Voice in Motion Gina Bloom, 2013-04-19

Voice in Motion explores the human voice as a literary, historical, and performative motif in early modern English drama and culture where the voice was frequently represented as struggling, even failing to work. In a compelling and original argument, Gina Bloom demonstrates that early modern ideas about the efficacy of spoken communication spring from an understanding of the voice's materiality. Voices can be cracked by the bodies that produce them, scattered by winds when transmitted as breath through their acoustic environment, stopped by clogged ears meant to receive them, and displaced by echoic resonances. The early modern theater underscored the voice's volatility through the use of pubescent boy actors whose vocal organs were especially vulnerable to malfunction. Reading plays by Shakespeare, Marston, and their contemporaries alongside a wide range of late sixteenth and early seventeenth-century texts, including anatomy books, acoustic science treatises, Protestant sermons, music manuals, and even translations of Ovid, Bloom maintains that cultural representations and theatrical enactments of the voice as unruly matter undermined early modern hierarchies of gender. The uncontrollable physical voice creates anxiety for men whose masculinity is contingent on their capacity to discipline their voices and the voices of their subordinates. By contrast, for women, the voice is most effective not when it is owned and mastered but when it is relinquished to the environment. Beyond there, the voice's fragile material form assumes its full destabilizing potential and becomes a surprising source of female power. Indeed, Bloom goes further to query the boundary between the production and reception of vocal sound, suggesting provocatively that it is through active listening, not just speaking, that women on and off the stage reshape their world. Bringing together performance theory, theater history, theories of embodiment, and sound studies, this book makes a significant contribution to gender studies and feminist theory by challenging traditional conceptions of the links among voice, body, and self.

Early Modern Performance Beyond the Public Stage Amrita Sen, Jennifer Linhart Wood, 2025-09-18

The first major work to explore and analyze the popular extra-theatrical performances in late medieval and Renaissance England. This wider, heterogeneous category of early modern performance included puppetry, fireworks, shows, rope dancing, minstrelsy, performing animals, games, civic drama, court masques, university drama, morris dances, and ceremonial rituals, all taking place in a variety of venues. The volume reveals how these extra-theatrical productions shaped urban and rural life and conveyed a sense of spectacular excess, of exceeding traditional genres, conventional modes of performance, and the typical bounds of theatrical space. The spaces where medieval and early modern drama flourished include pageant carts, convents, private homes, universities, waterways, and the streets of both urban and rural communities. Much like public theatres, these performance spaces also played a pivotal role in articulating individual, communal, and national aspirations. Spanning the medieval period to the late 17th century, this volume engages with questions of spatiality, gender, religion, transcontinental

exchanges and colonialism presenting the latest research from scholars across the globe The Style of the State in French Theater, 1630-1660 Katherine Ibbett, 2016-12-05 Engaging with recent thinking about performance political theory and canon formation this study addresses the significance of the formal changes in seventeenth century French theater Each chapter takes up a particularity of seventeenth century theatrical style and staging for example the clearing of violence from the stage and shows how the conceptualization of these French stylistic shifts appropriates a rich body of Italian political writing on questions of action temporality and law The theater's appropriation of political concerns and vocabularies the author argues proffers an astute reflection on the practices of government that draws attention to questions obscured in reason of state such as the instrumentalization of women's bodies In a new reading of tragedies about government the author shows how the canonical figure of Pierre Corneille is formally engaged with the political strategizing he often appears to repudiate and in so doing challenges a literary history that has read neoclassicism largely as a display of pure French style

