**Travel Writing in the Nineteenth Century** Tim Youngs, 2006-09-01 Long popular with a general readership travel writing has in the past three decades or so become firmly established as an object of serious and multi disciplinary academic inquiry Few of the scholarly and popular publications that have focused on the nineteenth century have regarded the century as a whole This broad volume examines the cultural and social aspects of travel writing on Africa Asia America the Balkans and Australasia *Travel Narratives, Travel Fictions* Daniel Cooper Alarcón, 2024-02-02 In *Travel Narratives Travel Fictions* Daniel Cooper Alarcón argues that travel literature performs important social and cultural criticism often overlooked in studies of the genre By examining non fiction and fiction novels and short stories that purposefully examine different types of travel in relationship to each other Cooper Alarcón documents and highlights the sophisticated ways that both types of writing have anticipated and contributed ideas central to critical studies of travel tourism and migration The author uses the term travel fictions to illustrate the ways in which travel narratives supposed factual accounts of travel often misrepresent distort and fabricate notions about the people and places they purport to describe creating useful mythologies and hinting at the ways in which the acts of reading and writing have become an integral part of traveling shaping not just itineraries but perceptions and beliefs about places travelers visit Both types of travel writing are influential in this regard and they frequently borrow from one another mutually reinforcing ideas tropes and modes of representation often in problematic ways

*Guatemalan Journey* Stephen Connely Benz, 2010-05-28 Guatemala draws some half million tourists each year whose brief visits to the ruins of ancient Maya cities and contemporary highland Maya villages may give them only a partial and folkloric understanding of Guatemalan society In this vividly written travel narrative Stephen Connely Benz explores the Guatemala that casual travelers miss using his encounters with ordinary Guatemalans at the mall on the streets at soccer games and even at the funeral of massacre victims to illuminate the social reality of Guatemala today The book opens with an extended section on the capital Guatemala City and then moves out to the more remote parts of the country where the Guatemalan Indians predominate Benz offers us a series of intelligent and sometimes humorous perspectives on Guatemala's political history and the role of the military the country's environmental degradation the influence of foreign missionaries and especially the impact of the United States on Guatemala from governmental programs to fast food franchises **Mexican**

**Travel Writing** Thea Pitman, 2008 This book is a detailed study of salient examples of Mexican travel writing from the nineteenth and twentieth centuries While scholars have often explored the close relationship between European or North American travel writing and the discourse of imperialism little has been written on how postcolonial subjects might relate to the genre This study first traces the development of a travel writing tradition based closely on European imperialist models in mid nineteenth century Mexico It then goes on to analyse how the narrative techniques of postmodernism and the political agenda of postcolonialism might combine to help challenge the genre's imperialist tendencies in late twentieth century works

of travel writing focusing in particular on works by writers Juan Villoro Hector Perea and Fernando Solana Olivares

*Jewish, Christian, and Muslim Travel Experiences* Susanne Luther, Pieter B. Hartog, Clare E. Wilde, 2023-10-04 Travel and pilgrimage have become central research topics in recent years. Some archaeologists and historians have applied globalization theories to ancient intercultural connections. Classicists have rediscovered travel as a literary topic in Greek and Roman writing. Scholars of early Judaism, Christianity, and Islam have been rethinking long familiar pilgrimage practices in new interdisciplinary contexts. This volume contributes to this flourishing field of study in two ways. First, the focus of its contributions is on experiences of travel. Our main question is: How did travelers in the ancient world experience and make sense of their journeys, real or imaginary, and of the places they visited? Second, by treating Jewish, Christian, and Islamic experiences together, this volume develops a longue durée perspective on the ways in which travel experiences across these three traditions resembled each other. By focusing on experiences of travel, we hope to foster interaction between the study of ancient travel in the humanities and that of broader human experience in the social sciences.

