Key themes include families and culture, including mass media, families and religion, families and the economy, families and social issues, families and social stratification, and conflict. Family structures, including marriage and divorce, gender roles, parenting, and children, and mixed and non-modal family forms, and family law and policy. Features: Approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrates themes across time.
