Step Across This Line Salman Rushdie, 2010-11-05 From one of the great novelists of our day a vital brilliant new book of essays speeches and articles essential for our times **Step Across This Line** showcases the other side of one of fiction's most astonishing conjurors On display is Salman Rushdie's incisive thoughtful and generous mind in prose that is as entertaining as it is topical The world is here captured in pieces on a dazzling array of subjects from New York's Amadou Diallo case to the Wizard of Oz from U2 to fifty years of Indian writing from a tribute to Angela Carter to the struggle to film *Midnight's Children* The title essay was originally delivered at Yale as the 2002 Tanner lecture on human values and examines the changing meaning of frontiers in the modern world moral and metaphorical frontiers as well as physical ones The collection chronicles Rushdie's intellectual journeys but it is also an intimate invitation into his life he explores his relationship to India through a moving diary of his first visit there in over a decade *A Dream of Glorious Return* **Step Across This Line** also includes *Messages From the Plague Years* a historic set of letters articles and reflections on life under the fatwa Gathered together for the first time this is Rushdie's humane intelligent and angry response to a grotesque threat aimed not just at him but at free expression itself **Step Across This Line** Salman Rushdie's first collection of non-fiction in a decade has the same energy imagination and erudition as his astounding novels along with some very strong opinions **Step Across this Line**

Salman Rushdie, 2002 The subjects of Salman Rushdie's new collection of non-fiction range from *The Wizard of Oz* U2 India and Indian writing the death of Princess Diana and football to twentieth century writers including Angela Carter Arthur Miller Edward Said J M Coetzee and Arundhati Roy In a central section *Messages from the Plague Years* Rushdie focuses on the fight against the Iranian fatwa presenting texts both personal and political which show for the first time how it was to live through those days Rushdie's columns for the *New York Times* confront current issues Kashmir Northern Ireland Kosovo Islam and the West as well as lighter topics such as reality TV sport and sleaze The book ends with the lectures that give it its tide Rushdie's exploration of the theme of frontiers crossing them breaking taboos and in the light of September 11 the world of permeable frontiers in which we all live **Theatre of the Borderlands** Iani del Rosario Moreno, 2015-05-27 **Theatre of the Borderlands** *Conflict Violence and Healing* is an enlightening and encompassing study that focuses on how dramatists from the Northern Mexico border territories write about theater The plays analyzed in this study are representative of the most important Northern Border playwrights whose plays themes present the US Mexico Borderlands in a socio historical and political context The most important themes observed include topics that engage in discussions of the indigenous Border crossings heroes and folk saints the city of Tijuana and violence in the Borderlands to name a few These themes have led to the birth of the Teatro del Norte movement a group of determined playwrights insistent on presenting dramaturgical themes that show the bond between their particular geographies histories socio political and economic situations thereby giving birth to an original voice and new aesthetic of representation Dealing with the topics already mentioned and pairing them

with more timely ones like immigration reform namely this study can serve as an invaluable resource to many interdisciplinary academic settings and can grant an eye opening insight to Border relations through several critical readings

Cosmopolitical Claims B. Venkat Mani, 2007-04 When both France and Holland rejected the proposed constitution for the European Union in 2005 the votes reflected popular anxieties about the entry of Turkey into the European Union as much as they did ambivalence over ceding national sovereignty Indeed the votes in France and Holland echoed long standing tensions between Europe and Turkey If there was any question that tensions were high the explosive reaction of Europe s Muslim population to a series of cartoons of Mohammed in a Danish newspaper put them to rest Cosmopolitical Claims is a profoundly original study of the works of Sten Nadolny Emine Sevgi Zdamar Feridun Zaimoglu and 2006 Nobel prize in literature recipient Orhan Pamuk Rather than using the proverbial hyphen in Turkish German to indicate a culture caught between two nations Venkat Mani is interested in how Turkish German literature engages in a scrutiny of German and Turkish national identity Moving deftly from the theoretical literature to the texts themselves Mani s groundbreaking study explores these conflicts and dialogues and the resulting cultural hybridization as they are expressed in four novels that document the complexity of Turkish German cultural interactions in the late twentieth and early twenty first centuries His innovative readings will engage students of contemporary German literature as well as illuminate the discussion of minority literature in a multicultural setting As Salman Rushdie said in the 2002 Tanner Lecture at Yale The frontier is an elusive line visible and invisible physical and metaphorical amoral and moral To cross a frontier is to be transformed It is in this vein that Mani s dynamic and subtle work posits a still evolving discourse between Turkish and German writers

Transformative Fictions Daniel Just, 2022-07-27 Transformative Fictions World Literature and Personal Change engages with current debates in world literature over the past twenty years addressing the nature of literary influence in centers and peripheries the formation of transnational literary and pedagogical canons and the role of translation and regionalism in how we relate to texts from around the globe The author Daniel Just argues for a supranational but sub global perspective of regions that emphasizes practical reasons for reading and focuses on the potential of literary texts to stimulate personal transformation in readers One of the recurring dilemmas in these debates is the issue of delimitation of world literature The trouble with the world as a frame of reference is that no single researcher is bound to have the in depth knowledge and linguistic skills to discuss works from all countries In response this book revives literary theory and recasts it for the purposes of world literature by making a case for the continuing relevance of literature in the age of new media With the examples of fictional and nonfictional writings by Milan Kundera Witold Gombrowicz and Bohumil Hrabal Just shows that regional literatures offer differing methods of activating readers and thereby prompting personal change This book would be of general interest to anyone who wants to explore personal change through literature but is particularly indispensable for literary professionals researchers and postgraduate and graduate students

