Fundamentals of Roman Private Law George Mousourakis,2012-07-03 Roman law forms a vital part of the intellectual background of many legal systems currently in force in Continental Europe Latin America East Asia and other parts of the world Knowledge of Roman law therefore constitutes an essential component of a sound legal education as well as the education of the student of history This book begins with a historical introduction which traces the evolution of Roman law from the earliest period of Roman history up to

and including Justinian's codification in the sixth century AD. Then follows an exposition of the principal institutions of Roman private law, the body of rules and principles relating to individuals in Roman society and regulating their personal and proprietary relationships. In this part of the book, special attention is given to the Roman law of things which forged the foundations for much of the modern law of property and obligations in European legal systems. Combining a law specialist's informed perspective with a historical and cultural focus, the book provides an accessible source of reference for students and researchers in many diverse fields of legal and historical learning.

Legal Procedure and Practice in Medieval Denmark Per Andersen, 2011-05-23. This book offers a comprehensive examination of how the Fourth Lateran Council's prohibition against trial by ordeal was implemented in Danish secular law and how it required both a fundamental restructuring of legal procedure and an entirely different approach to jurisprudence in practice.

**The Foundations of European Transnational Private Law** Anna Beckers, Hans-W. Micklitz, Rodrigo Vallejo, Pia Letto-Vanamo, 2024-05-30. Since Anu Bradford's groundbreaking book on the Brussels Effect, there is a vastly evolving literature on the EU as a global regulatory actor as well as the global reach of EU law. This edited collection connects to this debate. Yet it shifts the focus from the currently predominant public law focus to investigating European and EU private law and to connecting to literature and research on transnational law. To that end, it proceeds first conceptually by introducing and giving shape to the notion of a European Transnational Private Law through four conceptual contributions by the editors. Secondly, it focuses on several sectors: finance, taxation, investment, consumer law, labour law, and topics: climate litigation, global value chains, non-discrimination, to trace sector specifically the role of EU private law in relation to transnational legal ordering.

Cambodian Private International Law Nobumichi Teramura, 2025-09-18. This book is the key reference work on Cambodian private international law in English. The chapters systematically cover the whole of Cambodian private international law, including commercial matters, family law, succession, intellectual property, competition, antitrust, and environmental disputes. The chapters do not merely cover the traditional conflict of law areas of jurisdiction, applicable law, choice of law, and enforcement. They also look into conflict of law questions arising in arbitration and assess Cambodia's involvement in the harmonisation of private international law globally and regionally within ASEAN (Association of Southeast Asian Nations). Similarly structured to the other volumes in the *Studies in Private International Law Asia* series, this book presents the Cambodian conflict of laws through a combination of common and civil law analytical techniques and perspectives, providing readers worldwide with a more profound and comprehensive
