Boyd, 2018-03-29 This new volume in the SCM Research series argues that both preaching and Action Research are inherently exposing practices They require a deep level of self consciousness and a willingness to hold oneself up to critique and comment But at their best they are both formed within a deep and supportive critical community Applying a methodology rooted in Action Research as way of Doing Theology ART and drawn from the author's own research within a specific community of practice The Naked Preacher demonstrates for preachers and ministers new ways to be critically and constructively self aware It also offers an important contribution for practical theologians with an interest in action research and critical reflection

Christian Reus-Smit, 2018-08-09 Critically evaluates how international relations theories have conceived culture and advances a new account of cultural diversity and international order [Feeling Strangely in Mid-Century Spanish and Latin American Women's Fiction](#) Tess C. Rankin, 2023-12-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM The early twentieth century was awash in revolutionary scientific discourse and its uptake in the public imaginary through popular scientific writings touched every area of human experience from politics and governance to social mores and culture Feeling Strangely argues that these shifting scientific understandings and their integration into Hispanic and Lusophone society reshaped the experience of gender The book analyzes gender as a felt experience and explores how that experience is shaped by popular scientific discourse by examining the strange femininity of young protagonists in four novels written by women in Spanish and Portuguese Rosa Chacel's *Memorias de Leticia Valle* published in Argentina in 1945 Norah Lange's *Personas en la sala* Argentina 1950 Carmen Laforet's *Nada* Spain 1945 and Clarice Lispector's *Perto do cora o selvagem* Brazil 1943 It pairs each novel with a broad scientific theme selected from those that captured the contemporary popular imagination to argue that the young female protagonists in these novels all put forth visions of young womanhood as an experience of strangeness Building on Carmen Mart n Gait e's term *chicas raras* Rankin proposes this strangeness as constitutive of a gendered experience inextricable from affective and material engagements with the world *The Review of Reviews* William Thomas Stead, 1926 *Wilhelm Herzberg's Jewish Family Papers (1868)* Manja Herrmann, 2021-01-18 Wilhelm Herzberg's novel *Jewish Family Papers* which was first published under a pseudonym in 1868 was one of the bestselling German Jewish books of the nineteenth century Its numerous editions reviews and translations into Dutch English and Hebrew are ample proof of

its impact Herzberg's Jewish Family Papers picks up on some of the most central contemporary philosophical religious and social debates and discusses aspects such as emancipation antisemitism Jewishness and Judaism nationalism and the Christian religion and culture as well as gender roles So far however the novel has not received the scholarly attention it so assuredly deserves This bilingual volume is the first attempt to acknowledge how this outstanding source can contribute to our understanding of German Jewish literature and culture in the nineteenth century and beyond Through interdisciplinary readings it will discuss this forgotten bestseller embedding it within various contemporary discourses religion literature emancipation nationalism culture transnationalism gender theology and philosophy

*Communication Theories: Perspectives, Processes, and Contexts* Katherine Miller, 2005 Providing a current and comprehensive discussion of influential theories in communication this text portrays the strengths and weaknesses of each theory Communication Theories helps students see where these theories fit in the broad scheme of social inquiry and generally guides students in the evaluation and critique of theories in order to reach a more sophisticated level of understanding Although it emphasizes theories developed by communication scholars Communication Theories also includes work developed outside the field that has strongly influenced the work of communication scholars The second edition has been completely updated to include new or enhanced coverage of post colonialism critical race theory new generation social penetration theory and mass media reception theory

Taylor, 2016-12-31 How do people make sense of each other How do people make sense of themselves Social cognition attempts to explain the most fundamental of questions It looks at why other people are not simply objects to be perceived and how the social world provides dramatic and complex perspectives on the Self and Others The subtitle of this book From Brains to Culture reflects the journey that Social Cognition has been on since it first emerged as a dynamic and forward looking field of research within social psychology Structured in four clear parts Social Cognition From Brains to Culture begins with a clear outline of the basic concepts before moving into more topical sections understanding individual selves and others followed by making sense of society The authors finish by looking beyond cognition to affect and behaviour Challenging and rigorous yet strikingly accessible this book is essential reading for all students of social psychology from undergraduate to post graduate and beyond
