as a philosophy of freedom also enables a reading of the self determining heroines that acknowledges the superiority of their choices their resistance and

**The Charterhouse of Parma** Stendhal, 1999-09-09 The Charterhouse of Parma 1839 is a compelling novel of passion and daring of prisons and heroic escape of political chicanery and sublime personal courage Set at the beginning of the nineteenth century amidst the golden landscapes of northern Italy it traces the joyous but ill starred amorous exploits of a handsome young aristocrat called Fabrice del Dongo and of his incomparable aunt Gina her suitor Prime Minister Mosca and Clélia a heroine of ethereal beauty and earthly passion These characters are rendered unforgettable by Stendhal's remarkable gift for psychological insight Never before have the hearts of princes ministers courtiers and women been depicted like this wrote Honor de Balzac Stendhal's tableau has the dimensions of a fresco but the precision of the Dutch masters The great achievement of *The Charterhouse of Parma* is to conjure up the excitement and romance of youth while never losing sight of the harsh realities which beset the pursuit of happiness nor the humour and patient irony with which these must be viewed This new translation captures Stendhal's narrative verve while the Introduction explores the novel's reception and the reasons for its enduring popularity and power

**Novel Configurations** Allan H. Pasco, 1994 During a period when the field of literary studies turned away from texts to theory *Novel Configurations A Study of French Fiction* has become an underground classic Although it proposes a theory that theory is inductive and solidly based in real works of fiction While looking again at significant masterpieces that range from the early nineteenth to the late twentieth centuries from the creations of traditional french writers to that of an Argentine who spent most of his productive life in France Allan H Pasco has perceptively indicted new but valid close readings that have revolutionized our view of these works He suggests that *La Chartreuse de Parme* is rigorously organized that Balzac was a narrational minimalists that Huysmans developed novelistic strategies that would be played out in the *Nouvea Roman* that Proust intended good readers to come away from *A la recherche du temps perdu* with very different but complementary interpretations that Robbe Grillet's *La Jalousie* turns on a plot that seems strange only because it takes place in the mind of the narrator From these philologically sophisticated interpretations Pasco lucidly elegantly and wittily points to categories that include all fiction Concentrating on patterns and description on the one hand and external and internal organization on the other *Novel configurations* proposes a new classification that can be easily taught to novices though it will help even professional readers understand the most complex fictional innovations