Hammond,2008-07-10 This volume focuses on the publisher s series as a cultural formation a material artifact and component of cultural hierarchies Contributors engage with archival research cultural theory literary and bibliometric analysis amongst a range of other approaches to contextualize the publisher s series in terms of its cultural and economic work **Postcolonial Readings of Music in World Literature** Cameron Fae Bushnell,2013

This book reads representations of Western music in literary texts to reveal the ways in which artifacts of imperial culture function within contemporary world literature Bushnell argues that Western music s conventions for performance composition and listening established during the colonial period persist in postcolonial thought and practice Music from the Baroque Classical and Romantic periods Bach through Brahms coincides with the rise of colonialism and Western music contains imperial attitudes and values embedded within its conventions standards and rules The book focuses on the culture of classical music as reflected in the worlds of characters and texts and contends that its effects outlast the historical significance of the real composers pieces styles and forms Through examples by authors such as McEwan Vikram Seth

Bernard MacLaver, Chang-rae Lee and J M Coetzee the book demonstrates how Western music enters narrative as both acts of history and as structures of analogy that suggest subject positions human relations and political activity that in turn describes a postcolonial condition The uses to which Western music is put in each literary text reveals how European art music of the seventeenth through the nineteenth centuries is read and misread by postcolonial generations exposing mostly hidden cultural structures that influence our contemporary understandings of social relations and hierarchies norms for resolution and for assigning significance and standards of propriety The book presents strategies for thinking anew about the persistence of cultural imperialism reading Western music simultaneously as representative of imperial cultural dominance and as suggestive of resistant structures forms and practices that challenge the imperial hegemony Digital Literary Creative Practice David Thomas Henry Wright, 2025-05-30 In 1985 Italo Calvino proposed six values he deemed crucial to literature as it moved into the next millennium lightness quickness crystal exactitude visibility multiplicity and consistency Using Italo Calvino's Six Memos for the Next Millennium as structure and methodology this book conjoins literary studies with creative practice to interrogate extend subvert and then reflect on the aesthetic and structural ambitions of multiple innovative print authors Italo Calvino Zadie Smith William Faulkner Virginia Woolf Bernardine Evaristo Roberto Bolaño Rachel Cusk Shahriar Mandanipour W G Sebald Ross Gibson Han Kang and J M Coetzee reimaged in new media in order to develop a model for digital literary practice led research This work contains four strands that are presented simultaneously First this monograph explores the rise of Calvino's values within the Calvino corpus Second this value's application to a contemporary literary predicament is explored through a digression Third conclusions from this interrogation are drawn as they relate to digital literary culture Finally the value's importance is demonstrated through examining reflecting on contemporary digital literary creative practice both the author's own and works created by contemporary writers artists who have engaged with the digital postmodern Reading the Margins Michael J Gilmour, 2024-09-24 The Bible and theology are contested spaces battlegrounds where participants guard entrenched beliefs against perceived threats But literature observes novelist Salman Rushdie opens the universe It expands what we perceive and understand and ultimately what we are Writers make our world feel larger and more inclusive When other forces push in the direction of narrowness bigotry tribalism cultism and war fiction encourages understanding sympathy and identification with others Reading the Margins invites readers to immerse themselves in imaginary worlds and to pursue visions of justice and compassion Whether stories about poverty empire war or the environment the writers considered raise moral questions and often in the process even unwittingly deepen our understanding of biblical calls for kindness and mercy Reading the Margins offers a kind of commentary on biblical ethics Using Matthew's Beatitudes and sheep and goats parable as an organizing principle Gilmour argues there is much to learn about Jesus's peacemakers and call to feed the hungry from aspirational fiction and poetry

The Science Fiction Dimensions of Salman Rushdie Yael Maurer, 2014-01-30 This book focuses on the science fictional dimensions of Rushdie's later novels *Fury* *The Ground Beneath Her Feet* *Shalimar the Clown* and *Luka* and the *Fire of Life* and Rushdie's first unpublished novel *The Antagonist* to show how the author's oeuvre moves towards a more consistent engagement with science fiction as a generic form and an ideological investment The author demonstrates how Rushdie recreates personal and national histories in a science fictional setting and mode and contends that the failure of his first novel *Grimus* may have led Rushdie away from SF for some time although he returns to it with a much firmer conviction and a much stronger voice in his later novels showing his commitment to this imaginative form which he describes in *Fury* as providing the best popular vehicle ever devised for the novel of ideas and metaphysics The science fictional mode is the most appropriate vehicle for expressing these thematic and ideological concerns and the organizing feature of Rushdie's oeuvre The author rereads the later novels in light of recent critical engagement with SF as a vehicle for reimagining national histories and as a potentially subversive tool for social and political engagement in a fictional realm
