Better William MacAskill,2016-08-02 An up and coming visionary in the world of philanthropy and a cofounder of the
effective altruism movement explains why most of our ideas about how to make a difference are wrong and presents a
counterintuitive way for each of us to do the most good possible While a researcher at Oxford William MacAskill decided to
devote his study to a simple question How can we do good better MacAskill realized that while most of us want to make a
difference we often decide how to do so based on assumptions and emotions rather than facts As a result our good intentions
often lead to ineffective sometimes downright harmful outcomes As an antidote MacAskill and his colleagues developed
effective altruism a practical data driven approach to doing good that allows us to make a tremendous difference regardless
of our resources Effective altruists operate by asking certain key questions that force them to think differently set aside
biases and use evidence and careful reasoning rather than act on impulse In *Doing Good Better* MacAskill lays out these
principles and shows that when we use them correctly when we apply the head and the heart to each of our altruistic
endeavors each of us has the power to do an astonishing amount of good **The Quotable Tycoon** David Olive,2004 The
