Still Life with Cars John L. Lumley, 2005-07-28 Most childhood fascinations are a passing fancy but something about cars tends to capture the imagination forever Witness the countless backyard weed wrapped classics rusted just shy of a shadow slated one day for a return to glory cloudy vacation memories of choking exhaust deafening engines and blinding chrome countless white knuckled highway moments as the driver faces backwards to better glimpse some passing oddity spotted four lanes over Somehow cars have a way of getting into a kid's blood Any chronic condition requires a lifetime of maintenance John Lumley caught the fever early likely from a midnight blue Hudson and it's been with him ever since This engaging memoir follows a life spent nursing an obsession with cars fitting for a son of Detroit's heyday With occasional play in the garage of the Ford estate and an excursion to see Buckminster Fuller's three wheeled Dymaxion among his earliest memories John Lumley's enduring love of cars is no surprise From those childhood adventures followed a lifetime spent elbow deep in engines Nash Hupmobile Mercury Citroen Triumph Volkswagen Lagonda Armstrong Siddeley Bentley and more many of them pictured Though his career was devoted to loftier pursuits the grease beneath his nails perhaps best sums up Lumley's lifelong love Fifty eight photographs and an index accompany the text *Memorial Tributes* National Academy of Engineering, 2017-09-26 This is the 21st Volume in the series *Memorial Tributes* compiled by the National Academy of Engineering as a personal remembrance of the lives and outstanding achievements of its members and foreign associates These volumes are intended to stand as an enduring record of the many contributions of engineers and engineering to the benefit of humankind In most cases the authors of the tributes are contemporaries or colleagues who had personal knowledge of the interests and the engineering accomplishments of the deceased Through its members and foreign associates the Academy carries out the responsibilities for which it was established in 1964 Under the charter of the National Academy of Sciences the National Academy of Engineering was formed as a parallel organization of outstanding engineers Members are elected on the basis of significant contributions to engineering theory and practice and to the literature of engineering or on the basis of demonstrated unusual accomplishments in the pioneering of new and developing fields of technology The National Academies share a responsibility to advise the federal government on matters of science and technology The expertise and credibility that the National Academy of Engineering brings to that task stem directly from the abilities interests and achievements of our members and foreign associates our colleagues and friends whose special gifts we remember in this book **Whither Turbulence and Big Data in the 21st Century?** Andrew Pollard, Luciano Castillo, Luminita Danaila, Mark Glauser, 2016-08-30 This volume provides a snapshot of the current and future trends in turbulence research across a range of disciplines It provides an overview of the key challenges that face scientific and engineering communities in the context of huge databases of turbulence information currently being generated yet poorly mined These challenges include coherent structures and their control wall turbulence and control multi scale turbulence the

impact of turbulence on energy generation and turbulence data manipulation strategies The motivation for this volume is to assist the reader to make physical sense of these data deluges so as to inform both the research community as well as to advance practical outcomes from what is learned Outcomes presented in this collection provide industry with information that impacts their activities such as minimizing impact of wind farms opportunities for understanding large scale wind events and large eddy simulation of the hydrodynamics of bays and lakes thereby increasing energy efficiencies and minimizing emissions and noise from jet engines Elucidates established contemporary and novel aspects of fluid turbulence a ubiquitous yet poorly understood phenomena Explores computer simulation of turbulence in the context of the emerging unprecedented profusion of experimental data which will need to be stewarded and archived Examines a compendium of problems and issues that investigators can use to help formulate new promising research ideas Makes the case for why funding agencies and scientists around the world need to lead a global effort to establish and steward large stores of turbulence data rather than leaving them to individual researchers

Geraldine Bate Macpherson,Mrs. Jameson (Anna),Mrs. Oliphant (Margaret),1878 **Memoirs of Myths and Truths** Carl B. Allen,2008-07-02 Memoirs of Myths and Truths in an Ordinary Pebble s Extraordinary Life We find the author considers himself an ordinary pebble among others of his time who has gone on a desperate search for love and approval But even an ordinary pebbles like him can have an extraordinary life because he is not ordinary from the start finding at an early age confusion and embarrassment regarding whether an accident or his mind makes him that way It s not until into his young adult stream does he discover another reason for his rebel behavior in school and life Which as a reader you ll recognized some problems in the text of the book cover and in the book s written words or spelling or sentence structure being a struggle You ll see it s not his schooling it s his battle with being dyslexic Yet there is some great writing and inspiration plus the help of a few photos to bring you into his or your memories and times when some myths emerged from stories and some being real truths Pebbles we all are truths are maybe what we think they should be and myths are longer lasting then we may know The author finds himself slowly aware of being in his September years having a sense of belonging to the past and present but a much shorter future With that comes a sense of family and the closeness of friends which has brought him to this place of wonderment that has continued from those wonderful years of youth They have brought him to these joyous thoughts while writing these memoirs and making reflecting on his extraordinary life Starting at first writing this for all his kin and others within that stream surround him but then realize other pebbles of this time can bring back some reflection on these times with a little smile some sadness and reflection too He may have wandered through those youthful years winding through life s paths and finding some running on empty or full or too fast or too slow at the time like the automobiles of the day His nurturing as a child not always satisfying resulted in the building many protective walls around his self Yet like James Dean in East of Eden or Rebel Without a Cause or Giant there was this desperate search for love and approval not always available for many reasons and questionable behavior leading to myths or truths Seeking his own needs while being an ordinary pebble has resulted in finding an extraordinary life There is a expression of views from his heart and mind trying to embrace so much of that extraordinary life that lies hidden deeper within his self and yet always trying to hold and consider that these are parts of his life whether shinning with beauty or happiness or sadness finding only to be viewed as an expression of soul He has tried painting but now the written word in expressing some of those myths spoken truths found within the soul and trusted memories They carry simple but complex myths in the life of an ordinary pebble always amazed by the course of the streams found These memoirs are a reflection of our times history love for the

automobile then adding the racing with many encounters with lovers and places that have been traveled that brings this extraordinary life into view The book is about people encountered in his life s stream the persons who have enriched this life and helped him to find out who he is Also that going through this journey gathering memories myths or truths these moments sustained his notion of an ordinary pebble s extraordinary life These events have allowed reflection on moral issues and things that are questionable judgment He hope that you enjoy this time traveling in this stream Pebbles we are yet we are still the most important part in those stream surrounding us finding most everyone else s lives continue similarly within those same small stream we live in rubbing shoulders and sharing our life s stream with others matter more than we know because as others enrich our lives we can d