Balizet, 2014-04-24 In this volume the author argues that blood was crucially a means by which dramatists negotiated shifting contours of domesticity in 16th and 17th century England Early modern English drama vividly addressed contemporary debates over an expanding idea of the domestic which encompassed the domus as well as sex parenthood household order the relationship between home and state and the connections between family honor and national identity The author contends that the domestic ideology expressed by theatrical depictions of marriage and household order is one built on the simultaneous familiarity and violence inherent to blood The theatrical relation between blood and home is far more intricate than the idealized language of the familial bloodline the home was itself a bloody place with domestic bloodstains signifying a range of experiences including religious worship sex murder birth healing and holy justice Focusing on four bleeding figures the Bleeding Bride Bleeding Husband Bleeding Child and Bleeding Patient the author argues that the household blood of the early modern stage not only expressed the violence and conflict occasioned by domestic ideology but also established the home as a site that alternately reified and challenged patriarchal authority **Dance as Text** Mark Franko, 2015-07-28 Dance as Text Ideologies of the Baroque Body is a historical and theoretical examination of French court ballet over a hundred year period beginning in 1573 that spans the late Renaissance and early baroque Utilizing aesthetic and ideological criteria author Mark Franko analyzes court ballet librettos contemporary performance theory and related commentary on dance and movement in the literature of this period Examining the formal choreographic apparatus that characterizes late Valois and early Bourbon ballet spectacle Franko postulates that the evolving aesthetic ultimately reflected the political situation of the noble class which devised and performed court ballets He shows how the body emerged from verbal theater as a self sufficient text whose autonomy had varied ideological connotations most important among which was the expression of noble resistance to the increasingly absolutist monarchy Franko's analysis blends archival research with critical and cultural theory in order to resituate the burlesque tradition in its politically volatile context Dance as Text thus provides a picture of the complex theoretical underpinnings of composite spectacle the ideological tensions underlying experiments with autonomous dance and finally the subversiveness of Molière's use of court ballet traditions **Cinematic Journeys** Dimitris Eleftheriotis, 2010-04-30 Cinematic Journeys explores the interconnected histories theories and aesthetics of mobile vision and cinematic movement It traces the links between certain types of movement of in the frame and broader cultural trends that have historically informed Western sensibilities It contextualises that genealogy with detailed analysis of contemporary and recent travel films as well as older works The book investigates how movements of exploration discovery and revelation are activated in specific cinematic narratives of travelling and displacement Such narratives are analysed with attention to the mass population movements and displacements that form their referential background Cinematic Journeys also examines

the ways in which travelling affects film itself Case studies focus on films as travelling commodities with the popularity of Indian films in Greece in the 1950s and 60s as case study and through a study of subtitles on the category of the foreign spectator who in the encounter with foreign films moves across cultural borders Films considered in the book include Sunrise Slow Motion Huckle Death in Venice Voyage to Italy The Motorcycle Diaries Koktebel Japon Blackboards Ulysses Gaze and the work of directors Tony Gatliff and Fatih Akin A Cultural History of Tragedy in the Modern Age Jennifer

Wallace,2021-05-20 In this book leading scholars come together to provide a comprehensive wide ranging overview of tragedy in theatre and other media from 1920 to the present The 20th century is often considered to have witnessed the death of tragedy as a theatrical genre but it was marked by many tragic events and historical catastrophes from two world wars and genocide to the proliferation of nuclear weapons and the anticipation and onset of climate change The authors in this volume wrestle with this paradox and consider the degree to which the definitions forms and media of tragedy were transformed in the modern period and how far the tragic tradition updated in performance still spoke to 20th and 21st century challenges While theater remains the primary focus of investigation in this strikingly illustrated book the essays also cover tragic representation often re mediated fragmented and provocatively questioned in film art and installation photography fiction and creative non fiction documentary reporting political theory and activism Since 24 7 news cycles travel fast and modern crises cross borders and are reported across the globe more swiftly than in previous centuries this volume includes intercultural encounters various forms of hybridity and postcolonial tragic representations Each chapter takes a different theme as its focus forms and media sites of performance and circulation communities of production and consumption philosophy and social theory religion ritual and myth politics of city and nation society and family and gender and sexuality **Writing Performative Shakespeares** Rob Conkie,2016-02-24 This original and innovative study offers the

masking technology and trauma Andrew Sofer engagingly illuminates the invisible in different periods of postclassical western theater and drama He reveals how the invisible continually structures and focuses an audience's theatrical experience whether it's black magic in *Doctor Faustus* offstage sex in *A Midsummer Night's Dream* masked women in *The Rover* self-consuming bodies in *Suddenly Last Summer* or surveillance technology in *The Archbishop's Ceiling* Each discussion pinpoints new and striking facets of drama and performance that escape sight Taken together Sofer's lively case studies illuminate how dark matter is woven into the very fabric of theatrical representation Written in an accessible style and grounded in theater studies but interdisciplinary by design *Dark Matter* will appeal to theater and performance scholars literary critics students and theater practitioners particularly playwrights and directors
