**Still Bored in a Culture of Entertainment** Richard Winter, 2002-10-16 Richard Winter's critique of our culture of entertainment explores the nature causes and effects of boredom and counteracts it with practical suggestions for living with passion and wonder *Spiritual Boredom* Dr. Erica Brown, 2012-05-17 Break the Surface of Spiritual Boredom to Find the Reservoir of Meaning Within We need to be bored When we get bored and take responsibility for our boredom we arrive at a new level of interest introspection or action that has been stirred by the very creativity used to keep boredom away The relationship between boredom and creativity is far from accidental Creative minds are often stimulated by boredom regarding it as a brain rest until the next great idea looms on the horizon of the otherwise unoccupied mind from Chapter 10 Boredom is a crisis of our age In religious terms boredom is sapping spirituality of its mystical and wholesome benefits slowly corroding our ability to recognize blessing and beauty in our lives to experience wonder and awe What happens when our need for constant newness minimizes our interest in prayer learning and the mysteries of nature This intriguing look at spiritual boredom helps you understand just what this condition is particularly as it relates to Judaism and what the absence of inspiration means to the present and future of the Jewish tradition Drawing insights from psychology philosophy and theology as well as ancient Jewish texts Dr Erica Brown explores the many ways boredom manifests itself within Judaism in the community classroom and synagogue and shows its potentially powerful cultural impact on a faith structure that advises sanctifying time not merely passing it Critique of Bored Reason Dmitri Nikulin, 2022-02-08 Most of the core concepts of the Western philosophical tradition originate in antiquity Yet boredom is strikingly absent from classical thought In this philosophical study Dmitri Nikulin explores the concept's genealogy to argue that boredom is the mark of modernity Nikulin contends that boredom is a specifically modern phenomenon He provides a critical reconstruction of the concept of the modern subject as universal rational autonomous and self sufficient Understanding itself in this way this subject is at once the protagonist playwright director and spectator of the staged drama of human existence It is therefore inevitably monological lonely and alone and can neither escape its own presence nor get rid of it In other words it is bored and this boredom is the fundamental expression and symptom of the modern condition Considering such thinkers as Descartes Pascal Kant Kierkegaard Kracauer Heidegger and Benjamin Critique of Bored Reason places boredom on center stage in the philosophical critique of modernity Nikulin also considers the alternative to the notion of the autonomous subject in the nonbored and nonboring dialogic and comic subject capable of shared existence with others **Essays on Boredom and Modernity** Barbara Dalle Pezze, Carlo Salzani, 2009 The past thirty years saw a growing academic interest in the phenomenon of boredom If initially the analyses were mostly a historical now the historicity of boredom is widely recognised though often it is taken as evidence of its permanence as a constant quality of the human condition expression of a metaphysical malady inherent to the fact of being human New trends in the literature focus on the peculiar relationship

between boredom and modernity and attempt to embrace the new social cultural and political factors which provoked the epochal change of modernity and relate them to a change in the parameters of human experience and the crisis of subjectivity The very changes that characterise modernity are the same that led to the democratisation of boredom modernity and boredom are shown to be inextricably connected and inseparable This volume aims at contributing to the growing body of literature on boredom with a number of essays which reflect on the connection of boredom and modernity and focus on particular texts authors or aspects of the phenomenon The approach is multidisciplinary in keeping with the pervasiveness of the phenomenon in our culture and societies with essays reflecting on philosophy literature film media and psychology
