## **Stephanies Seasons:**

History of the Book in Australia Volume 3 Craig Munro, 2006-07 This new volume in UQP's History of the Book in Australia series explores Australian book production and consumption from 1946 to the present day. In the immediate postwar era most books were imported into a colonial market dominated by British publishers. Paper Empires traces this fascinating and volatile half century using wide ranging research, oral history and memoir to explore the worlds of book publishing, selling and reading. After 1945 Australian publishing went from a handful of fledgling businesses to the billion dollar industry of today with thousands of new titles each year and a vast array of imported books. Publishing's postwar expansion began with the baby boom and the increased demand for school texts with independent houses blossoming during the 1960s and 70s followed by the current era dominated by global conglomerates. All aspects of print culture are explored from authorship and editing to bookselling, libraries and reading habits in the context of today's rapidly changing publishing landscape with its many technological challenges. A wide range of expert contributors including book trade practitioners have produced this lively and indispensable account of our vital cultural industry. *Kitchen Operations* Graham Dark, Deirdre McLean, Sarah Weatherhead, 2015-05-20 Kitchen Operations 2nd edition covers the essential skills, knowledge and key competencies required by students studying Certificate II Hospitality Kitchen Operations. This text is a comprehensive resource addressing the basic methods of cookery and food presentation as well as workplace health, security, hygiene and safety. Plus there is a chapter to address the growing area of food preparation according to dietary and cultural needs.