**A Brief History of Archaeology** Nadia Durrani, Brian M. Fagan, 2021-12-30 A Brief History of Archaeology details early digs and covers the development of archaeology as a multidisciplinary science, the modernization of meticulous excavation methods during the twentieth century, and the important discoveries that led to new ideas about the evolution of human societies. Spanning more than two thousand years of history, this short account of the discipline of archaeology tells of spectacular discoveries and the colorful lives of the archaeologists who made them, as well as of changing theories and current debates in the field. Early research at Stonehenge in Britain, burial mound excavations, and the exploration of Herculaneum and Pompeii culminate in the nineteenth-century debates over human antiquity and the theory of evolution. The book then moves on to the discovery of the world's pre-industrial civilizations in Egypt, Mesopotamia, and Central America; the excavations at Troy and Mycenae; the Royal Burials at Ur, Iraq; and the dramatic finding of the pharaoh Tutankhamun in 1922. The book concludes by considering recent sensational discoveries and exploring the debates over processual and post-processual theory that have intrigued archaeologists in the early twenty-first century. The third edition updates this respected introduction to one of the sciences' most fascinating disciplines. A Brief History of Archaeology is a vivid narrative that will engage readers who are new to the discipline, drawing on the authors' extensive experience in the field and classroom.

**Catalogue of Standard English Authors** Dawson, William, & Sons, of London, 1809 *Reinventing the Lacandon* Brian Gollnick, 2022-08-23 Before massive deforestation began in the 1960s, the Lacandon jungle, which lies on the border of Mexico and Guatemala, was part of the largest tropical rain forest north of the Amazon. The destruction of the Lacandon occurred with little attention from the international press until January 1, 1994, when a group of armed Maya rebels, led by a charismatic spokesperson who called himself Subcomandante Marcos, emerged from jungle communities and briefly occupied several towns in the Mexican state of Chiapas. These rebels, known as the Zapatista National Liberation Army, became front-page news around the globe, and they

used their notoriety to issue rhetorically powerful communiqu s that denounced political corruption the Mexican government s treatment of indigenous peoples and the negative impact of globalization As Brian Gollnick reveals the Zapatista communiqu s had deeper roots in the Mayan rain forest than Westerners realized and he points out that the very idea of the jungle is also deeply rooted though in different ways in the Western imagination Gollnick draws on theoretical innovations offered by subaltern studies to discover oral traces left by indigenous inhabitants in dominant cultural productions He explores both how the jungle region and its inhabitants have been represented in literary writings from the time of the Spanish conquest to the present and how the indigenous people have represented themselves in such works including post colonial and anti colonial narratives poetry video and photography His goal is to show how popular and elite cultures have interacted in creating depictions of life in the rain forest and to offer new critical vocabularies for analyzing forms of cross cultural expression

Media,2022-05-30T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Gulf of Honduras was unknown to most North Americans in 1839 as it was far removed from U S trade routes But in 1802 the Spanish Empire began to dissolve and its American colonies broke free 2 Stephens and Catherwood were tasked with meeting the leaders of the recently formed United Provinces of Central America and concluding a trade agreement However they were also on another mission to explore the jungle and see if they could find any intricately sculpted stones 3 Catherwood and Stephens had similar adventures in the Middle East They had both survived the region s often hostile political and natural environment and they had both studied the same ancient historical sites They were like two parallel tracks that were destined to meet 4 In 1836 Catherwood moved his family to New York He began work on a cavernous panorama exhibition hall to show his huge canvases of the Middle East The enterprise took off instantly and drew in healthy profits Meanwhile Stephens was coming off two phenomenal publishing coups He had never drafted anything more exciting than law briefs and contracts but he began writing up his European and Middle Eastern adventures **The History of Archaeology** Paul Bahn,2014-01-10 The History of Archaeology An Introduction provides global coverage with chapters devoted to particular regions of the world The regional approach allows readers to understand the similarities and differences in the history of and approach to archaeology in various parts of the world Each chapter is written by a specialist scholar with experience of the region concerned Thus the book focuses on the earliest beginnings of archaeology in different parts of the world and how it developed from being a pastime for antiquarians and collectors to a serious attempt to obtain information about past societies Woven into the text are various boxes that explore key archaeologists sites and important discoveries in the history of archaeology enriching the story of the discipline s development With such far ranging coverage including an exploration of the little covered development of Russian and Chinese archaeology The History of Archaeology is

the perfect introduction to the history of archaeology for the interested reader and student alike      **Catalogue** Halifax Nova Scotia, legislative libr,1890      *A Mathematician's Journeys* Alexander Jones,Christine Proust,John M.
